**FIRST AID**

**If In Eyes:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after first 5 minutes. Then continue rinsing. Call a Poison Control Center or doctor immediately. If person is not breathing, call 911 or an ambulance, then give artificial respiration. If person is breathing, give only artificial respiration.

**If Swallowed:** Do not induce vomiting unless told to do so by the Poison Control Center or doctor. Give 1-2 cups of water if able to swallow. Call a Poison Control Center or doctor for treatment advice.

**If Inhaled:** Move person to fresh air. If person is not breathing call 911 or an ambulance, then give artificial respiration. Avoid breathing spray mist. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse.

**If on Skin or Clothing:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a Poison Control Center or doctor for treatment advice.

**If in Eyes:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Call a Physician or doctor immediately. Have the product container or label with you when calling to Poison Control Center or a doctor, or going for treatment. You may also contact 1-800-535-5053 for emergency treatment information.

**KEEP OUT OF REACH OF CHILDREN**

**DANGER**

**IF SURFACE SANITIZER IS APPLIED DIRECTLY TO THE SKIN:** Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse.

**IF SWALLOWED:** Do not induce vomiting unless told to do so by the Poison Control Center or doctor. Give 1-2 cups of water if able to swallow. Call a Poison Control Center or doctor for treatment advice.

**IF INHALED:** Move person to fresh air. If person is not breathing call 911 or an ambulance, then give artificial respiration. Avoid breathing spray mist. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse.

**IF ON SKIN OR CLOTHING:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a Poison Control Center or doctor for treatment advice.

**IF IN EYES:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after first 5 minutes. Then continue rinsing. Call a Poison Control Center or doctor immediately. If person is not breathing, call 911 or an ambulance, then give artificial respiration. If person is breathing, give only artificial respiration.
Phosphate content expressed as grams P per ounce: 6.5 gm/oz.

Phosphate content by weight percent as expressed as %P: 15.8%

Phosphate content expressed as grams P per ounce: 6.5 gm/oz.

**FIRST AID**

**IF IN EYES:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after first 5 minutes. Then continue rinsing. Call a Poison Control Center or doctor for treatment advice.

**IF INHALED:** Move person to fresh air. If person is not breathing call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call a Poison Control Center or doctor for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the Poison Control Center or doctor. Do not give anything to an unconscious person. Call a Poison Control Center or doctor immediately for treatment advice. Have the product container or label with you when calling to Poison Control Center or a doctor, or going for treatment. You may also contact 1-800-535-5053 for emergency treatment information.

**NOTE TO PHYSICIAN:** Probable mucosal damage may constitute the use of gastric lavage.

**SPECIAL TREATMENT IN CASE OF URGENCY OR ACUTE OVERDOSE:** Consult your poison control center or the Safety Data Sheet (SDS). For additional information, contact your representative or the Safety Data Sheet (SDS).

**PESTICIDE DISPOSAL:** Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture or rinsate is a violation of Federal law. If these wastes cannot be recycled if available or place in trash. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times. Offer for recovery if available or place in trash. For additional information, consult your representative or the Safety Data Sheet (SDS).

**DISPOSAL:** Nonrefillable Container. Do not reuse or refill this container. Clean container promptly after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank or store rinsate for later use or drainage. Pour rinsate into application equipment or a mix tank or store rinsate for later use or drainage. Keep out of reach of children.
STAR SAN
ACID SANITIZER FOR SURFACE SANITATION

ACTIVE INGREDIENT:
Dodecylbenzenesulfonic Acid ................................. 15.0%
Phosphoric Acid .................................................. 50.0%

INERT INGREDIENTS ............................................. 35.0%

Total .......................................................... 100.0%

Phosphate content by weight percent as expressed as %P . . . 15.8%
Phosphate content expressed as grams P per ounce .... 6.5 gm/oz.

KEEP OUT OF REACH OF CHILDREN
DANGER

FIRST AID

If in Eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after first 5 minutes. Then continue rinsing. Call a Poison Control Center or doctor for treatment advice.

If on Skin or Clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a Poison Control Center or doctor for treatment advice.

If Swallowed: Call a Poison Control Center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the Poison Control Center or doctor. Do not give anything to an unconscious person.

If Inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call a Poison Control Center or doctor for treatment advice.

NOTE TO PHYSICIAN:
Probable mucosal damage may contraindicate the use of gastric lavage.

Hazard to Humans and Domestic Animals

PRECAUTIONARY STATEMENTS

General Precautions and Restrictions
Do not use on cutting boards; or unglazed porcelain.

PRECAUTIONARY STATEMENTS Hazard to Humans and Domestic Animals

DANGER: Corrosive. Causes irreversible eye damage and skin burns. Do not get in eyes, on skin or on clothing. Wear protective eyewear, clothing and rubber gloves. Harmful if swallowed or absorbed through skin or inhaled. Avoid breathing spray mist. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse.

PHYSICAL AND CHEMICAL HAZARDS
Do not use or store near heat or open flame. Do not mix 16 oz STAR SAN ACID SANITIZER with Chlorine Sanitizers or Chlорinated Cleaners. A harmful gas is formed.

DIRECTIONS FOR USE: It is a violation of federal law to use this product in a manner inconsistent with its labeling. For use as sanitizer in food processing locations, dairies, restaurants and bars. For sanitizing food processing equipment, dairy equipment, brewery equipment, food utensils, dishes, glasses, silverware, sink tops, countertops, refrigerated storage and display equipment toilet seats.

Directions: Remove all gross debris from surface before cleaning. Prior to application, remove gross food particles and soil by pre flush or pre-scrape and, when necessary, presoak. Then thoroughly wash or flush objects with a good detergent or compatible cleaner followed by a potable water rinse before applications of the sanitizing solution. Prepare a use dilution of 1 oz Star San Acid Sanitizer/5 gallons of tap water. Apply on surface with a cloth, mop, sponge, spray or by immersion. For spray applications use a coarse-mist, pump or trigger sprayer. Spray 6 to 8 inches from surface, rub with a brush, cloth or a sponge. With spray applications cover or remove all food products. For all applications, allow to air dry (but surface must remain wet for one minute), do not rinse after application.

STAR SAN ACID SANITIZER provides 300 ppm, of dodecylbenzenesulfonic acid and 780 ppm of phosphoric acid when applied at the listed dilution rate. On pre-cleaned food contact surfaces, STAR SAN ACID SANITIZER is effective against Escherichia coli (ATCC 8739) and Staphylococcus aureus (ATCC 6538).

STORAGE AND DISPOSAL
Do not contaminate water, food or feed by storage and disposal.

PESTICIDE STORAGE: Store in a well ventilated area away from heat, flame, sparks, electrical equipment and other ignition sources.

PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture or rinse water is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL: Nonrefillable Container. Do not reuse or refill this container. Clean container promptly after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank and drain for 10 seconds after the flow begins to drip. Fill the container 1/4 full with water and recap. Shake for 10 seconds. Pour rinsate into application equipment or a mix tank or store rinse for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two or more times. Offer for recycling if available or place in trash.

For additional information, consult your representative or the Safety Data Sheet (SDS).
