FIRST AID

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

IF SWALLOWED: Call a poison control center or doctor for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

FOR EMERGENCY MEDICAL INFORMATION IN USA OR CANADA, CALL: 1-800-328-0026.
FOR EMERGENCY MEDICAL INFORMATION WORLDWIDE, CALL: 1-651-222-5352 (IN THE USA).

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

NOTE TO PHYSICIAN:
Probable mucosal damage may contraindicate the use of gastric lavage.

STORAGE & DISPOSAL

DO NOT CONTAMINATE WATER, FOOD OR FEED BY STORAGE OR DISPOSAL.

PESTICIDE STORAGE:
Store in original container in areas inaccessible to children. Do not store on soil. Avoid creasing or impacting of side walls.

PESTICIDE DISPOSAL:
Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER HANDLING AND DISPOSAL:
Non-refillable container. Do not reuse or refill this container. Triple rinse as follows: Fill the container 1/4 full with water. Replace and tighten closures. Tip container on its side and roll it back and forth, ensuring at least one complete revolution for 30 seconds. Stand the container on its end and tip it back and forth several times. Turn the container over onto its other end and roll it back and forth several times. Follow pesticide disposal instructions for residue disposal. Repeat procedure two more times. Then offer for recycling or reconditioning if appropriate or puncture and dispose of in a sanitary landfill or by incineration.

Whisper™ V
Disinfectant - Sanitizer - Deodorizer - One-Step Cleaner/Disinfectant for Industrial and Commercial Use

Dairies – Beverage and Food Processing Plants – Farm Premises – Poultry Premises – Poultry Hatcheries – Animal Housing Facilities

ACTIVE INGREDIENTS:
Alkyl (C14, 50%; C12, 40%; C16, 10%) .......................... 3.00%
Octyl decyl dimethyl ammonium chloride .................. 2.25%
Didecyl dimethyl ammonium chloride ...................... 1.35%
Dioctyl dimethyl ammonium chloride ...................... 0.90%
OTHER INGREDIENTS: ........................................ 92.50%
TOTAL: ...................................................... 100.00%

KEEP OUT OF REACH OF CHILDREN

DANGER

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: CORROSIVE. Causes irreversible eye damage and skin burns. Do not get in eyes, on skin or on clothing. Wear protective eyewear (goggles, face shield, or safety glasses); protective clothing and rubber gloves. Harmful if swallowed. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove and wash contaminated clothing before reuse.

DO NOT MIX WITH ANYTHING BUT WATER

EPA Reg. No. 107-198

Farm Premise Disinfection Directions:
1. Remove all feed and feed premises, vehicles, and enclosures.
2. Remove all litter, droppings and manure from floors, walls and surfaces of
   hatcheries, poultry and livestock barns, enclosures and storage areas. Remove
   all non-porous food contact surfaces, areas immediately surrounding them
   and any other areas that may have been contaminated.
3. Empty all feed storage, tanks, silos, and other containers.
4. Wash all jars, bottles, and other broken glass or china articles. Clean and
   disinfect all broken glass or china articles.
5. Saturate surfaces with a solution of 4 oz. of Whisper V per 4 gallons of water
   (or equivalent dilution) and allow to remain wet for a period of at least
   10 minutes. Wipe or allow to air dry.
6. Immerse all hammers, ropes and other types of equipment used in handling
   and restraining animals and birds, such as hatches, setters, trays, racks and
   other hard non-porous surfaces. Thoroughly clean, rinse and apply solution to
   all areas. Clean and disinfect all non-food contact areas.
7. Ventilate and Erd fittings and other closed doors. Do not house animals or employ
   equipment until treatment has been absorbed or dried.
8. Thoroughly scrub treated feed racks, troughs, automatic feeders, fountains, automatic
   waterers with a detergent and rinse with potable water before reuse.

Disinfection Directions: This product deodorizes garbage storage areas, garbage
   bins, toilet bowls and any other hard non-porous surfaces in odor causing areas. Mix
   1/2 oz. per gallon of water and apply solution to surfaces. Thoroughly wet surfaces,
   allow to air dry.

Non-Food Contact Surface Sanitizing: Apply 0.34 oz. of Whisper V per 1 gallon of
   water (200 ppm active) to sanitize pre-cleaned, hard, non-porous, non-food
   contact surfaces of airtight, sealed packages containing food products.

Shoe Bath Sanitization Directions: To prevent cross contamination into animal areas
   and the packaging and storage areas of food products, shee bathe all
   employees and visitors who enter these areas. Scrub waterproof work boots (shoes)
   and place in solution of 1 oz. of Whisper V per 1 gallon of water (200 ppm)
   (or equivalent dilution) for 1 hour prior to entering area. Change the
   solution daily or more often if solution becomes saturated.

Shoe Foam Sanitizer Directions: Whisper C can be used to prevent cross
   contamination into animal areas and packaging and storage areas of food products.

INFORMATIONAL USE: 1.364 oz. to 2.72 oz. of Whisper V per 4 gallons of water
   (150 to 400 ppm) is the recommended sanitizing level.

SANITIZING HARD, NON-POURUS, NON-EDIBLE OUTSIDE SURFACES OF AIRTIGHT,
   SEALED PACKAGES CONTAINING FOOD OR NON-FOOD PRODUCTS: Whisper V may
   be used as a final sanitizing rinse for hard, non-porous non-edible outside surfaces of
   airtight, sealed packages containing food or non-food products at a use-solution of
   104 oz. to 2.72 oz. of Whisper V per 4 gallons of 400 ppm hard water (150 - 300 ppm
   active quat) or 1.364 oz. to 2.72 oz. of Whisper V per 4 gallons of 500 ppm hard water
   (200 - 300 ppm active quat). The treated hard, non-porous, non-food packaging
   surfaces, such as food wraps and meat casings, must be removed and discarded before packaged
   food products are further processed or consumed. All surfaces must be exposed to the
   sanitizing solution for a period of not less than the 10 minute requirement. Do not allow
   rinse necessary. This is not to be used on porous surfaces.

For Continuous Treatment of Conveyors: Use Whisper V at 1 to 4 ppm solution level to
   conveyors with MKRO MASTER or other suitable feeding equipment. Controlled
   volumes of sanitizer are applied to return portion of conveyor through nozzles so
   located as to permit maximum drainage of sanitizer from equipment and to prevent
   puddles on top of belt. During intermissions in operation of equipment, wash
   equipment thoroughly with a potable water rinse only if broken immediately for
   use in the manufacture of egg products. Eggs may be reasonably dry
   before casing or breaking. Do not reuse solution for sanitizing eggs.

Note: Do not use in the manufacture of egg products. Eggs cannot be
   sanitized.

SANITIZING NON-POURUS GLOVED HANDS: To prevent cross contamination into
   animal areas and the packaging and storage areas of food products, dip, soak or spray
   in a foam generating machine or aerator to apply foam layer. Follow the foaming
   instructions and air dry. The use of 1.364 oz. to 2.72 oz. of Whisper V per 4 gallons of warm water (150 to 400 ppm) is recommended. Do not allow
   rinse necessary. This is not to be used on porous surfaces.

For Continuous Treatment of Conveyors: Use Whisper V at 1 to 4 ppm solution level to
   conveyors with MKRO MASTER or other suitable feeding equipment. Controlled
   volumes of sanitizer are applied to return portion of conveyor through nozzles so
   located as to permit maximum drainage of sanitizer from equipment and to prevent
   puddles on top of belt. During intermissions in operation of equipment, wash
   equipment thoroughly with a potable water rinse only if broken immediately for
   use in the manufacture of egg products. Eggs may be reasonably dry
   before casing or breaking. Do not reuse solution for sanitizing eggs.

Note: Do not use in the manufacture of egg products. Eggs cannot be
   sanitized.

SANITIZING SHELL EGGS INTENDED FOR FOOD: To sanitize previously cleaned food-grade
   shell egg and egg product processing plants, spray a solution of 104 oz. to 2.72 oz.
   of Whisper V per 4 gallons of warm water (150 to 400 ppm) is recommended. Do not allow
   rinse necessary. This is not to be used on porous surfaces.

For Continuous Treatment of Conveyors: Use Whisper V at 1 to 4 ppm solution level to
   conveyors with MKRO MASTER or other suitable feeding equipment. Controlled
   volumes of sanitizer are applied to return portion of conveyor through nozzles so
   located as to permit maximum drainage of sanitizer from equipment and to prevent
   puddles on top of belt. During intermissions in operation of equipment, wash
   equipment thoroughly with a potable water rinse only if broken immediately for
   use in the manufacture of egg products. Eggs may be reasonably dry
   before casing or breaking. Do not reuse solution for sanitizing eggs.

Note: Do not use in the manufacture of egg products. Eggs cannot be
   sanitized.

SANITIZING LIVESTOCK OR RESTRAINING ANIMALS: Use Whisper V to
   sanitize pre-cleaned, hard, non-porous, non-food contact surfaces of livestock or
   restraining animals as well as forks, shovels and scrapers used for removing
   litter and manure. Wipe or allow to air dry.

SANITIZING LIVESTOCK OR RESTRAINING ANIMALS: Use Whisper V to
   sanitize pre-cleaned, hard, non-porous, non-food contact surfaces of livestock or
   restraining animals as well as forks, shovels and scrapers used for removing
   litter and manure. Wipe or allow to air dry.

SANITIZING LIVESTOCK OR RESTRAINING ANIMALS: Use Whisper V to
   sanitize pre-cleaned, hard, non-porous, non-food contact surfaces of livestock or
   restraining animals as well as forks, shovels and scrapers used for removing
   litter and manure. Wipe or allow to air dry.
