HAZARDS TO HUMANS AND DOMESTIC ANIMALS

OTHER INGREDIENTS: n-Alkyl (50% C14, 40% C12, 10% C16)

ENVIRONMENTAL HAZARDS

NOTE TO PHYSICIAN:

IF SWALLOWED:

Take off contaminated clothing. Rinse skin immediately with potable water for at least 15 minutes. If symptoms occur, call a poison control center or doctor for treatment advice.

IF IN EYES:

Wash eyes immediately with large amounts of potable water for at least 15 minutes. Seek medical attention immediately.

IF INHALED:

Get fresh air immediately. If not breathing, perform artificial respiration. If unconscious, give an oral dose of activated charcoal (40–60 ml for children, 100–200 ml for adults). Call a poison control center or doctor for treatment advice.

FIRST AID

General: Provide fluid and oxygen. Consult a physician for medical evaluation.

DO NOT MIX WITH ANYTHING BUT WATER

Packing Substrate (Label Type)

Regional Office of the EPA.

Do not discharge effluent containing this product to sewer systems without previously notifying (NPDES) permit and permitting authority has been notified in writing prior to discharge. Do not allow this product into lakes, streams, ponds, estuaries, oceans, or public waters unless in accordance with the Department of the EPA.

IN CASE OF FIRE: Do not use water as an extinguisher. If fire develops, use carbon dioxide (CO2) or chemically dry extinguishers.

GENERAL DISINFECTION:

General disinfection of meat, poultry, and other food processing equipment to drain thoroughly and air dry.

Shoe Bath Sanitizer Directions:

To deodorize waste containers and nonfood areas of food processing areas prior to entering area. Change the solution in the bath daily or sooner if solution appears diluted or soiled.

Storage & Disposal

STORAGE:

Store this product in a cool, dry area, away from direct sunlight and heat.

DO NOT DISPOSE OF WASTE FOOD OR FEED IN STORAGE OR DISPOSAL.

Pesticide Storage:

Shoe baths are to be used in the area designated for their intended use. They are to be kept out of the sun and out of direct sunlight and heat.

Storage:

Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spill, rinse, or run-in is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste Representative. For guidance in disposing of pesticide wastes, call the EPA’s National Pollution Hotline at 1-800-424-9308.

Container Handling:

Nonrefillable container. Do not reuse or refill this container. Place in solid waste disposal. For further information on solid waste disposal, contact State Pesticide or Environmental Control Agency.

Pesticide Disposal:

Shoe baths to treat kitchens, food prep areas, and can be used to prevent cross-contamination into animal areas and packing and packaging areas of food plants. Apply to food and processing equipment to prevent cross-contamination into animal areas and the packaging and storage areas of food plants.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

DOSING:

Discharge into waste containers and nonfood areas of food processing areas prior to entering area. Change the solution in the bath daily or sooner if solution appears diluted or soiled.

GENERAL DISINFECTION:

General disinfection of meat, poultry, and other food processing equipment to drain thoroughly and air dry.

Shoe Bath Sanitizer Directions:

To prevent cross-contamination into animal areas, bins located containing one of these markets made solution should be placed at all entries to buildings and terminals. Sanitation of S.O.C. 0.5% Questar QAC in 1 gallon of water (or equivalent use dilutions (200 ppm) Spray water on hands soaked and place in solution for 60 seconds prior to entering area. Change the solution in the bath daily or sooner if solution appears diluted or soiled.

SAFETY FROM SANITIZATION DIRECTIONS (use not approved in the State of California): Questar QAC can be used to prevent cross-contamination into animal areas and packing and packaging areas of food plants. Apply to food and processing equipment to prevent cross-contamination into animal areas and the packaging and storage areas of food plants. Apply to food and processing equipment to prevent cross-contamination into animal areas and the packaging and storage areas of food plants.
