NATURE'S MIRACLE[®]

Just for Cats[™]

NO MORE SPRAYING

From the maker of
NATURE'S MIRACLE pet stain
& odor remover, the brand you trust...
because it works!

The all natural repellent pet stain & odor remover prevents cats from revisiting and spraying the same spot twice! When used to clean an area previously sprayed by a cat, Nature's Miracle[®] No More Spraying eliminates existing stains & odors leaving behind lemon grass and cinnamon scents. These scents repel and prevent cats from returning to the area. Ideal to use when trying to break cats' spraying habits, No More Spraying will repel cats while eliminating tough deep-set urine stains & odors. Safe for use around pets and home, when used as directed.

DIRECTIONS: 1) Shake before using. 2) Before using, test surfaces to be treated for color fastness by applying to a hidden area; wait five minutes then wipe with cloth. If color is removed from the test area, do not use Nature's Miracle No More Spraying Stain & Odor Remover on those surfaces. 3) Always use Nature's Miracle No More Spraying Stain & Odor Remover full strength. 4) Always use Nature's Miracle No More Spraying Stain & Odor Remover formulas first! Other cleaners and detergents may fail and chemically "set" stains that will be impossible to remove.

TO PREVENT REPETITIVE CAT SPRAYING: Thoroughly soak previously stained area with Nature's Miracle No More Spraying Stain & Odor Remover. Wait five minutes, then pat area with a cloth. For areas that have been repeatedly marked, a second application may be needed.

FOR STAIN REMOVAL: 1) Wipe up as much of stain as possible, then thoroughly soak stain with Nature's Miracle No More Spraying Stain & Odor Remover. 2) Wait five minutes then, wipe away stain with a cloth. 3) While treated areas dry, keep cats away. For tough stains, use a stiff bristle brush. If stain is not completely removed, re-soak area and allow Nature's Miracle No More Spraying Stain & Odor Remover to work for one hour, then wipe stain with a cloth.

FOR ODOR ELIMINATION: 1) Wipe up excess odor-causing material then thoroughly soak area with Nature's Miracle No More Spraying Stain & Odor Remover. 2) Wait five minutes, then blot dry with a cloth. Allow to dry completely before expecting complete odor elimination. 3) While treated areas dry, keep cats away.

For tough odors in carpets (e.g. urine) apply enough to reach all odor-causing material. This may mean lifting carpet and applying directly to the pad and floor. Wait one hour, then blot dry. Allow treated area to air dry completely before expecting complete odor elimination.

CAUTION: Harmful if swallowed. If swallowed, seek immediate medical attention. In case of eye contact, immediately flush eyes with water for 15 minutes. Contact a physician. Prolonged skin contact may cause skin irritation.

KEEP CLOSED WHEN NOT IN USE. KEEP OUT OF REACH OF CHILDREN. DO NOT APPLY DIRECTLY ON PET.
