CAUTION: Harmful if swallowed, absorbed through the skin, or inhaled. Causes moderate eye irritation. Avoid contact with skin, eyes or clothing. Avoid breathing vapor. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove contaminated clothing and wash before reuse. Wear chemical resistant gloves and protective eyewear.

FIRST AID

IF SWALLOWED: Call a Poison Control Center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a Poison Control Center or doctor. Do not give anything by mouth to an unconscious person.

IF INHALED: Move to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a Poison Control Center or doctor for further treatment advice.

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a Poison Control Center or doctor or doctor for further treatment advice.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a Poison Control Center or doctor for treatment advice.

HOT LINE NUMBER:

Have the product container or label with you when contacting a poison control center or doctor, or going for treatment. For emergency information on product, uses, and treatment, etc., call the National Pesticides Information Center at 1-800-858-7378, 6:30 am - 4:30 pm Pacific Time (PT), or 1-800-222-1222, 24 hours per day, 7 days a week. Otherwise, call the Poison Control Center at 1-800-222-1222.

METHOD OF APPLICATION

For use on peaches, nectarines, apricots, plums, cherries and other stone fruits, apples, quince and other pome fruits, almonds, macadamia and other tree nut crops. The rate of application of CheckMate OFM-SL+ is 1-200 dispenser per acre (250-625 per hectare). For best results apply at the time of or shortly before oriental fruit moths, macadamia nut borers or koa seedworms begin to emerge in the spring, or at intervals (the first dispenser is placed when moths are first seen, but no later than when larvae are found consistently in pheromone traps such as BioLure®). This product only affects adult male moths and will have no effect on female moths, eggs or larvae. If application occurs following biofix or during the growing season, supplemental insecticide applications during the season or pre.harvest treatments may be necessary to control emerging larvae. Use Biorac® Tephra dust as an attractant for trap placement. Monitor for insect infestation with traps and by visual inspection of trees and fruit. Re-apply CheckMate OFM-SL+ as needed, based on monitoring results and field scouting. Do not exceed a total of 150 grams a.i./acre/year (290 dispenser/acre/year).

Apply dispensers by hand to hanging or thumb-size limbs of crop to be protected. Place dispensers in the upper one-third of the tree, or higher. If there is a persistent and prevalent wind, apply one dispenser to every tree on the upper one-third of the orchard, and then evenly distribute the remaining dispensers in the orchard.

Do not handle other types of insect lures before or after dispenser placement without thoroughly washing hands. DO NOT dispense pheromone traps in the orchard before handling CheckMate OFM-SL+. Monitor treatments carefully, especially for secondary peels such as peach twig borer. Do not use CheckMate OFM-SL+ from damaged, punctured or unsealed containers.

STORAGE AND DISPOSAL

DO NOT contaminate water, food or feed by storage or disposal. PESTICIDE STORAGE: Store container in cool place until used. Reseal containers immediately after use. Store unused product in a secure place for heather not used for food storage.

PESTICIDE DISPOSAL: Wastes resulting from use of this product may be disposed of on-site or at an approved disposal facility.

CONTAINER DISPOSAL: Plastic containers: Non-refillable container. Do not re-use or refill this container. Do not mix with other pesticides, fertilizers, or household chemicals. Do not contaminate water, food or feed by storage or disposal. Pesticide wastes may be hazardous and attempts to treat such wastes with substances such as ashing, burning, or otherwise may increase hazards. Never dispose of wastes on or into him, water, soil, or air. Take this container and the pest control instructions to a licensed disposal facility or site. Take this container to the local refuse collection point, or if no local point is available, contact your state's waste disposal office to locate a disposal facility. Store container unopened in cool area. Do Not dispose of spraying equipment in landfills or in a sanitary landfill. Dispenser is non-refillable. Do not incinerate. Do not burn foliage, leaves, twigs, etc. in fire. Do not burn foliage, leaves, twigs, etc. in fire. Do not burn foliage, leaves, twigs, etc. in fire. Do not burn foliage, leaves, twigs, etc. in fire. Do not burn foliage, leaves, twigs, etc. in fire. Do not burn foliage, leaves, twigs, etc. in fire.
