PROTECTIVE PROPERTY BORDER

- Apply as protective border around entire property.
- Border should be 4 feet wide.
- Start protective border strip 2 feet outside the edge of plants and overhanging trees to be protected.
- Protects up to 1,900 sq. ft.

GARDEN/LANDSCAPE BORDER

- Apply protective border around gardens and/or landscape beds.
- Border should be 4 feet wide.
- Apply a second application for areas with heavy deer and/or rabbit damage.
- Protects up to 1,900 sq. ft.

COMPLETE PROPERTY PROTECTION

- Apply over entire property.
- Using a fertilizer spreader, apply half the required amount in one direction. Apply the remaining amount at a right angle. This will help to provide even coverage.
- Protects and feeds up to 700 sq. ft.

- Protects against unwanted browsing on lawns, trees & gardens
- Feeds gardens, shrubs, yards & trees
- Triggers the 'flight' or 'escape' response in deer & rabbits

How it works.

Deer and rabbits are repelled by the odor of Encap® 2-IN-1 Deer Repellent & Fertilizer, and their natural instinct causes them to leave or avoid the treated areas.

Why should I use it?

Encap® 2-IN-1 Deer Repellent & Fertilizer, protects against unwanted feeding and browsing by deer and rabbits on lawns, trees and gardens. Encap® 2-IN-1 Deer Repellent & Fertilizer, contains slow release nitrogen which feeds continually as plants grow, providing nutrients over a longer period of time.

When should I apply the product?

Use Encap® 2-IN-1 Deer Repellent & Fertilizer, anytime of the year. For best results, follow the application guide shown below.

DIRECTIONS FOR USE:

AS A PROTECTIVE BORDER*:

To protect gardens and plant beds use as a protective border. Apply the product as a protective perimeter or border strip, at least two feet away from garden beds, or overhanging trees or plants. Apply a 4 ft wide band around the area to be protected. Apply with a lawn spreader, hand spreader or manually. A double application may be required for heavy deer or rabbit populations.

FOR YEAR ROUND PROTECTION:

For year-round protection, re-apply every 45-60 days. For complete protection, apply evenly over an entire area. Apply product with any spreader at the recommended rates (see spreader setting chart).
