

FOAMING
Root Killer

ROEBIC®

DOES NOT CONTAIN COPPER

Active Ingredient:
Dichlobenil (2,6 dichlorobenzonitrile) . . . 0.55%
Other Ingredients: 99.45%
TOTAL 100.00%

Keep Out of Reach of Children
CAUTION 454 grams
See Side (Back) Panel For Additional Precautionary Statements

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
CAUTION

Causes moderate eye irritation. Avoid contact with eyes, skin or clothing. Harmful if swallowed, inhaled or absorbed through skin. Avoid breathing dust.

FIRST AID

If in eyes	<ul style="list-style-type: none"> • Hold eye open and rinse slowly and gently with water for 15-20 minutes. • Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. • Call a poison control center or doctor for treatment advice.
If inhaled	<ul style="list-style-type: none"> • Move person to fresh air. • If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. • Call a poison control center or doctor for further treatment advice.
If on skin or clothing	<ul style="list-style-type: none"> • Take off contaminated clothing. • Rinse skin immediately with plenty of water for 15-20 minutes. • Call a poison control center or doctor for treatment advice.
If swallowed	<ul style="list-style-type: none"> • Call a poison control center or doctor immediately for treatment advice. • Have a person sip a glass of water if able to swallow.

FIRST AID (continued)

If swallowed (continued)	<ul style="list-style-type: none"> • Do not induce vomiting unless told to do so by the poison control center or doctor. • Do not give anything by mouth to an unconscious person.
---------------------------------	--

HOT LINE NUMBER

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For emergency assistance, please call toll free 800-858-7378.

NOTE TO PHYSICIAN

Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsions may be needed.

Foaming Root Killer contains Dichlobenil which kills the roots and prevents new growth. Dichlobenil is readily absorbed on organic and inorganic colloids of sludge and clay in pipe joints providing residual control of root regrowth by inhibiting the development of actively dividing meristem cells in root tips. New root growths formed outside the pipe joints are retarded or inhibited in growth when they come in contact with Dichlobenil inside the pipe. Foaming Root Killer self foams on contact with water. The foam acts as a carrying agent, putting the active ingredient in contact with the tree roots above the flow.

FOR DIRECTIONS PEEL HERE

Environmental Hazards: For terrestrial uses, do not use near a well or where drinking water is stored. Do not apply directly to water or to areas where surface water is present or to inter tidal areas below the mean high water mark. Do not contaminate water when disposing of equipment, wash water or rinsate. This chemical has properties and characteristics associated with chemicals detected in ground water. The use of this chemical in areas where soils are permeable, particularly where the water table is shallow may result in ground-water contamination.

Personal Protective Equipment (PPE): Applicators and other handlers, including mixers and loaders must wear long-sleeved shirt and long pants, shoes plus socks and chemical-resistant gloves. Mixers and loaders must also wear a chemical-resistant apron. Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washables exist, use detergent and hot water. Keep and wash PPE separately from other laundry.

User Safety Recommendations

Users should:

- Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet.
- Remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.
- Remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Read the following directions for use thoroughly before application.

Do not apply this product in a way that will contact any person or pet, either directly or through drift. Keep people and pets out of area during application.

NOT FOR USE IN SEPTIC SYSTEMS IN THE STATE OF FLORIDA

Application Method for Sewer Lines that have Root Problems: Residential 4" sewer lines, utilize a 1lb container: ADD ENTIRE CONTENTS of a 1 lb. container to toilet bowl. Flush immediately to avoid foam from overflowing bowl. Flush a second time to push foam completely into sewer line, and a third time if you have a 1.6 gallon low flow toilet. Restrict water usage for four to six hours. Do not apply through sink or tub.

DIRECTIONS FOR USE (continued)

Application Method for Root Control Along Sidewalks and Driveways: To inhibit the entry of roots beneath pavement structures and the resulting damage caused by root growth, cut a 3" or deeper edging along the structure and pour 2 oz. per foot of Foaming Root Killer into it in a thin strip. Then cover the edged area with soil. Immediately following application, thoroughly water-in Foaming Root Killer. Repeat annually to prevent root growth near the surface along sidewalks and driveways. Do not enter or allow workers to enter the treated area until Foaming Root Killer is thoroughly watered in and the treated soil has dried.

Application Method for Root Control In Between Tree Roots and Sewer Lines: To prevent long term root growth from the tree to the sewer lines, bore a series of small holes, 2 feet apart, into the ground near the offending tree or outside the sewer joints using water or mechanical boring equipment. Add 4 oz. of Foaming Root Killer per hole and fill with soil. Be sure the holes location and depth is directly between the offending tree and sewer line. Immediately following application, thoroughly water in Foaming Root Killer. Repeat annually to prevent root growth in between trees and roots and sewer lines. Do not enter or allow workers to enter the treated area until Foaming Root Killer is thoroughly watered in and the treated soil has dried.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

Pesticide Storage: Store in a dry place. Avoid storage near food or feed products.

Pesticide Disposal and Container Handling: Nonrefillable container. Do not reuse or refill this container. If empty: Place in trash or offer for recycling if available. If partly filled: Call your local solid waste agency or 1-800-CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain.
