Due to eye and skin effects.
For retail sale to and use by Certified Applicators, or persons under their direct supervision, and only for those uses covered by the Certified Applicator’s certification.

FIFRA SECTION 24(c) SPECIAL LOCAL NEED LABEL
FOR DISTRIBUTION AND USE ONLY WITHIN STATE OF WASHINGTON

Comite®

FOR CONTROL OF TWOSPOTTED SPIDER MITE ON ALFALFA, BEET, CARROT, CLOVER AND SPINACH GROWN FOR SEED

EPA REG. NO. 400-104 / EPA SLN NO. WA-040019

KEEP OUT OF REACH OF CHILDREN
DANGER • PELIGRO

Si usted no entiende la etiqueta, busque a alguien para que se la explique a usted en detalle. (If you do not understand the label, find someone to explain it to you in detail.)

This label for Comite expires and must not be distributed or used in accordance with this SLN registration after December 31, 2025.

DIRECTIONS FOR USE
• It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
• This labeling must be in the possession of the user at the time of application.
• Follow all applicable directions, restrictions, Worker Protection Standard requirements, and precautions on the EPA registered label.

ALFALFA, BEET, CARROT, CLOVER AND SPINACH GROWN FOR SEED
Comite is a liquid emulsifiable concentrate for preparing sprays to control twospotted spider mites. It is not systemic in action; therefore, complete coverage of both upper and lower leaf surfaces is necessary for effective control. Apply high rate to areas with high mite infestation and to areas which historically have had high mite infestations.

Add recommended dosage (from table) of the product to the spray tank. Refer to the EPA-registered label for mixing and application instructions.

### Carrot Grown for Seed
- Twospotted Spider Mite: 2-3 pts.
- Restrictions / Precautions:
  - For resistance management, Comite contains a Group 12C acaricide. Any mite population may contain individuals naturally resistant to Comite and other Group 12C acaricide. The resistant individuals may dominate the mite population if this group of acaricides are used repeatedly in the same fields. Appropriate resistance-management strategies should be followed.

### Clover Grown for Seed
- Twospotted Spider Mite: 2-3 pts.
- Restrictions / Precautions:
  - For use under this SLN label do not apply this product through any type of irrigation system.

### Spinach Grown for Seed
- Twospotted Spider Mite: 2-3 pts.
- Restrictions / Precautions:
  - This pesticide is toxic to fish and aquatic invertebrates and may cause reproductive effects in wildlife. Comite should not be used under this SLN label where impact on listed threatened or endangered species is likely.
container disposal. Information regarding the recycling of empty and cleaned plastic pesticide containers in Washington is available on the WSDA Waste Pesticide Program web site at 
agr.wa.gov/departments/pesticides-and-fertilizers/pesticides/waste-pesticide. Cleaned containers may also be disposed of in a sanitary landfill, if permitted by the county. Burning is not a legal method of container disposal in Washington.
