DIRECTIONS FOR USE

USE ONLY ON DOGS AND PUPPIES WEIGHING 89-132 lbs. AND 8 WEEKS OR OLDER

USE ONLY ON DOGS AND PUPPIES WEIGHING 89-132 lbs. AND 8 WEEKS OR OLDER

How to Apply

To apply Vetality™ Firstect™ Plus for Dogs: Place applicator tip through perforation in top of applicator, and remove the safety tab. Insert applicator tip through the dog’s coat to the skin. Release the actuator and apply the entire dosing strip to the dog’s skin. Avoid superficial application to the dog's hair. Avoid application to broken skin or wounds. Do not contaminate water, food, or feed by storage and disposal.

FREQUENCY OF APPLICATION

FLEAS: When used monthly, Vetality™ Firstect™ Plus For Dogs breaks the flea life cycle. Although Vetality™ Firstect™ Plus For Dogs can control fleas for up to three months, if partly filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain. Do not reapply Vetality™ Firstect™ Plus For Dogs on the same dog less than 7 days. Do not contaminate water, food, or feed by storage and disposal. Do not allow children to apply product.

TICKS: Vetality™ Firstect™ Plus For Dogs aids in the control of deer ticks (Ixodes scapularis), brown dog ticks, American dog ticks, and Lone Star ticks (Rhipicephalus sanguineus). If partly filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain. Do not reapply Vetality™ Firstect™ Plus For Dogs on the same dog less than 7 days.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

HAZARDS TO HUMANS.
CAUTION. Harmful if swallowed. Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet.

HAZARDS TO DOMESTIC ANIMALS
For external use only. FOR USE ON DOGS AND PUPPIES ONLY. Do not use on puppies under 89 pounds or on puppies under 8 weeks of age. DO NOT USE ON CATS OR OTHER ANIMALS. Keep cats away from treated dogs for 24 hours. If applied to a cat or ingested by a cat, contact your veterinarian. Individual sensitivities, while rare, may occur after using ANY pesticide product. Dogs may experience some temporary irritation at the site of product application. If signs persist, or become more severe within a few days of application, consult a veterinarian. If your dog has an unusual reaction to the initial application, consult a veterinarian before repeating treatment. Certain medications can interact with pesticides. Consult a veterinarian before using on medicated, debilitated or aged dogs. Call 1-800-775-9416 for 24-hour assistance.

SIDE EFFECTS
Monitor your dog after application. Side effects may include skin irritation such as redness, scratching or other signs of discomfort. Gastrointestinal signs such as vomiting or diarrhea have also been reported. If these or other side effects occur, consult your veterinarian or us at 1-800-775-9416.

To kill adult fleas, flea eggs and larvae, chewing lice, all stages of Brown dog ticks, American dog ticks, Lone Star ticks, and Deer ticks (which may carry Lyme disease), and to aid in control of sarcoptic mange mites, apply this product ONLY to dogs and puppies (8 weeks or older) as follows.

ACTIVE INGREDIENTS:
Fipronil .................................. 9.8%
(S)-Methoprene ..................... 8.8%
OTHER INGREDIENTS .......... 81.4%
TOTAL ............................... 100.0%

KEEP OUT OF REACH OF CHILDREN

CAUTION
HOW TO APPLY:
To apply Vetality™ Firstect™ Plus For Dogs: Place applicator tip through dog’s hair to the skin level between the shoulder blades. Squeeze applicator, applying entire contents in a single spot to the dog’s skin. Avoid superficial application to the dog’s hair. Allow area to dry before touching treated area. Only one applicator per treatment is needed.

FREQUENCY OF APPLICATION
Fleas: When used monthly, Vetality™ Firstect™ Plus For Dogs breaks the flea life cycle and controls fleas, flea eggs, and flea larvae on your dog for up to three months. Although Vetality™ Firstect™ Plus For Dogs can control fleas for up to three months, if there is a high risk of re-inestation of fleas on your dog or if the dog has fleas which may cause flea allergy dermatitis, apply this product once a month.

Ticks: Vetality™ Firstect™ Plus For Dogs kills larva, nymph and adult ticks that may transmit Lyme disease, Rocky Mountain Spotted Fever, ehrlichiosis, babesiosis, and anaplasmosis for at least one month. For best control of ticks, apply once every month.

Chewing Lice: Vetality™ Firstect™ Plus For Dogs kills chewing lice for at least one month. For best control of chewing lice, apply once every month.

Sarcoptic Mites: Applied once a month, Vetality™ Firstect™ Plus For Dogs aids in the control of sarcoptic mange mite infestations. Do not reapply Vetality™ Firstect™ Plus For Dogs for 30 days.
