Ad-Max 90™

PRINCIPAL FUNCTIONING AGENTS:
1,2,3-Propanetriol, Dimethylbenzenesulfonic acid, sodium salt and alkyl phenol ethoxylate.......... 90%
Constituents ineffective as spray adjuvant ................................................................. 10%
TOTAL ......................................................................................................................... 100%

All ingredients are approved for use under 40 CFR 180.
CA Reg. No. 7001-50537-AA WA Reg. No. 7001-14001

KEEPS OUT OF REACH OF CHILDREN

WARNING
CAUSES EYE IRRITATION.

PRECAUTIONARY STATEMENTS:
Wash thoroughly after handling.

PERSONAL PROTECTIVE EQUIPMENT:
Wear protective gloves / protective clothing / eye protection / face protection.

FIRST AID:
IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists get medical advice / attention.
IF ON SKIN: Wash all exposed skin area with mild soap and water, followed by warm water rinse. Remove affected clothing and wash before reuse.
IF SWALLOWED: Rinse mouth. If you feel unwell, seek medical advice.
IF INHALED: Assure fresh air for breathing.

ENVIRONMENTAL HAZARDS:
Do not contaminate water sources by cleaning of equipment or disposal of wash water.

STORAGE AND DISPOSAL:
Do not contaminate water, food or feed by storage or disposal.
Storage: Protect product from freezing. If product freezes, warm to room temperature and agitate before use. Store in a well-ventilated place. Keep container tightly closed. Store locked up.
Disposal: Do not reuse empty container. Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit the ACRC web page at www.acrecycle.org. Decontaminated containers may also be disposed of in a sanitary landfill.

NET CONTENTS: 2.5 GALLONS (9.463 Liters)
Ad-Max 90™

GENERAL INFORMATION
Ad-Max 90 is a low-foaming, nonionic activator adjuvant designed to improve the effectiveness of pesticides requiring the use of a nonionic surfactant. Ad-Max 90 enhances pesticide performance by improving spray solution coverage and penetration of target leaf surfaces.

DIRECTIONS FOR USE
The addition of adjuvants to some pesticides and / or fertilizers and their tank mixes may cause phytotoxicity to the foliage and / or fruit of desirable crops. Before using Ad-Max 90, the applicator or crops advisor must have experience with the pesticide combination, including Ad-Max 90, or must have conducted a phytotoxicity test.

SHAKE WELL BEFORE USING.

FOR USE WITH PESTICIDES REGISTERED FOR AGRICULTURAL, FORESTRY, INDUSTRIAL, MUNICIPAL, NONCROPLAND, RIGHTS-OF-WAY, TURF AND OTHER APPROPRIATE USES.

NOT FOR USE ON AQUATIC SITES.

DOSAGE:
Using the guidelines below, use lower rates for enhancing wetting characteristics and coverage of the spray solution. Use the higher rates for enhancing spray solution coverage and penetration of the target leaf surface.

Herbicides, Defoliants & Desiccants:
8-64 ounces per 100 gallons unless otherwise stated on the crop protection product label.

Insecticides, Fungicides and Acaricides:
2-32 ounces per 100 gallons.

Plant Growth Regulators:
16-32 ounces per 100 gallons unless otherwise stated on the crop protection product label.

MIXING:
In the absence of specific mixing instructions found on the pesticide label, fill the spray tank with at least 50% of the desired finished carrier volume. When premixing in a mixing vessel or inductor, fill with at least 20% of the desired finished carrier volume. While the carrier is agitating, add tank mix ingredients in the following order:

1. Compatibility agent and / or antifoam, if needed.
2. AMS, dry formulations (WP, DF, WDG, SP), and dry drift retardants.
3. Dry soluble and suspension fertilizers / micronutrients.
4. Liquid drift retardants and flowable formulations (F & FL).
5. Liquid concentrates, suspension and microencapsulated (LC, SC, ME).
6. Emulsifiable concentrates (E, EL or EC).
7. Solutions and soluble liquids (S or SL).
8. Liquid micronutrients and fertilizers.
10. Finish filling to desired spray volume level and continue agitation.

DISCLAIMER OF WARRANTIES: Seller warrants that the chemical composition of this product conforms to the chemical description given on this label. THIS WARRANTY IS EXPRESSLY IN LIEU OF ALL OTHER WARRANTIES AND REPRESENTATIONS EXPRESSED, IMPLIED, OR STATUTORY, INCLUDING WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR USE. Timing, rate and method of application, weather and crop conditions, mixtures with chemicals not specifically recommended on this label or an accompanying written recommendation are beyond the control of seller. Buyer assumes all risks of use, storage and handling of this material not in strict accordance with directions given herewith. Buyer further agrees in the event of damages arising from the use of this product to accept a replacement of the product or a refund of the purchase price of the product, at buyer’s option, as full discharge of seller’s liability. No one is authorized to make any other warranty, guarantee or directions concerning this product, and no such warranties, guarantees or directions shall be valid or binding upon seller.
