elim-A-fly®

DAILY ADD-PACK FOR CALVES CONTAINING DIFLUBENZURON, INSECT GROWTH REGULATOR, FOR CONTINUOUS FEEDING DURING FLY SEASON.

For use with WHOLE MILK or MILK REPLACER

- Breaks the fly life cycle
- Stops the development of horn fly, face fly, house fly and stable fly larvae in manure from treated calves
- Use as part of an integrated fly control program

ACTIVE INGREDIENT:
Diflubenzuron* (CAS# 35367-38-5)..... 0.16%
OTHER INGREDIENTS ............................. 99.84%
TOTAL......................................................100.00%

*contains 726.4 milligrams of diflubenzuron per pound.
EPA Reg No. 89459-1-88218
EPA Est. No. 088218-WI-001

KEEP OUT OF REACH OF CHILDREN
CAUTION
See back panel for additional precautionary statements.
Store in original container in a cool, dry place.

NET WT. 22.05 LB (10.00 kg)

**Precautionary Statements**

**Hazards to Humans and Domestic Animals**

**Caution:** Harmful if absorbed through skin. Avoid contact with skin, eyes or clothing.

**Personal Protective Equipment**

Wear long-sleeved shirt and long pants, shoes plus socks and chemical resistant gloves (such as or made out of any waterproof material, Selection Category A).

**Cleaning/Maintaining PPE**

Follow manufacturer’s instructions for cleaning/maintaining PPE. If no such instructions for washables exist, use detergent and hot water. Keep and wash PPE separately from other laundry.

**FIRST AID**

- If on skin: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call poison control center or doctor for treatment advice.

**Environmental Hazards**

This pesticide is toxic to aquatic invertebrates. Do not contaminate water when disposing of equipment washwater or rinsate.

**Use Information**

elim-A-fly® ADD-PACK with ClariFly® Larvicide (elim-A-fly®) is intended to be added daily to whole milk or reconstituted milk replacer to control house flies, stable flies, horn flies, and face flies which develop in manure of calves, including veal calves.

Use elim-A-fly® as part of an integrated fly control program aimed at reducing fly populations in the calf’s environment. Consult your veterinarian or retailer for program recommendations. In order to achieve optimum fly control, use elim-A-fly® in conjunction with other premise and on-animal products, as well as good management and sanitation practices.

**Directions for Use**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

elim-A-fly® contains diflubenzuron, an insect growth regulator which prevents the development of house flies, stable flies, horn flies and face flies in the manure of treated calves, but is not effective against existing adult flies. Start feeding elim-A-fly® early in the spring, 30 days before flies begin to appear, and continue feeding throughout the summer and into the fall until cold weather restricts fly activity. In some cases, supplemental fly control measures may be needed in and around pastures, barns and calf hutches to control adult house and stable flies.

The dosage of elim-A-fly® is proportional to the animal’s body weight. Each animal must receive 0.1 oz of elim-A-fly® per 100 lbs of body weight, which equates to 0.10 mg diflubenzuron/kg of body weight per day. The product can be mixed by either of the following two methods.

**Restriction:** Feed calves between the weight of 60-200 pounds not to exceed 0.1 mg/kg per day.

**Warranty and Limitation of Damages**

Seller warrants that this material conforms to its chemical description and is reasonably fit for the purposes stated on the label, when used in accordance with directions under normal conditions of use, and Buyer assumes the risk of any use contrary to such directions. To the extent consistent with applicable law, Seller makes no other express or implied warranty of Fitness or of Merchantability, and no agent of Seller is authorized to do so except in writing and with specific reference to this warranty. In no event shall Seller’s liability for any breach of warranty exceed the purchase price of the material as to which claim is made.
