gardening

# GOPHER SCRAM™

**GRANULAR REPELLENT**

**DUAL ACTION Protection**

PATENT PENDING

**CAUTION: KEEP OUT OF REACH OF CHILDREN NET WT. 3.5 lbs. (1.588 kg)**

**DIRECTIONS FOR USE:** Using the convenient shaker container, apply in three steps: **Step 1:** Cover the entire area where gopher damage is present. The application should extend 30 feet around or beyond the infested area. **Step 2:** Apply a second covering, sprinkling liberally 18" around and also within specific beds and plantings where gopher damage is visible. **Step 3:** Locate mounds, whether plugged or open. Shake about 3 ozs. (3 shakes or a small handful) into each mound (open the plugged mounds to access the tunnels). Then fill the open mounds with soil and re-plug the closed mounds after applying.

Water the affected area where Gopher Scram has been sprinkled (or spread) for approx. 20 minutes. **Apply 1 pound per 600 square feet.**

**FREQUENCY OF USE:** Apply Gopher Scram as soon as gopher activity is observed. It is recommended that you reapply once more after 2 weeks to assure that they have left the area. See Full Applications Instructions inside.

**PRECAUTIONARY STATEMENTS** Wash skin after use. Avoid contact with eyes or cuts. If in eyes, flush with water for 15-20 minutes. Call Poison Center or doctor for treatment. **Storage:** Store in original sealed container away from direct sunlight. Do not contaminate water, food or feed by storage or disposal. Do not apply directly to water. **Disposal:** Do not reuse empty container. Dispose of properly. Buyer assumes all responsibility for safety & use not in accordance with directions.
