DIRECTIONS

1. Shake well before using.
2. **Spring & Summer:** Dilute 1 part Bobbex concentrate with 8 parts water. 14 oz. of concentrate makes 1 gallon of ready-to-apply growth season repellent. Apply every 10 to 14 days, or after 2" of new growth.
Fall & Winter: Dilute 1 part Bobbex concentrate with 5 parts water. 21 oz. of concentrate makes 1 gallon of ready-to-apply dormant season repellent. Apply every 4 to 8 weeks.
3. Spray on DRY plants when temperature is between 35° and 85° F., coating all surfaces front and back. Allow at least 6 hours to dry before watering or rain. Use all diluted Bobbex within 5 days.

Clean-up: Rinse sprayer thoroughly with soap and water after each use.

Storage: Store in a cool dry place. Do not let freeze.

Disposal: Non-Refillable Container

Do not reuse or refill. This container should be cleaned out, then recycled according to your state and local laws.

Caution: Keep out of reach of children.

Do not use on plants intended for human consumption. If contact with eyes, cuts, etc., flush copiously with water.
