Hydrogen Peroxide Cleaner Disinfectant
Limiádor Desinfectante con Peróxido de Hidrógeno

- Bactericidal, Virucidal®, Tuberculocidal
- Compatible with Equipment Surfaces
- Formulated with Patented Hydrogen Peroxide Technology
  
- One-Step Disinfectant Cleaner
- Soft Surface® Sanitizer
- No Harsh Chemical Fumes
- Non-Flammable

**DIRECTIONS FOR USE:**

- **It is a violation of Federal law to use this product in a manner inconsistent with its labeling.**
- **Do not use on glassware, utensils or dishes.**
- **TO OPERATE:**
  - To open, turn nozzle. Spray 6–8 inches from surface. Wipe with cloth. Do not breathe spray or mist.
- **TO REFILL:**
  - Remove trigger sprayer from empty bottle.
  - Pour: Unscrew cap on refill and pour contents directly into empty bottle. Use a funnel to minimize product waste.
  - Use: Replace trigger sprayer and use as you normally would.

**PRECAUTIONARY STATEMENTS:**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS.**

**CAUTION:**

- Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet.

**FIRST AID:**

- **If in eyes:** Hold eye open and rinse slowly and gently with water for 15–20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing. Call the poison control center at (800) 222-1222 or doctor for treatment advice. Have the product container or label with you when calling a poison control center or doctor or going for treatment.

**DECLARACIONES PREVENTIVAS:**

**RIESGOS PARA LOS SERES HUMANOS Y ANIMALES DOMÉSTICOS.**

**PRECAUCIÓN:**

- Causa irritación moderada a los ojos. Evite el contacto con los ojos o la ropa. Lávese bien con agua y jabón después de usar y antes de comer, beber, mascar goma, usar tabaco o usar el inodoro.

**PRIMEROS AUXILIOS:**

- **Contacto con los ojos:** Mantenga los ojos abiertos y enjuague con agua lentamente, con cuidado, durante 15–20 minutos. Si hay lentes de contacto, retirelos después de los primeros 5 minutos, luego continúe enjuagando. Llame al centro de control de envenenamiento al (800) 222-1222 u al médico para obtener asesoría sobre el tratamiento. Cuando llame a un centro de control de envenenamiento o a un médico, o intente obtener tratamiento, tenga a la mano el envase o la etiqueta del producto.

**STORAGE AND DISPOSAL:**

- Store this product in a cool, dry area, away from direct sunlight and heat to avoid deterioration. Do not reuse or refill this container except as described in the directions for use. Refill only with this product. Offer for recycling or place in trash.

Mfd. for Clorox Professional Products Company, 1221 Broadway, Oakland, CA 94612.

Clorox Healthcare is a registered trademark of Clorox Professional Products Company.

© 2016 Made in USA of global components.

Beginning of batch code indicates Est. No.

This product is not to be used as a terminal sterilant/high-level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the bloodstream, or normally sterile areas of the body, or (2) contacts intact mucous membranes, but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to preclean or decontaminate critical or semi-critical medical devices prior to sterilization or high-level disinfection.

SPECIAL INSTRUCTIONS FOR USE AGAINST HIV-1, HBV, AND HCV: This product kills HIV-1, HBV and HCV on precleaned, hard, nonporous surfaces/objects previously soiled with blood/body fluids in health care settings or other settings in which there is an expected likelihood of soiling of inanimate surfaces/objects with blood or body fluids, and in which the surfaces/objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of Human Immunodeficiency Virus (HIV-1) (associated with AIDS), Human Hepatitis B Virus (HBV) and Human Hepatitis C Virus (HCV). SPECIAL INSTRUCTIONS FOR USING THIS PRODUCT TO CLEAN AND DECONTAMINATE AGAINST HIV-1, HBV AND HCV ON SURFACES/OBJECTS SOILED WITH BLOOD/BODY FLUIDS: Personal Protection: When handling items soiled with blood or body fluids, use disposable impervious gloves, gowns, masks and eye coverings. Cleaning Procedure: Blood and other body fluids must be thoroughly cleaned from surfaces and other objects before applying this product. Contact Time: Allow surface to remain wet for HBV, HCV and HIV-1 for 30 seconds. The contact times for other bacteria, viruses and fungi may differ. See product label for contact times. DISPOSAL OF INFECTIOUS MATERIALS: Use disposable impervious gloves, gowns, masks and eye coverings. Blood and other body fluids must be autoclaved and disposed of according to local regulations for infectious waste disposal. TO PRECLEAN INSTRUMENTS PRIOR TO TERMINAL STERILIZATION/HIGH-LEVEL DISINFECTION: As a precleaning spray — Place instruments into a suitable container. Spray Clorox Healthcare® Hydrogen Peroxide Cleaner Disinfectant onto instruments to thoroughly wet all surfaces. Let stand for one minute. To kill TB, let stand for 4 minutes at room temperature. To kill mold and fungi, let stand for 30 seconds. Wipe with a clean, damp cloth or paper towel and allow to air dry.

This product cleans, disinfects and deodorizes hard, nonporous medical surfaces in one step with no rinsing required. SPRAY 6–8 inches from surface until surface is thoroughly wet. Allow surface to remain wet for contact time listed on label. Then wipe. For heavily soiled areas, a precleaning process is required. Rinse with potable water for food-contact surfaces. For all others, no rinsing is required.

PARA LIMPIAR, DESINFECTAR Y DESODORIZAR SUPERFICIES DURAS Y SIN POROS: Rocíe a una distancia de 6–8 pulgadas de la superficie hasta que esté bien mojada. Deje que permanezca mojada con este producto por el tiempo de contacto que se lista en la etiqueta. Luego límpie. Para áreas muy sucias, se requiere una limpieza previa. Para superficies que entren en contacto con los alimentos, enjuague con agua potable. Para todas las demás, no se requiere enjuague.

SOFT SURFACE SANITIZATION/PARA SANITIZAR SUPERFICIES BLANDAS: TO SANITIZE SOFT SURFACES: Hold bottle upright 6–8 inches from surface. Spray until fabric is wet. DO NOT SATURATE. Let stand for 30 seconds. Allow to air dry. Heavy soil must be removed prior to sanitizing. For first time use on soft surfaces, spot test in a small, inconspicuous area. PARA SANITIZAR SUPERFICIES BLANDAS: Mantenga la botella en posición vertical a una distancia de 6–8 pulgadas de la superficie. Rocíe hasta que la tela esté mojada. NO LA SATURE. Deje reposar 30 segundos. Deje secar al aire. La mugre difícil se debe quitar antes de sanitizar. Para el primer uso en superficies blandas, haga una prueba en un área pequeña y desapercibida.
**ORGANISMS**

**BACTERIA: 30 second contact time**
- Acinetobacter baumannii
- Campylobacter jejuni
- Carbapenem Resistant Klebsiella pneumoniae
- Enterobacter aerogenes
- Escherichia coli (E. coli)
- Escherichia coli New Delhi Metallo-Beta Lactamase-1 (NDM-1)
- Escherichia coli 0157:H7
- Extended Spectrum Beta Lactamase producing Enterobacter facsiclu
- Extended Spectrum Beta Lactamase producing Klebsiella pneumoniae (ESBL producing E. coli)
- Klebsiella oxytoca
- Klebsiella pneumoniae
- New Delhi Metallo-Beta Lactamase-1 (NDM-1)
- Multidrug Resistant Enterococcus faecium (ESBL producing K. pneumoniae)
- Penicillin-Resistant Streptococcus pneumoniae
- Straphlococcus pyogenes
- Vancomycin Resistant Enterococcus faecalis (VRE)
- Pseudomonas aeruginosa
- Salmonella enterica

**BACTERIA: 1 minute contact time**
- Staphylococcus epidermidis (Coagulase-negative staphylococci) (CoNS)
- Community Acquired Methicillin Resistant Staphylococcus aureus (CA-MRSA)
- Linezolid Resistant Staphylococcus aureus
- Methicillin Resistant Staphylococcus aureus (MSSA)
- Methicillin Resistant Staphylococcus aureus (MRSA)
- Staphylococcus aureus
- Vancomycin Resistant Enterococcus faecalis (VRE)

**BACTERIA: 4 minute contact time**
- Mycobacterium bovis (TB)
- Candida albicans
- Trichophyton mentagrophytes

**VIRUSES: 30 second contact time**
- Avian Influenza A virus (H5N1)
- Cytomegalovirus
- Hepatitis B virus
- Hepatitis C virus
- Herpes simplex virus type 1
- Herpes simplex virus type 2
- Human Coronavirus
- Human Immunodeficiency Virus type 1 (HIV-1)
- Influenza A virus (H3N2)
- Influenza A virus (2009 H1N1)
- Influenza B virus
- Respiratory syncytial virus (RSV)

**VIRUSES: 1 minute contact time**
- Norovirus
- Rhinovirus (type 37)
- Rotavirus

**VIRUSES: 30 second contact time**
- *Avian Influenza A virus (H5N1)*
- *Cytomegalovirus*
- *Hepatitis B virus*
- *Hepatitis C virus*
- *Herpes simplex virus type 1*
- *Herpes simplex virus type 2*
- *Human Coronavirus*
- *Human Immunodeficiency Virus type 1 (HIV-1)*
- *Influenza A virus (H3N2)*
- *Influenza A virus (2009 H1N1)*
- *Influenza B virus*
- *Respiratory syncytial virus (RSV)*

**VIRUSES: 1 minute contact time**
- *Norovirus*
- *Rhinovirus (type 37)*
- *Rotavirus*

**MOLD, FUNGI: 3 minute contact time**
- Candida albicans
- Trichophyton mentagrophytes

**Efficacy tests have demonstrated that this product is an effective bactericide, fungicide, and virucide* in the presence of organic soil (5% blood serum).**

**Soft Surface Sanitization: 30 second contact time**
- Enterobacter aerogenes
- Staphylococcus aureus

**Medical Use Sites:**
- Ambulances
- Ambulatory Surgical Centers (ASC)
- CCUs
- Dialysis clinics
- Emergency rooms
- Garbage cans
- Hospitals
- ICUs
- Laboratories
- Long term care facilities
- Clinics
- Newborn Intensive Care Units (NICU)
- Nursing homes
- Nurses’ stations
- Operating rooms
- Patient restrooms
- Patient rooms
- Pediatric examination areas
- Pediatric Intensive Care Units (PICU)
- Physical therapy areas
- Physicians’ offices
- Public areas
- Radiology rooms
- Stretcher
- Wheelchairs

**Medical Surfaces:**
- Bedrails
- Bedside tables
- Carts
- Counters
- High touch surfaces
- IV Stands, pumps, poles
- Large surfaces
- Shower fixtures
- Stratches
- Wheelchairs

**Surface Materials:**
- Baked enamel
- Chrome
- Glass
- Glazed ceramic
- Glazed porcelain
- Laminated surfaces
- Plastic
- Stainless steel
- Upholstered furniture

**Soft Surface: For first time use on soft surfaces, spot test in a small, inconspicuous area.**
- Chairs
- Couches
- Curtains
- Fabrics
- Upholstered furniture

**Avoid Contact With:**
- Aluminum
- Copper
- Galvanized steel
- Glass
- Silver
- Composition of 100% cotton or 100% polyester
- Composition: 100% de algodón 100% de poliéster
Non-Critical, Precleaned Instruments:
Prior to Terminal Sterilization/High-Level Disinfection:

- Place instruments into a suitable container. Spray Clorox Healthcare® Hydrogen Peroxide Cleaner Disinfectant onto instruments to thoroughly wet all surfaces. Let stand for up to 15 minutes. Rinse instruments.
- A manual instrument cleaner—Thoroughly pre-rinse dirty instruments under running water to remove visible debris. Immerse pre-rinsed instruments into a suitable container filled with Clorox Healthcare® Hydrogen Peroxide Cleaner Disinfectant. Scrub instruments using a stiff bristle brush until visibly clean. Submerge instruments while scrubbing. Rinse instruments thoroughly. Change solution daily.

Cleaning Procedure:

- Blood and other body fluids must be thoroughly disinfected from surfaces and objects before applying this product. Contact Time: Allow surface to remain wet for HBV, HCV and HIV-1 for 30 seconds. The contact times for HBV, HCV and HIV-1 are expected based upon the potential for transmission of a specific microorganism. HIV-1 is associated with AIDS, Human Hepatitis B Virus (HBV) and Human Hepatitis C Virus (HCV).

Special Instructions for Using This Product to Clean Commensal Bacteria

- This product cleans, disinfects and deodorizes hard, nonporous medical surfaces in one step with no rinsing required.
- Contains the patented Hydrogen Peroxide Technology.
- Formulated with Patented Hydrogen Peroxide Technology.
- Bactericidal, Virucidal, Tuberculocidal.
- Formulated with Patented Hydrogen Peroxide Technology.
- Non-Flammable.
- Meets OSHA requirements.
- 1Qt. (32 FL OZ) 946 mL.

**ORGANISMS:**

- **BACTERIA:**
  - Extended Spectrum Beta Lactamase producing Klesbsiella pneumoniae (ESBL producing Klesbsiella pneumoniae)
  - Klebsiella pneumoniae
  - Enterobacter aerogenes
  - Escherichia coli (E. coli)
  - New Delhi Metallo-Beta Lactamase-1 (NDM-1)
  - Escherichia coli O157:H7
  - Extended Spectrum Beta Lactamase producing Escherichia coli (ESBL producing E. coli)

- **VIRUSES:**
  - Human Immunodeficiency Virus (HIV-1)
  - Influenza A virus (H3N2)
  - Influenza B virus
  - Respiratory syncytial virus (RSV)
  - Human Coronavirus
  - Herpes simplex virus type 1
  - Herpes simplex virus type 2

- **RESISTANT:**
  - Listeria monocytogenes
  - Methicillin Resistant Staphylococcus aureus (MRSA) (ATCC 25213)
  - Staphylococcus aureus (ATCC 25213)
  - Methicillin Resistant Staphylococcus aureus (MRSA) (ATCC 25213)

**PHYSICAL PROPERTIES:**

- NON-BLEACH
- Odorless
- Non-toxic
- Non-flammable

**STORAGE AND DISPOSAL:**

- Place instruments into a suitable container. Spray Clorox Healthcare® Hydrogen Peroxide Cleaner Disinfectant onto instruments to thoroughly wet all surfaces. Let stand for up to 15 minutes. Rinse instruments.

TOTAL: ................................................100.0%

1 GALLON (128 FL OZ) 3.78 L

SEE BACK PANEL FOR ADDITIONAL PRECAUTIONARY STATEMENTS.

NON-BLEACH
DIRECTIONS FOR USE:

TO SANITIZE SOFT SURFACES: Hold bottle upright 6–8 inches from surface. Spray until visibly wet and let air dry. This product cleans, disinfects and deodorizes hard, nonporous medical surfaces in one step with no rinsing required.

TO SANITIZE HARD SURFACES: Wet sponge or cloth with product and apply to surface. Let stand for 30 seconds. Wipe with clean, damp cloth or sponge towel and allow to air dry.

TO DISINFECT, DEODORIZE AND PREVENT MOLD AND FUNK: Spray to eliminate odors and prevent mold and funk. Let surface dry naturally. Repeat daily for continual odor control.

TO CLEAN, DISINFECT AND DEODORIZE UPHOLSTERY AND SOFT SURFACES: Wet sponge or cloth with product and apply to surface. Let stand for 30 seconds. Wipe with clean, damp cloth or sponge towel and allow to air dry.

TO CLEAN, DISINFECT AND DEODORIZE DRAINS, TUBS AND SINKS: Wet sponge or cloth with product and apply to drain, tub or sink. Let stand for 30 seconds. Wipe with clean, damp cloth or sponge towel and allow to air dry.

TO CONTROL AND REDUCE SPILLS AND LEAKS: Wet sponge or cloth with product and apply to spill or leak. Let stand for 30 seconds. Wipe with clean, damp cloth or sponge towel and allow to air dry.

TO CLEAN, DISINFECT AND DEODORIZE SURFACES IN HOME HEALTH CARE SETTINGS: Spray to clean, disinfect and deodorize all non-porous surfaces. Let stand for 30 seconds. Wipe with a clean, damp cloth or sponge towel and allow to air dry.

TO CONTROL AND REDUCE SPILLS AND LEAKS: Wet sponge or cloth with product and apply to spill or leak. Let stand for 30 seconds. Wipe with clean, damp cloth or sponge towel and allow to air dry.

TO CLEAN, DISINFECT AND DEODORIZE HARD, NONPOROUS SURFACES: Wet cloth or sponge with product and apply to surface. Let stand for 30 seconds. Wipe with clean, damp cloth or sponge towel and allow to air dry.

TO CLEAN INSTRUMENTS PRIOR TO TERMINAL STERILIZATION/HIGH-LEVEL DISINFECTION: Thoroughly clean and deactivate instruments before applying this product. Thoroughly clean and deactivate instruments by spraying with product for 1 minute contact time. Rinse instruments thoroughly.

TO CLEAN INSTRUMENTS AFTER USE: Wet cloth or sponge with product and apply to surface. Let stand for 30 seconds. Wipe with clean, damp cloth or sponge towel and allow to air dry.

TO DISINFECT CAVITY SURFACES: Wet cloth or sponge with product and apply to surface. Let stand for 30 seconds. Wipe with clean, damp cloth or sponge towel and allow to air dry.

TO DISINFECT SOFT SURFACES: Wet cloth or sponge with product and apply to surface. Let stand for 30 seconds. Wipe with clean, damp cloth or sponge towel and allow to air dry.

TO REFILL SPRAY BOTTLES: Remove unscrew cap on refill and pour contents directly into empty bottle. Use a funnel to minimize product waste. Use: Replace trigger sprayer and use as you normally would.

IN THE PRESENCE OF ORGANIC SOIL: (5% blood serum)

This product is not to be used as a terminal sterilant/high-level disinfectant on any surface or instrument. This product is introduced directly into the human body, either within contact with the bloodstream, or normally sterile areas of the body, or (2) contact infected mucous membranes, which but does not ordinarily penetrate the blood barrier or otherwise enter non-sterile areas of the body. This product may be used to prevent or decontaminate critical or semi-critical medical devices prior to sterilization or high-level disinfection.

SPECIAL INSTRUCTIONS FOR USE AGAINST HIV-1, HBV AND HCV: This product kills HIV-1, HBV and HCV on pre-cleaned hard, nonporous surfaces/objects previously soiled with blood/body fluids in healthcare settings. (hospitals, nursing homes) or other settings in which there is an expected likelihood of soiling of inanimate surfaces/objects with blood or body fluids, and in which the surfaces/objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of Human Immunodeficiency Virus (HIV-1) (associated with AIDS), Human Hepatitis B Virus (HBV) and Human Hepatitis C Virus (HCV). Special instructions for using this product to clean and decontaminate against HIV-1, HBV and HCV on surfaces/objects soiled with blood/body fluids:

Medical Use Sites:

Instruments to be thoroughly cleaned from surfaces and other objects before applying this product.

Contact Time: Allow surface to remain wet for HBV, HBV and HCV for 30 seconds. The contact time for other bacteria, viruses and fungi may differ. See product label for contact times.

DISPOSAL OF INFECTIOUS MATERIALS:

Use disposable impervious gloves, gowns, masks and eye coverings. Cleaning Procedure: Blood and other body fluids must be thoroughly cleaned from surfaces and other objects before applying this product.

Contact Time: Allow surface to remain wet for HBV, HBV and HCV for 30 seconds. The contact time for other bacteria, viruses and fungi may differ. See product label for contact times.

PRECAUTIONARY STATEMENTS: HAZARDS TO HUMANS AND DOMESTIC ANIMALS:

Caution: Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, or smoking.

FIRST AID:

If in eyes: Hold eye open and rinse slowly and gently with water for 15–20 minutes. Remove contact lenses (if present) after first 5 minutes, then continual rinsing. Call the poison control center at 08022232 or doctor for treatment advice. Have the product container or label with you when calling a poison center or doctor or going for treatment.

STORAGE AND DISPOSAL:

Store this product in a cool, dry area, away from direct sunlight and heat to avoid deterioration. Non-refillable container. Do not reuse or refill empty container. Recycle empty container or discard in trash.

QUESTIONS OR COMMENTS?

Please go to www.cloroxhealthcare.com.

DIRECTIONS FOR USE:

IT is a violation of Federal law to use this product in a manner inconsistent with its labeling. Do not use on glassware, utensils or dishes.

FIRST AID:

In the event of skin contact, wash thoroughly with soap and water and rinse. If irritation occurs, discontinue use and seek medical attention.

TO CLEAN, DISINFECT AND DEODORIZE UPHOLSTERY AND SOFT SURFACES:

Upholstered furniture and other soft surfaces.

CAUTION:

Use on soft surfaces, spot test in a small, inconspicuous area.

It is an effective bactericide, fungicide, and virucide. Efficacy tests have demonstrated that this product is an effective bactericide, fungicide, and virucide in the presence of organic soil (5% blood serum).
