One last meal for slugs & snails

EMERGENCY INFORMATION

Seek medical care as soon as possible after exposure. For incidents involving animals, seek veterinary care as soon as possible after exposure. Have the product container or label with you when seeking a poison control center or doctor or veterinarian, or going for treatment.

FOR THE FOLLOWING EMERGENCIES, PHONE 24 HOURS A DAY:

For Poisonous Emergencies, including spill, leak or fire, phone CHEMTREC: 1 888 681 4761
 For human poison emergencies, call 1 800 224 9200
 For Product information phone AMVAC: 1 888 462 4872

Methaldihyde is a systemic toxic. There is no antidote. The following instructions are not intended for laypeople. There is no home treatment. Exposed individuals and animals should receive emergency care as quickly as possible.

NOTE TO PHYSICIAN: Oral ingestion is usual route of accidental exposure; the product is rarely ingested. Treatment is symptomatic and supportive. Monitor seven exposures closely: nausea, electrolyte imbalance, acidosis, dehydration, and increased body temperature have been reported.

NOTE TO VETERINARIAN: Animals typically are exposed via ingestion. Symptoms are symptomatic and supportive. If significant ingestion is suspected, send the animal to a veterinarian, provide supportive care as given, and administration of activated charcoal, collect and submit to local laboratory. Monitor symptoms and symptoms animals closely. Treat nausea, electrolyte imbalance, acidosis, dehydration, and increased body temperature. Monitor liver function post recovery.

PRECAUTIONARY STATEMENTS

Hazards to Humans & Domestic Animals
IMPORTANT: This product can be harmful to children and fatal to domestic animals when ingested. Children and dogs may be attracted to the product. Application of this product is prohibited unless children and domestic animals can be excluded from the treated area from the start of the application until applied material is no longer visible.
CAUTION: Harmful if swallowed. Harmful if absorbed through skin. Harmful if inhaled. Causes moderate eye irritation. Avoid contact with skin, eyes or clothing. Avoid breathing dust. Wash thoroughly after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove and wash contaminated clothing before reuse.

ENVIRONMENTAL HAZARDS
 This product is toxic to mollusks (e.g. clams, oysters, scallops, mussels). Do not apply product near water (including garden ponds) or storm drains. Do not apply if heavy rain is expected. Apply the product only to ornamental gardens and ornamental plants.
 This product is toxic to birds and mammals. Consults on soil surface may be hazardous to terrestrial wildlife. Cover or collect any soil materials applied during loading.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with the following. Not for use on plants being grown for sale or other commercial use, or for commercial production or for research purposes.

Precautions and Restrictions
 Do not allow product to come in contact with plants.
 Do not use, apply or remove following rain or watering.
 Keep people and pets out of the area during application. This pesticide may be harmful to children and fatal to dogs and other domestic animals if ingested. Children and dogs may be attracted to methaldihyde product, both in the package and when applied. Children and domestic animals may be kept out of treated areas from the start of application until the applied product is no longer visible.
 Application of this methaldihyde product is prohibited unless children and domestic animals can be excluded from the treated area from the start of application until the applied product is no longer visible. Application to soil and discharge are prohibited. Application is prohibited on ornamental plants (e.g., soil or rock) directly surrounding plants listed on the label.
 Residual and label applications of this product are prohibited. Application is permitted only as a barrier around gardens or individual plants. Application is prohibited within one foot of vegetable plants or fruit bearing plants not listed on this label.
 Do not use measuring device for food use.

Do not allow the product to form piles during application as these may attract pets.
 Certain cultural practices may reduce damage from snails and slugs. These practices include:
 • Elevating living places by removing leaf litter and debris in the garden.
 • Removing slugs and snails during daylight hours from snail traps, leaf litter, mulch, and other protected areas.
 • Watering in the morning to reduce humidity during the night when snails and slugs are active.

APPLICATIONS
 Apply in an indoor soil surface treatment. For best results, evenly distribute in a 1/4 inch area.
 Apply the product to ornamental plants by the method of the beginning of the slugs planting occurs before damage occurs and during periods of damp weather. The maximum number of applications allowed per season are listed below with each crop. For best results, apply in evening. Especially beneficial if applied following rain or watering since slugs and snails will not crawl over dry soil.
 For extremely tender plants it is suggested to do a small test application to determine any plant sensitivity before making an application around the plants.

Crop	Maximum Pellets per Square Foot	Total number of applications per season	Re-application Interval (days)
Vegetables*	15	3	14
Small fruits and berries	15	3	14
Strawberries (Plants)	15	3	14
Antirrhinum (Flowers)	15	3	14
Antirrhinum (Annual)	15	3	14
Onion	15	3	14
Ornamental Plants	3	3	21

* TOMATOES, LETTUCE, CUCUMBERS, AND OTHER LEAFY GREENS (BROCCOLI, BRUSSELS SPOUTS, CABBAGE, CAULIFLOWER, CAVALI, BROCCOLO, COLLARD, KALE, KOHLEBI, MIZUNA, MUSTARD GREENS, SPINACH, RAIN ORCHARD);
