PET BLOCK

From the maker of NATURE'S MIRACLE pet stain & odor remover, the brand you trust... because it works!

Nature's Miracle® Pet Block Cat Repellent Spray is formulated to keep cats away from treated areas. The formula contains natural repellent scents which cats dislike and prefer not to smell. The aversion to the product's scent is what causes cats to stay away from treated areas. Long-lasting, concentrated formula is designed for both indoor and outdoor use. Safe for use around pets and home, when used as directed.

DIRECTIONS FOR INDOOR USE: 1) Shake well before using. 2) If spraying on fabrics, test for color fastness before use by applying to a hidden area; wipe with a cloth. If color is removed from the test area, do not use on those surfaces.* 3) Apply Pet Block Cat Repellent Spray to areas you wish to keep your cat away from such as beds, furniture or rugs. Re-apply daily or as needed until undesirable habit is broken. For best results use spray in conjunction with training. Praise pet when positive behavior is exhibited.

DIRECTIONS FOR OUTDOOR USE: 1) Shake well before using. 2) Remove all cat waste from area to be treated. 3) Then, to keep pet away, simply spray Pet Block Cat Repellent Spray around edges of trees, shrubbery or directly on area to be treated on grass. Do not apply directly to foliage, shrubs, flowers or ornamental plants. 4) Re-apply daily or as needed until undesirable habit is broken. For best results use spray in conjunction with training. Praise cat when positive behavior is exhibited.

*NOTE: If desired area to be treated is affected by spray, treat a piece of cloth, wait for it to dry and place the dried cloth on object you wish to keep cat away from.

CAUTION: Harmful if swallowed. If swallowed, seek immediate medical attention. In case of eye contact, immediately flush eyes with water for 15 minutes. Contact a physician. Prolonged skin contact may cause skin irritation.
