IMPORTANT: Spray carefully. Avoid spray or drift onto desirable lawn grasses, shrubs, or trees. This product can kill or damage all vegetation contacted. If accidental spray contacts desirable foliage, immediately rinse the foliage with water.

WHEN TO USE

- For best results, apply on a warm sunny day when daytime temperature is above 60°F. Warm, sunny weather will speed up weed control.
- Apply only when air is calm.
- Reapply if it rains within 2 hours after application.
- Hard-to-control weeds such as bermudagrass may require a repeat application if they regrow.
- Not to be used for spot weed control in lawns since Eliminator Grass Killer II Ready-To-Use kills all green plants, including lawn grass.

WHEN TO REPLANT: All ornamental flowers, trees and shrubs may be planted 1 day after application.
