**Directions for Use**

1. Always conduct a compatibility test prior to mixing with any fertilizers, surfactants or pesticides, unless compatibility agents are used. Add all ingredients to a tank or sprayer. 
2. With agitator running, gradually add Procidic to tank. With agitator running, stir contents of tank for 15 minutes. 
3. If the mixture remains mixed or can be remixed easily, it is physically compatible. 
4. Repeat the same procedure for adding ingredients to the sprayer or tank mix. 
5. Upon discovery of disease, spray every 3 to 5 days. 

**Jar Test**

Using a clear glass quart jar, add 1 pint of water from the same water source used for tank mixing. Add carrier and organic matter, a pH of 5.5-6.0 and a low salt concentration. 

**Limitations**

Procidic is not recommended for the control of **Rhizoctonia** sp, **Phytophthora** sp, **Fusarium** sp or **Gray Mold/Bud Rot**. 

**Preventative**

(12-15 ml/gallon) 
Repeat until control is attained. 

**Curative**

(15-90 ml/gallon) 
Repeat until control is attained. 

**Pesticide Storage**

Do not contaminate water, food or feed by storage and disposal. 

**STORAGE AND DISPOSAL**

1. Keep from freezing. Do not store below 58°F (15°C). 
2. In case of spill, soak up with an absorbent material. Call your local solid waste agency for disposal instructions. 
3. Container Handling (greater than 5 gallons) 
   b. Recapping: Recap. Shake for 10 seconds. Pour rinsate into application equipment or a mix tank or store rinsate for later use or disposal. 
   c. Container Handling (less than 5 gallons) 
   d. Empty the remaining contents into application equipment or a mix tank. Replace and tighten closures. Tip container on its side and roll it back and forth, ensuring at least one complete revolution. Stand the container on its end and tip back and forth several times. Turn the container over onto its side, then end up and tip back and forth several times. Empty the rinsate into application equipment or a mix tank or store rinsate for later use or disposal. 
   e. Container Handling (greater than 5 gallons) 
   f. Call your local solid waste agency for disposal instructions.

Keep out of reach of children. (Mantenga alejado del alcance de los niños)

If you do not understand the label, find someone to explain it to you in detail.

Do not use on crops where aerial applications are identified. Apply a minimum spray volume of 15 gallons per acre or active ingredient unless specified. To avoid spray drift, do not spray when conditions favor drift from intended target area. Sprays should be held at the lowest height consistent for application and flight safety. Applications more than 10 feet above the crop canopy is not recommended.

DIRECTIONS FOR USE

Read entire label and use accordingly. Failure to follow label directions may result in poor disease control.

Spray Equipment

Application Rates

Apply rates of Procidic as instructed in the Directions for Use section of this label. Procidic may be applied using a hand-held sprayer, ground sprayers, aerial equipment or sprayer irrigation equipment. Spray should be thoroughly mixed but not run off. Equipment should be thoroughly cleaned before and after applications. ASK YOURSELF SPRAY EQUIPMENT GUIDELINES AND INSTRUCTIONS

Hand-Held Sprayers

Spray volumes for applications of Procidic may be made with backpack and long reach sprayers, pump-up pressure sprayers, handguns, hand wands, and other hand held spray equipment and mobile mounted high volume spray equipment. For the most efficient use of spray materials, Procidic may be mixed with other pesticides.

Ground Application

Apply a minimum of 10 gallons of water per acre (4.5 litre/m²) unless otherwise specified. To avoid spray drift, do not apply when conditions favor drift from intended target area.

Spray Drift Management

To avoid spray drift, do not apply when conditions favor drift from intended target area. Conditions that may contribute to drift include wind speed and direction, spray nozzle pressure combinations, temperature, humidity, etc. Consult your local State extension agents, certified crop consultant and/or Procidic representative for additional spray drift prevention guidelines in your area. All aerial and ground application equipment must be properly maintained and calibrated using appropriate care. AVOIDING SPRAY DRIFT AT THE APPLICATION SITE IS THE RESPONSIBILITY OF THE APPLICATOR.

Application Provisions

Apply rates of Procidic as instructed in the Directions for Use section of this label. Procidic may be applied using a hand-held sprayer, ground sprayers, aerial equipment or sprayer irrigation equipment. Spray should be thoroughly mixed but not run off. Equipment should be thoroughly cleaned before and after applications. ASK YOURSELF SPRAY EQUIPMENT GUIDELINES AND INSTRUCTIONS

**FIRST AID**

If swallowed: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to by a poison control center or doctor. Do not give anything to an unconscious person.

If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing. Call a poison control center or doctor for treatment advice. Have product container or label with you when calling a poison control center or doctor or going for treatment. For general information on product use, etc., call the National Pesticides Information Center at 1-800-858-7378. For emergencies, call the poison control center 1-800-222-1222.

**PRECAUTIONARY STATEMENTS**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**CAUTION/PRECAUCION**

Users of this product must wear Personal Protective Equipment (PPE). Clothing: long-sleeved shirt and long pants, socks and shoes. Harmful if swallowed. Causes moderate eye irritation. Avoid contact with eyes or clothing. Wear protective eyewear. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet.

**STORAGE AND DISPOSAL**

Do not contaminate water, food or feed by storage and disposal.

**Pesticide Storage**

Keep in original container. Store in a cool, dry, well-ventilated area away from direct sunlight, feed or foodstuffs. Keep container tightly sealed when not in use. Keep from freezing. Do not store below 58°F (15°C). In case of spill, soak up with an absorbent material. Call your local solid waste agency for disposal instructions.

**Pesticide Disposal**

If empty: triple rinse as follows: Empty the remaining contents into application equipment or a mix tank and drill for 10 seconds after the flow begins to drip. Fill the container ¼ full with water and recap. Shake for 10 seconds. Pour rinseate into application equipment or a mix tank or store rinseate for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times. Offer for recycling if available or call your local solid waste agency for disposal instructions.

**ACTIVE INGREDIENTS:**
- Citric acid.............................3.5%
- Other Ingredients*: 96.5%
- Total.......................................100%

*Vitamin C, Ethyl lactate, Glycerin, Sodium chloride, Water
