Cann-Care Thyme Bomb™

**APPLY INSTRUCTIONS**

**How to Mix:**

1. SHAKE WELL BEFORE USE
2. Mix 3 oz Cann-Care Thyme Bomb Concentrate to 1 gallon water.
3. Mix 3 oz mix does not eradicate pest, up to 6 oz may be mixed to 1 gallon water.

**APPLICATION & DIRECTIONS**

**How to Apply:**

1. **For indoor use:**
   a. Using misting or cold-fogging machines, apply Cann-Care Thyme Bomb indoors or outdoors for rapid control of crawling insects.
   b. Distribute product uniformly throughout entire area at a rate of ½ ounce per 100 square feet.
   c. Can also be added to irrigation and drip watering lines at the rate of one ounce per 100 square feet.
   d. Heavy infestations may require removal of leaves and buds followed by drenching in order to return plant to health.

2. **In grow media:**
   a. Cann-Care Thyme Bomb can treat the soil or potting mix planting to reduce spores, larvae and eggs.
   b. Use appropriate nozzles and nozzle configurations, along with sufficient spray volume to achieve thorough coverage. Rates of application may need to increase with increased insect populations and/or large plant canopies.

3. **Space Spraying:**
   a. Apply with all types of hand and power sprayers. Read and carefully follow instructions for type of sprayer.
   b. Apply Cann-Care Thyme Bomb to plants two times per week.
   c. Space spraying is necessary for typical use. Thyme vaporizes in a few days. Re-Entry Interval (REI) is 4 hours.

4. **If 3 oz mix does not eradicate pest, up to 6 oz may be mixed to 1 gallon water.**

**APPLICATION & DIRECTIONS**

**Warranty**

Warranty of this product complies with the act of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) as amended, and laws of the states and/or regions of sale. If product is found to be defective in material or workmanship, within a reasonable period of time after purchase, and used as directed, it will be replaced free of charge. Contact Cann-Care for replacement. This warranty does not cover damages caused by miss use or mishandling of product. Cann-Care Thyme Bomb shall have no liability for consequential damages.

<tr>
<th>Pests</th>
<th>Thyme Bomb (gts/acre)</th>
<th>Remarks</th>
</tr>
</thead>
<tbody>
<tr>
<td>Leafhoppers:</td>
<td>2-4</td>
<td>For Suppression: Begin treatments before thresholds have been reached.</td>
</tr>
<tr>
<td>Thrips:</td>
<td>2-4</td>
<td>Begin applications as soon as thrips are seen. Continue applications as needed. Thrips will seek shelter in hard-to-reach parts of the plant. Use appropriate nozzles with sufficient water volume and spray pressure for thorough coverage.</td>
</tr>
<tr>
<td>Mites:</td>
<td>2-4</td>
<td>Begin applications when thresholds have been reached. The rate of THYM E BOMB will depend on plant size and pest pressure. Use a lower rate for light infestation and/or small plant canopy and a higher rate for heavy infestations and/or large plants. Adjust equipment, spray volume, and spray pressure to ensure thorough coverage of infested parts of the crop.</td>
</tr>
