## **READ THE LABEL FOR APPLICATION INSTRUCTIONS AND PRECAUTIONS PRIOR TO USE.**

This product is exempt from registration with the Federal EPA under section 25(b) of FIFRA, and as such, is not registered with the Environmental Protection Agency. Bonide represents that the ingredients qualify for exemption from registration under FIFRA.

## **DIRECTIONS FOR USE**

### **SHAKE WELL BEFORE USING.**

This product is a contact, non-selective, broad spectrum, foliar applied grass and weed killer. It will kill actively growing emerged green vegetation. It is effective on annual, perennial and grassy weeds. This product does not translocate and will affect only those plants that are covered with the spray solution. Use along borders, on driveways, sidewalks, around tree bases, around buildings, along fence lines, around barns, in greenhouses, school grounds, flower beds, vegetable gardens (do not apply directly to edible vegetables) and other areas where weed control is desired.

## DIRECTIONS FOR USE Cont.

**For younger**, easy to kill vegetation mix 4 fluid ounces of this product in 28 fl. ounces of water to make 32 oz. of solution OR 16 fl. ounces of this product in 112 fl. ounces of water to make a gallon of solution.

**For established**, harder to control vegetation a higher rate can be used, mix 8 fluid ounces of product in 24 oz. of water to make 32 oz. of solution OR 32 fl. oz. in 96 oz. of water to make a gallon of solution.

**For Best Results**, spray vegetation thoroughly to the point of run-off, making sure that all of the foliage is wet. Vegetation must be completely covered with spray as only contacted vegetation will be affected. Apply spray solution to vegetation using equipment such as a trigger, hand-held, back-pack, or tractor-mounted sprayer. Apply the solution on a sunny, dry day. Rainfall within one hour after application will reduce effectiveness and require an additional application. Multiple applications will be required for control of larger more established vegetation. Reapply every 1 to 3 days as necessary until desired results are achieved. Repeat applications if new growth appears. People, pets and other animals may re-enter a treated area after the application has dried.

## DIRECTIONS FOR USE Cont.

Avoid application to reactive metals such as aluminum, tin, iron, or items such as vinyl/metal fencing or lawn furniture in order to prevent staining, mottling, or otherwise interfering with finished metal surfaces.

Reseeding or Re-planting interval:

Treated areas may be reseeded 24 hours after application.

**NOTE:** All contacted vegetation will be affected. Avoid contact with desirable vegetation. If product contacts desirable vegetation, wash off immediately with water.

## DIRECTIONS FOR USE Cont.

### TYPICAL VEGETATION CONTROLLED, BUT NOT LIMITED TO:

<p><b>Annual Broadleaf Weeds</b> Amaranthus sp. (Pigweed), Black Medic, Carpetweed, Common Chickweed, Cinquefoil (Rough), Groundsel, Hairy Bittercress, Henbit, Prostrate Knotweed, Lamb's Quarters, Mallow, Mustard spp., Oxalis spp., Purslane, Ragweed spp., Corn Speedwell, Prostrate Spurge, Vervain</p>	<p><b>Perennial Broadleaf Weeds</b> Clover, Cinquefoil (Silvery), Dandelion, Mouse Eared Chickweed, Ground Ivy, Toadflax, Tufted Vetch, Wild Carrot</p>
<p><b>Annual Grasses</b> Barnyard Grass, Crabgrass, Foxtail spp., Goose Grass, Poa Annua (Annual Bluegrass), Wild Oat</p>	<p><b>Perennial Grasses</b> Bluegrass, Quackgrass, Fescue</p>

## **STORAGE AND DISPOSAL**

Do not contaminate water, food, or feed by storage or disposal.

**STORAGE:** Keep from freezing. Store only in original tightly sealed container and out of reach of children.

**PESTICIDE DISPOSAL:** Securely wrap original container in several layers of newspaper and discard in trash.

**CONTAINER DISPOSAL:** Do not reuse container (bottle). Rinse thoroughly before discarding in trash.

## FIRST AID

Si usted no entiende la etiqueta, busque a alguien para que se la explique a usted en detalle. (If you do not understand the label, find someone to explain it to you in detail.)

**IF IN EYES:**

Hold eyelids open and flush with a steady, gentle stream of water for 15 minutes. Get medical attention.

**IF SWALLOWED:**

Call a doctor or get medical attention. Do not induce vomiting. Drink promptly a large quantity of milk, egg whites, gelatin solution, or if these are not available, drink large quantities of water. Avoid alcohol.

**IF ON SKIN:**

Wash with plenty of soap and water. Get medical attention if irritation persists.

**NOTE TO PHYSICIAN:** Probable mucosal damage may contraindicate the use of gastric lavage.

**PRECAUTIONARY STATEMENTS  
HAZARDS TO HUMANS AND ANIMALS**

**WARNING:** Causes eye irritation. Wear safety glasses and gloves when applying. Do not get in eyes, on skin, or on clothing. Harmful if swallowed. In case of contact, immediately flush eyes with plenty of water. Get medical attention if irritation persists. Wash thoroughly with soap and water after handling.

**ENVIRONMENTAL HAZARDS:** Avoid spraying directly into water.

**DO NOT APPLY THIS PRODUCT THROUGH ANY TYPE OF IRRIGATION SYSTEM.**

**Recommended Personal Protection Equipment (PPE):** Applicators should wear appropriate protective eyewear, long sleeved shirt, long pants, latex gloves and shoes.

**NOTICE:** Buyer assumes all responsibility for safety and use not in accordance with label directions.
