BIO-LAB, INC., PO Box 300002, Lawrenceville, Georgia 30049

feeding device as other chemicals may be present which could result in a violent reaction.
 For routine maintenance: With pump and filter running, broadcast 1 lb. of this product per 12,000 gallons of pool water, directly into pool. Brush any undissolved product off of pool surfaces. Wait at least 15 minutes after product application before entering pool. Operate pump and filter continuously for 4-8 hrs. after product addition. For best results, apply product weekly as part of your maintenance routine.
 For treatment of light algae: Vacuum leaves and any other foreign debris from pool. Brush visible algae thoroughly from pool's surface with a surface-compatible brush. Brush any undissolved product off pool surfaces. With pump running, broadcast 1 lb. of Bioguard Smart Shock per 12,000 gallons of pool water, directly into pool water in areas of heavy algae growth. Operate pump and filter continuously for 24 hrs. after product application. Afterwards, repeat brushing of pool surfaces. Do not enter the pool until the free available chlorine residual is 1-4 ppm. If necessary repeat the treatment.
***TEST CHLORINE LEVEL PRIOR TO RE-ENTRY, RE-ENTRY INTO TREATED SWIMMING POOLS IS PROHIBITED ABOVE LEVELS OF 4 PPM CHLORINE DUE TO RISK OF BODILY INJURY.**

STORAGE AND DISPOSAL: Keep this product dry in its original unopened bag until use. For partially used bags, fold over top of bag and secure with adhesive tape. Store unopened and partially used bags in a secure location away from children. Store in a cool, dry, well-ventilated area away from heat or open flame. If product becomes damp, discard, following instructions on label.

DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Read entire label and use strictly in accordance with precautionary statements and directions.
 Makes sure all pool equipment, including pump, filter, skimmer and heater, Backwash filter following manufacturer's directions. Check alkalinity, pH and calcium hardness with a test kit. Adjust alkalinity to 125-150 ppm. Adjust pH to 7.4-7.6 by adding a pH increaser or pH decreaser. Adjust calcium hardness to 175-275 ppm. When using other products as outlined in directions for this product, always follow directions on those products.
IMPORTANT NOTE: DO NOT pre-dissolve this product. As with other shock products, DO NOT apply through skimmer or chemical

Bioguard Smart Shock is Step 2 of the Bioguard 3 Step and Once-A-Week 3 Step Program. Weekly use of Bioguard Smart Shock keeps your water crystal blue and sparkling. Utilizing an advanced patented technology, this product performs multiple functions:
 • Kills bacteria and algae as well as prevents algae growth
 • Oxidizes organic contaminants that cause cloudy water, musty odors and eye irritation.
 • Buffers pH to provide brilliantly clear water with no cloudy residue and without increasing pH
 • Clarifies the water using a filter enhancer
 • Buffers pH to provide brilliantly clear water with no cloudy residue and without increasing pH
 This premium shock product is easy to use. Because it dissolves rapidly and is multifunctional, Bioguard Smart Shock works fast and effectively. Resume swimming in as little as 15 minutes. Bioguard Smart Shock provides the solution for brilliant, clear, and inviting pool water and is suitable for all pool types.
