Estimate 150 to 300 sq. ft. per gallon for brush coat or 5 to 10 gallons per 1000 board feet for dipping dimensional lumber.

### Recommended for

COPPER GREEN® Wood Preservative is an easy to use wood preservative for above ground, ground contact and below ground contact and below ground uses: e.g. window sills, trellises, greenhouse benches, foundations, sills, planter boxes, fence posts, lawn furniture, and decks. For use wherever wood meets soil or water. Must not be applied to food or feed contact surfaces.

FOR EXTERIOR USE ONLY. Application of this product may produce a strong, lingering, unpleasant odor. Wood to be protected against subterranean termites must be treated before use in ion. Termites will not attack wood treated with COPPER GREEN® Wood Preservative.

**Directions for Use:** It is a violation of federal law to use

this product in a manner inconsistent with its labeling.

Wood to be treated must be dry and well seasoned before treatment with COPPER GREEN® Wood Preservative. Lumber and wood products must be dip treated for at least 3 minutes per inch thickness. If dipping is not possible, treat with several flowing coats by brush or spray. The more COPPER GREEN® Wood Preservative the wood absorbs, the better it will be proteced. Do

not try to extend the coverage.

Fence posts and heavy timbers must be free from bark, dry and well seasoned and must be immersed in COPPER GREEN®
Wood Preservative for 12-48 hours to give effective control for

Apply prior to use in construction. Ends or edges cut or bored after initial treatment must be brushed or sprayed with COPPER GREEN® Wood Preservative. Do not install treated articles until

Use one coat on materials to be finished with paint or stain. If no finish is to be used, apply two liberal coats within the hour. Thoroughly cover the ends. The more preservative absorbed into the wood, the longer and more effective the protection. The copper fungicide gives a green cast to COPPER GREEN® Wood Preservative. This product is not intended for use as a stain.

The green color will fade within a few months when exposed to sunlight. Oil or Alkyd stains or paints can be applied over COPPER GREEN® Wood Preservative after thorough drying (about 48 hours), but the green may bleed through lighter colors. This product is supplied at proper application consistency and

is to be applied without thinning or diluting under normal environmental and application conditions. Brushes and other application equipment may be cleaned with paint thinner

ontains petroleum distillates - vomiting may cause aspiration pneumonia

### **Environmental Hazards**

This product is toxic to aquatic invertebrates, shrimps, and oysters/clams. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters unless in accordance with the requirements of a national Pollution Discharge Elimination System (NPDES) permit and permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidence contact your State Water Board or Regional Office of the EPA. Wood treated with Copper-Green® Wood Preservative shall not be used in the construction of beehives.

## **Physical or Chemical Hazards**

Do not use, pour, spill or store near heat or open flame. Use only with adequate ventilation. Close container when not in use.

## Storage and Disposal

Storage: Store in a secure, well ventilated area, protected from extreme temperatures. If the product has been spilled or is leaking, remove the source of the spill or leak. Recover free liquid. Spread absorbent, then pick up and place in containers. Then, where applicable, wash area with detergent and water. Store product in the original container only. Do not contaminate water, food or feed by storage or disposal. Keep container closed when not in use

Pesticide Disposal: Pesticide wastes are toxic. Improper disposal of excess pesticides, spray mixture, or rinsate is a violation of federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste Representative at the nearest EPA Regional Office for guidance.

Container Disposal: Nonrefillable container. Securely wrap original container in several layers of newspaper and discard in trash. Do not reuse container. Rinse thoroughly before discarding in trash.
