IN-CONTAINER PRESERVATIVE
This product is recommended as an in-container preservative for the control of bacteria and fungi in industrial and household consumer products, such as air fresheners, automotive products, fabric softeners, hand cleaners, polishes for floors and furniture, shoe polishes, metal sponges and towel wipes, spray starch, waxes and automotive polishes, hand and automatic dish detergents, liquid laundry detergents and soil washers, household cleaners, industrial cleaners, liquid hand soaps, oil and grease removers, carpet cleaners and spot removers, wood and floor cleaners, raw materials for cleaning products, surfactants and silicone emulsions.

INDUSTRIAL RECYCLATING WATER COOLING TOWERS
This product is recommended for the control of bacteria, algae and fungi in industrial recirculating water cooling towers when added to the tower basin, distributor box or some other point to insure uniform mixing.

AIR WASHER SYSTEMS
This product is recommended for the control of bacteria, algae and fungi which cause fouling in industrial air washer systems.

INDUSTRIAL RECYCLATING CLOSED LOOP WATER COOLING SYSTEMS
This product is recommended for the control of bacteria, algae and fungi in industrial recirculating closed loop water cooling systems when added to the reservoir, recirculating line or some other point to insure uniform mixing.

DISPERSED PIGMENT PRESERVATION
This product is recommended for the control of bacteria and fungi in the manufacture and storage of dispersed pigments such as kaolin clay, montmorillonite clay, titanium dioxide, calcium carbonate, calcium sulfate, barium sulfate, magnesium silicate, and kaolinite used in paint and paper production.

WOOD AND WOOD PRODUCTS
This product is recommended for the protection of wood and wood products such as landscape timbers, fences, posts, terrestrial-use pilings, crossties, decks and similar exterior surfaces from mold and mildew.

PAPERMILLS
This product is recommended for the control of bacterial and fungal slime in the production of paper.

OIL FIELD INJECTION WATERS
This product is recommended for the control of slime-forming and sulfate-reducing bacteria in oil and gas field water systems, including enhanced recovery injection fluids, drilling, fracturing and completion fluids. This product may be used for terrestrial and offshore oil drilling muds and packer fluids.
