**FORCE OF NATURE™
FUNGICIDE**

controls Powdery Mildew on many types of crops such as melons, squash, tomatoes, tree crops, grapes, cucumbers and all sorts of flowers. Force of Nature™ Fungicide has shown the ability in replicated field and greenhouse trials to control Powdery Mildew for 7-10 days with a 1% spray solution. Force of Nature™ Fungicide is applied as a foliar spray and should be a great addition to a well-managed disease program. Force of Nature™ Fungicide is non-toxic to humans and animals.

ACTIVE INGREDIENTS:

Cottonseed Oil	30%
Corn Oil	30%
Garlic Oil	23%
OTHER INGREDIENTS:	17%
Sodium Bicarbonate, Oleic Acid, Lauric Acid, Water	
TOTAL	100%

**KEEP OUT OF REACH OF CHILDREN

DIRECTIONS FOR USE:
Lift flap for instructions.

STORAGE & DISPOSAL: Do not contaminate water, food or feed by storage or disposal. Store in a cool, dry place.

PRECAUTIONARY STATEMENTS: Avoid contact with skin, eyes or clothing. In case of contact, immediately flush eyes or skin with plenty of water. Get medical attention if irritation persists.

PERSONAL PROTECTIVE WORK CLOTHING: Applicators and other handlers of this product must wear: Long sleeved shirt and pants, shoes and socks, protective eyewear and gloves.

— FIRST AID —

IF SWALLOWED:

- Call a Physician or Poison Control Center.
- Drink one or two glasses of water.
- Do not induce vomiting.
- If person is unconscious, do not give anything by mouth or induce vomiting.

IF IN EYES:

- Hold eyelids open and flush with a steady, gentle stream of water for 15 minutes.
- Get medical attention if irritation persists.

IF ON SKIN:

- Wash with plenty of soap and water.
- Get medical attention if irritation persists.

Avoid contact with skin, eyes, or clothing. In case of contact, immediately flush eyes or skin with plenty of water. Get medical attention if irritation persists.

STATEMENT OF PRACTICAL TREATMENT
IF SWALLOWED: all a physician or Poison Control Center. Drink one or two glasses of water. Do not induce vomiting. If person is unconscious, do not give anything by mouth or induce vomiting.

IF IN EYES: Hold eyelids open and flush with a steady, gentle stream of water for 15 minutes. Get medical attention if irritation persists.

IF ON SKIN: Wash with plenty of soap and water. Get medical attention if irritation persists.

IF INHALED: Remove person to fresh air. If not breathing, give artificial respiration, preferably mouth-to-mouth. Get medical attention.

PERSONAL PROTECTIVE EQUIPMENT (PPE)
Applicators and other handlers should wear long-sleeved shirt and long pants, waterproof gloves, shoes plus socks, and protective eyewear.

Follow manufacturer's instructions for cleaning/maintaining personal protection equipment (PPE). If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.

STORAGE AND DISPOSAL: DO NOT CONTAMINATE WATER, FOOD, OR FEED BY STORAGE OR DISPOSAL.

STORAGE: Keep this product in containers stored upright and secured with the original closure. Do not store this product near heat sources. Do not store near food or feedstuffs.

NOTICE TO BUYER: To the extent permitted by law, all conditions and warranties, and statutory or other rights of action which buyer or any other user may have against United Compost & Organics or Seller are hereby excluded. United Compost & Organics hereby gives notice to buyer and other users that it will not accept responsibility for any indirect or consequential loss arising from reliance on product information provided by United Compost & Organics or on its behalf unless it is established that such information or advice was provided negligently and that the product has

been used strictly as directed. United Compost & Organics liability shall in all circumstances be limited to replacement of the product or a refund of the purchase price thereof.

LIMITED WARRANTY

Manufacturer or Seller makes no warranty, whether expressed or implied, concerning the use of this product other than for the purposes indicated on the label. Neither manufacturer nor seller shall be liable for any injury or damage caused by this product due to misuse, mishandling, or any application not specifically described on the label.

APPLICATION INSTRUCTIONS

Force of Nature™ Fungicide is a pesticide for use against powdery mildew on the crops listed in the APPLICATION RATE & USAGE section (opposite label flap). The fungus must come into contact with Force of Nature™ Fungicide in order to be affected. Always follow these directions:

-Testing to date indicates that Force of Nature™ Fungicide may cause injury to some plant species at sensitive stages of plant growth. Open blooms of certain plants can also be damaged. Do not apply to stressed or wilted plants, or to newly transplanted material prior to root establishment.

-Force of Nature™ Fungicide has not been tested on all plant varieties or in all tank mixes. Before applying to a large number of plants, test the product on a small number of plants for potential damage.

-We recommend making no more than two consecutive applications of Force of Nature™ Fungicide. After two applications, rotate to an alternative chemistry for at least two applications.

-Apply early in the morning or late afternoon when the temperature is lower.

-Spray directly onto disease. Make applications before noticeable foliar damage occurs. Thorough spray coverage is essential for good disease control.

-Applications should be repeated at an interval sufficient to maintain control, depending upon plant growth, disease pressure and weather conditions after spraying.

-Local conditions may affect the use of Force of Nature™ Fungicide. Consult your local State Extension Specialist for specific recommendations related to local crop protection problems.

-Spray water/spray tank solutions should not be below pH 3.0 or above 8.0. Force of Nature™ Fungicide works best in a pH range of 3.5-7.5. Use outside this range may cause product degradation. If necessary, buffer water to near neutral pH.

-Do not mix Force of Nature™ Fungicide with oxidizing agents such as bleach, bases, or strong acids as they will destabilize the product.

NOTICE: Before using this product, read the entire label, including the Statement of Practical Treatment, Warranty, Directions for Use, and Storage & Disposal Instructions found on one or both pull-out flaps.

DIRECTIONS FOR USE: Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. For any requirements specific to your State or Tribe, consult the agency responsible for pesticide regulation.

**— SHAKE WELL BEFORE USE —
USE DILUTION IMMEDIATELY.
DO NOT STORE DILUTED SOLUTION.**

Pre-harvest interval: Force of Nature™ Fungicide may be applied to all crop types listed in the APPLICATION RATE & USAGE section at any time, up to and including the day of harvest. There is no pre-harvest interval.

For early entry to treated areas that involved contact with anything that has been treated such as plants, soil, or water, wear: long-sleeved shirt and long pants, waterproof gloves, shoes plus socks, and protective eyewear.

MIXING INSTRUCTIONS: Force of Nature™ Fungicide may be applied using conventional ground application equipment. Aerial application equipment is not recommended. Use quantities of water sufficient to provide thorough coverage of infested plants. Add enough water to spray tank to allow maximum agitation. With agitator running, slowly add the appropriate amount of Force of Nature™ Fungicide. Continue agitation. Add remainder of water and agitate until thoroughly mixed. Maintain suspension while loading and spraying. Do not mix more Force of Nature™ Fungicide than can be used in a 12 hour period. Rinse and flush spray equipment thoroughly following each use. Do not contaminate water when disposing of equipment washwaters. In order to make proper decisions on application rates to be used, follow the recommendations in the APPLICATION RATE & USAGE section.

NOTE: All applications should be preceded by a phytotoxicity check to ensure that the material is safe for that particular plant variety. We recommend that prior to treatment of a large number of plants, new species, or varieties, treat a few plants with Force of Nature™ Fungicide and observe if there is any phytotoxicity. Certain varieties of peppers are sensitive to Force of Nature™ Fungicide. It is best to treat plants after they've adjusted to environmental changes, i.e. temperature, water, light intensity, new containers, new area, transplanting, wind, etc.

TANK MIXING: Force of Nature™ Fungicide has not been tested for use in a tank mix with many commonly used insecticides, fungicides, or spray tank adjuvants. We recommend testing all tank mix combinations for physical compatibility and plant safety. Consult your dealer or manufacturer for specific recommendations. This product cannot be mixed with any product containing a label prohibition against such mixing. No label dosage rate should be exceeded. Application must be made in accordance with the more restrictive of label limitations and precautions. Read and follow label instructions.

— APPLICATION RATE & USAGE —

FINAL MIX VOLUME	FL. OZ.
1 Gallon	1.5 fl. oz.
5 Gallons	7 fl. oz.
10 Gallons	14 fl. oz.
25 Gallons	32 fl. oz.
100 Gallons	128 fl. oz.

Apply at intervals of 7-10 days. Repeat application as necessary. Coverage is essential to establish control. Apply enough to cover the entire surface of the infested tissue. The use of a surfactant such as Bush Doctor® Sledgehammer® may increase contact and efficacy of treatment.

— FOOD CROPS —

Force of Nature™ Fungicide is a contact fungicide that is exempt from tolerances on all food crops. Force of Nature™ Fungicide controls powdery mildew on all crops including:

FOOD CROPS: Beans & Peas (Dry Beans, Fresh Beans), Berries (Strawberries, Raspberries), Fruit & Nut Trees (Pome Fruit, Stone Fruit, Grapes), Leafy Vegetables (Lettuce, Spinach), Cole Crops, Melons & Cucurbits (Muskmelon, Watermelon, Cucumber, Squash).

May cause phytotoxicity to peppers. See note under "Mixing Instructions". May be applied to any crop after checking for compatibility.

— ORNAMENTAL & GREENHOUSE CROPS —

Force of Nature™ Fungicide is a contact fungicide that is exempt from tolerances on all crops. Force of Nature™ Fungicide controls powdery mildew on all ornamental and greenhouse crops including:

ORNAMENTAL AND GREENHOUSE: Bedding Plants, Flowers (greenhouse, field), Greenhouse Ornamentals, Greenhouse Vegetables, Bare Root Stock, Container Stock, Fresh Cut Flowers, and Ornamentals.

USE EXTREME CAUTION WHEN APPLYING TO ROSES AND SENSITIVE FLOWERS AND FRUIT. Suitable for all crops and plants. Always conduct a phytotoxicity test prior to any large scale application.
