NET CONTENTS: 30 OZ (two 15 OZ cans)

MOSQUITO BAIT & KILL

Plant & Shrub Spray

Safe, non-toxic formula kills mosquitoes and collapses populations.

Mosquitoes feed on plant sugars to fly, mate, and bite you. Bait & Kill mimics this necessary meal and collapses populations more than 90% in 2-3 weeks.

DIRECTIONS FOR USE:

Read entire label before use.
Shake Gently Before Each Use

For Outdoor Use: Apply to non-flowering plants and shrubs. Do not apply to actively blooming or budding flowers, actively flowering plants, fruit bearing plants or trees, or in direct proximity to beehives. Not recommended for man-made or porous surfaces such as brick, siding, wood, concrete, fabric, or soil.

IMPORTANT: Spray bottoms and tops of leaves to thoroughly and uniformly wet. Reapply every 4 weeks for continued control. Reapply sooner if heavy rains. May be applied sooner if high mosquito activity. Plants/shrubs sprayed should make up a minimum of 5% of the property land area.

Continuous Vegetation: Spray in an uninterrupted band, 1.5 ft. wide, between 1 ft. and 5 ft. off the ground. Spray the bottoms and tops of leaves to thoroughly and uniformly wet.

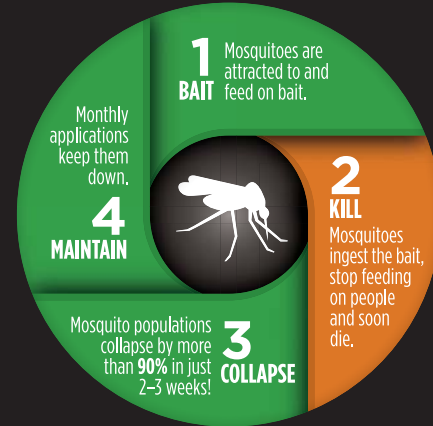

PRECAUTIONARY STATEMENTS: CAUTION. Keep Out of Reach of Children. This product contains an essential oil. In sensitive individuals it may cause skin irritation. Avoid contact with skin, eyes or clothing. Wash hands with soap and water after handling. **FIRST AID:** If concentrate gets in eyes, flush eyes with water. If on skin, wash area with soap and water. If any complications occur, contact a doctor. Upon application, product has a garlic scent that typically dissipates within 1 to 2 hours. If allergic to garlic, do not apply product and

stay out of treated areas. **PHYSICAL HAZARDS:** Contents under pressure. Do not puncture or incinerate container. Exposure to temperatures above 120 F may cause bursting. **STORAGE & DISPOSAL:** Store in a cool, dry place away from children and pets. Non-refillable. Place in trash or offer for recycling if available. **ENVIRONMENTAL HAZARDS:** Do not apply to blooming or actively budding flowers, flowering plants, fruit bearing plants or trees, or in direct proximity to beehives.

Scattered Plants/Shrubs: Spray the bottoms and tops of leaves from at least 1 ft. off ground to form a spot approximately 1 sq. yard (3'x3') to thoroughly and uniformly wet. Repeat spot applications to plants/shrubs approximately every 10 ft. throughout the property, including along the edge of the yard.

For Best Results:

- Apply on a dry day.
- Do not apply when raining or if rain is expected within 24 hours. Heavy or sustained rainfall after application reduces efficacy and may require reapplication.
- Avoid hand or automatic watering of treated surfaces for minimum of 48 hours after application.
- Spray when air is calm.
- Point sprayer away from face.
- Hold canister approximately 6 to 12 inches from plants/shrubs.
