FOR DISTRIBUTION AND USE ONLY WITHIN THE STATE OF OREGON
(EAST OF THE CASCADE MOUNTAIN RANGE)

EVEREST® 2.0 HERBICIDE

Active Ingredient By weight
Flucarbazone-sodium,
4,5-Dihydro-3-methoxy-4-methyl-5-oxo-N-
[2-(trifluoromethoxy)phenyl]sulfonyl]-1H-
1,2,4-triazole-1-carboxamide, sodium salt ........................................... 35.0%
Other Ingredients .......................................................................................... 65.0%
Total ............................................................................................................. 100.0%

This formulation contains 3.5 lbs of Flucarbazone-Sodium active ingredient per
gallon (419 g ai/l)

EPA Reg. No. 66330-391 EPA SLN No. OR-110008

THIS LABEL IS VALID UNTIL DECEMBER 31, 2026 UNLESS OTHERWISE AMENDED,
WITHDRAWN, CANCELED, OR SUSPENDED.

For Use on Perennial Kentucky Bluegrass Grown For Seed Only During the Year
of Establishment

KEEP OUT OF REACH OF CHILDREN

CAUTION / PRECAUCIÓN
Si usted no entiende la etiqueta, busque á alguien para que se la explique á usted en detalle.
(If you do not understand this label, find someone to explain it to you in detail.)

FOR 24-HOUR MEDICAL EMERGENCY ASSISTANCE CALL .Rocky Mountain
Poison and Drug Safety at 1-866-673-6671.
FOR 24-HOUR CHEMICAL EMERGENCY (Spill, leaks, fire, exposure or
accident) CALL CHEMTREC: 1-800-424-9300.

ENVIRONMENTAL HAZARDS
Do not apply directly to water, or to areas where surface water is present or to intertidal
areas below the mean high water mark. Do not apply when weather conditions favor drift
from areas treated. Do not contaminate water when disposing of equipment washwaters
or rinsate.
Do not allow sprays to drift onto adjacent desirable plants.
DIRECTIONS FOR USE
It is a violation of Federal law to use this product in a manner inconsistent with its labeling. This label and the federal label for this product must be in the possession of the user at the time of pesticide application. Read the label affixed to the container for EVEREST 2.0 HERBICIDE and this Section 24c label before applying. Follow all applicable directions, restrictions, Worker Protection Standard requirements and precautions provided on the label affixed to the container for EVEREST 2.0 HERBICIDE and this Section 24c label.

USE RATES
Apply EVEREST 2.0 HERBICIDE to Kentucky bluegrass grown for seed (only during the year of establishment) for control of wild oats, windgrass, and other grass and broadleaf weeds at a rate of 1.0 fl oz/A, with a non-ionic surfactant at a rate of 0.25% v/v.

GROUND APPLICATION
Apply in water using a spray volume of 5 to 10 gallons/acre (or 50 to 100 liters/hectare) at 30 to 50 psi to ensure proper weed coverage. Flat fan nozzles of 80 or 110 degrees are recommended for optimum coverage. Do not use floodjet or controlled droplet application (CDA) equipment. Nozzles may be oriented 45 degrees forward to enhance crop penetration and to give better weed coverage.

AERIAL APPLICATION
Apply in water using a minimum spray volume of 3 gal/A (or 30 L/ha). For best results, particularly in dry conditions or where heavy weed infestations exist, use a minimum of 5
gal/A (or 50 L/ha). Use nozzles that provide 200 to 350 micron size droplets for best results and to insure uniform spray coverage. Aerial applications with EVEREST 2.0 HERBICIDE should be made with low drift nozzles at a maximum height of 10 feet above the crop and at a maximum pressure of 40 psi. Do not apply aerially when wind speed is greater than 10 mph. Do not allow spray to drift onto adjacent crops, as injury or loss may occur.

Refer to the SPRAY DRIFT MANAGEMENT section of the label affixed to the container of EVEREST 2.0 HERBICIDE for additional information on how to reduce drift during aerial application.

ENDANGERED SPECIES PROTECTION
To avoid adverse effects on endangered dicot plant species, the following measures will be required where endangered plant species occur in the counties listed in the table below:

<table>
<thead>
<tr>
<th>State</th>
<th>County</th>
</tr>
</thead>
<tbody>
<tr>
<td>Oregon</td>
<td>Union/Wallowa</td>
</tr>
</tbody>
</table>

For ground applications, the applicator must:
- Apply when there is sustained wind away from native plant communities, OR
- Use low-pressure nozzles according to manufacturer’s specifications that produce only coarse or very coarse droplets, OR
- Leave a 50-foot untreated buffer between the treatment and native plant communities.

For aerial applications, the applicator must:
- Apply only when there is sustained wind away from native plant communities, OR
- Leave a 350-foot untreated buffer between the treatment and native plant communities.

RESTRICTIONS/PRECAUTIONS
Do not apply more than 1.0 fl oz/A of EVEREST 2.0 HERBICIDE per year.

Do not make more than one postemergence application of EVEREST 2.0 HERBICIDE per year.

Do not graze livestock or harvest forage from treated Kentucky bluegrass seed fields within 1 year (365 days) of application.

For use under this SLN label do not apply EVEREST 2.0 HERBICIDE through any type of irrigation system.

Do not use EVEREST 2.0 HERBICIDE in annual production systems of Kentucky bluegrass grown for seed.

Do not apply EVEREST 2.0 HERBICIDE within 1 year (365 days) of harvesting Kentucky bluegrass seed.
UPL NA INC.’S WARRANTY DISCLAIMER FOR USE OF EVEREST 2.0 HERBICIDE ON KENTUCKY BLUEGRASS GROWN FOR SEED

EVEREST 2.0 HERBICIDE when used on Kentucky bluegrass grown for seed may lead to crop injury, loss, or damage. UPL NA Inc. recommends that the user and/or grower test EVEREST 2.0 HERBICIDE in order to determine its suitability for such intended use. UPL NA Inc. makes EVEREST 2.0 HERBICIDE available to the user and/or grower solely to the extent the benefit and utility, in the sole opinion of the user and/or grower, outweigh the extent of potential injury associated with the use of this product. The decision to use or not to use EVEREST 2.0 HERBICIDE must be made by each individual EVEREST 2.0 HERBICIDE user and/or grower on the basis of possible crop injury from EVEREST 2.0 HERBICIDE, the severity of weed infestation, the cost of alternative weed controls, and other factors. UPL NA Inc. intends that because of the risk of crop damage that all such use is at the user’s and/or grower’s risk. UPL NA Inc. makes no warranty, express or implied, with respect to the suitability of EVEREST 2.0 HERBICIDE for use on Kentucky bluegrass grown for seed.
