**Hawk Soft Bait Rodenticide**

**ACTIVE INGREDIENT:** Bromadiolone (CAS #28772-56-7): 0.005%

**OTHER INGREDIENTS †:** 99.995%

†Contains Denatonium Benzoate

**TOTAL 100.000%**

**Net Weight:** 16 lbs (7.2 kg)

**KILLS RATS, MICE & MEADOW VOLES**

**Kills Warfarin Resistant Norway Rats and House Mice**

**KEEP OUT OF REACH OF CHILDREN**

**CAUTION**

See back panel for First Aid and additional precautionary statements.

*Not permitted for use against the following species in California: Cotton rat, Eastern harvest mouse, Golden mouse, Polynesian rat, Meadow vole, White-throated woodrat, Southern plains woodrat, and Mexican woodrat*
**NOTE TO PHYSICIAN**

If swallowed or absorbed through the skin, this material may reduce the clotting ability of the blood and cause bleeding. If ingested, administer Vitamin K₁ intramuscularly or orally. Repeat as necessary based on monitoring of prothrombin times.

**NOTE TO VETERINARIAN**

Anticoagulant Bromadiolone: For animals ingesting bait and/or showing poisoning signs (bleeding or elevated prothrombin times), give Vitamin K₁ if needed; check prothrombin times every 3 days until values return to normal (up to 30 days). In severe cases, blood transfusions may be needed.

**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

This product must not be applied directly to food or feed crops.

**USE RESTRICTIONS:**

This product is approved for use against Norway rats, house mice, roof rats, and Norway rats, roof rats, and house mice may consume a lethal dose in one night's feeding with first dead rodents appearing four or five days after feeding begins.

**ACTIVE INGREDIENT:**

Bromadiolone (CAS #28772-56-7) ............... 0.005%

**OTHER INGREDIENTS:**.................. 99.995%

**CONTAINS DENTRAMOULON BENZATE TOTAL 100.000**

**KEEP OUT OF REACH OF CHILDREN**

**CAUTION**

See side panels for First Aid and additional precautionary statements.

**TREATMENT FOR PET POISONING**

If animal eats bait, call veterinarian at once.

**TREATMENT FOR HUMAN POISONING**

For animals ingesting bait and/or showing poisoning signs (bleeding or elevated prothrombin times), give Vitamin K₁ if needed; check prothrombin times every 3 days until values return to normal (up to 30 days). In severe cases, blood transfusions may be needed.

**STORAGE AND DISPOSAL**

Do not contaminate water, food or feed by storage or disposal. Pesticide Storage: Store only in original container in a cool, dry place inaccessible to children and pets. Keep containers closed and away from other chemicals.

**Pesticide Disposal:**

Rinse containers thoroughly after the use of the product before placing in trash or delivered to an approved waste disposal facility.

**Container Handling:**

Nonrefillable container. Do not reuse or refill this container.

**Waste Disposal:**

Wastes resulting from the use of this product may be placed in trash, at an approved waste disposal facility or by incineration. In most states, burning is not allowed.

**APPLICATION DIRECTIONS:**

Rate: Place 1 to 2 sachets per placement usually at intervals of 15 to 30 feet in infested areas. Maintain an uninterrupted supply of fresh bait for at least 10 days or until signs of rat activity cease.

**MICE AND MEADOW VOLES:**

Place 1 to 2 sachets per placement usually at intervals of 8 to 12 feet in infested areas. Up to 6 sachets may be needed at points of very high activity. Maintain an uninterrupted supply of fresh bait for at least 15 days or until signs of mouse or meadow vole activity cease.

**FOLLOW-UP:**

Replace contaminated or spoiled bait immediately. Wear gloves, collect and dispose of all dead, exposed animals and leftover bait. To prevent reinfection, limit sources of rodent food, water, and harborage as much as possible. If reinfection does occur, repeat treatment. Where a continuous source of infestation is present, establish permanent bait stations and replenish as needed.

**User Safety Requirements**

Follow manufacturer’s instruction for cleaning/maintaining PPE. If no such instructions for washable, use detergent and hot water. Keep and wash PPE separately from other laundry. Remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash hands thoroughly after applying bait and before eating, drinking, chewing gum, using tobacco or using the toilet and change into clean clothing.

**ENVIRONMENTAL HAZARDS**

This product is extremely toxic to fish, birds and other wildlife. Dogs, cats, and scavenging mammals and birds might be poisoned if they feed upon animals that have eaten this bait. Do not apply this product directly to water or to areas where surface water is present or to intermittent areas below the mean high water mark. Runoff also may be hazardous to aquatic organisms in water adjacent to treated areas. Do not contaminate water when disposing of equipment wash water or residue.
