

61671-2_Para-Moth Aseticide_20140304_2.pdf PARA-MOTH[®] INSECTICIDE

Dichlorobenzene, para, Solid,
UN3077, RQ (Dichlorobenzene)

Active Ingredient: Para-Dichlorobenzene 100%
CAS: 106-46-7 Chemical Name: 1,4 - Dichlorobenzene

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS WARNING

- Causes substantial but temporary eye injury.
- Harmful if swallowed or absorbed through skin.
- Causes eye, skin, and respiratory tract irritation.
- Wear goggles or face shield.
- Do not get in eyes or on clothing.
- Avoid contact with skin.
- Wash thoroughly with soap and water after handling.
- Remove contaminated clothing and wash before reuse.

Personal Protective Equipment: All applicators and other handlers must wear: long sleeved shirt, long pants, shoes plus socks.
NOTICE: California has determined that a chemical contained in this product causes cancer based on its tests performed on laboratory animals.

ENVIRONMENTAL HAZARD

This product is toxic to fish and aquatic organisms. Do not discharge effluent containing this active ingredient into lakes, streams, ponds, estuaries, oceans or public waters unless this product is specifically identified and addressed in an NPDES permit. Do not discharge effluent containing this product to sewer systems without previously notifying the sewerage treatment plant authority. For guidance contact your State Water Board or regional Office of the EPA.

PHYSICAL OR CHEMICAL HAZARD

Vapor concentration of Para-Dichlorobenzene greater than 50 ppm have been reported to cause irritation to skin, eyes and throat in humans. Repeated excessive exposure can cause liver and kidney damage.

EPA REG. NO 61671-2

EPA EST. 061671MN001

KEEP OUT OF THE REACH OF CHILDREN
WARNING:
HARMFUL IF SWALLOWED OR INHALED
COMBUSTIBLE

FIRST AID WARNING	
If inhaled	<ul style="list-style-type: none"> • Remove patient to fresh air. • If not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. • Call a poison control center or doctor for treatment advice.
If on skin or clothing	<ul style="list-style-type: none"> • Take off contaminated clothing. • Rinse skin immediately with plenty of water for 15 - 20 minutes. • Call a poison control center or doctor for treatment advice.
If in eyes	<ul style="list-style-type: none"> • Hold eye open and rinse slowly and gently with water for 15-20 minutes. • Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. • Get medical attention.
If swallowed	<ul style="list-style-type: none"> • Do not induce vomiting. • If conscious, drink large quantities of water. • Do not give anything by mouth to an unconscious person. • Get medical attention.
HOT LINE NUMBER 1-800-424-9300	

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 1-800-424-9300 for emergency medical treatment.

NOTE TO PHYSICIAN
Never administer adrenalin for overdose or over exposure.
Increased sensitivity of the heart may occur.

NET WT. 16 oz. 1 lbs. 454g

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

For the control of moths in beehives and bee housings. See side panel text under the heading WAX MOTH CONTROL DIRECTIONS for instructions in the use of this product.

DIRECTIONS FOR USE: To be used for empty extracted combs when in storage.

CAUTION: DO NOT USE FOR COMB HONEY, CUT COMB HONEY OR COMBS OF HONEY THAT HAVE NOT BEEN EXTRACTED.

ASK FOR AND REVIEW MATERIAL SAFETY DATA SHEET (MSDS) FOR DETAILED SAFETY, HEALTH EFFECTS, SPILL AND DISPOSAL INFORMATION.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage and disposal.

PESTICIDE STORAGE:

Keep away from heat and flames. Store in a cool dry area under lock and key. Post as a pesticide storage area. Always store pesticides in the original container. Store away from food, pet food, feed, seed, fertilizers, and veterinary supplies. Place liquid formulations on lower shelves and dry formulations above.

PESTICIDE DISPOSAL:

Pesticide wastes may be hazardous. Improper disposal of excess pesticide, spray mixture rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste Representative at the nearest EPA Regional Office for guidance.

CONTAINER HANDLING:

Nonrefillable container. Do not reuse or refill this container. Completely empty bag into application equipment by shaking and tapping sides and bottom to loosen clinging particles. If not emptied in this manner, the container may be considered an acute hazardous waste and must be disposed in accordance with local, state and federal regulations.

WAX MOTH CONTROL DIRECTIONS

Treatment with Para-Dichlorobenzene requires no special storage facilities. The supers should be stacked as tightly as possible, and special precautions should be taken to see that the gas, which is heavier than air, cannot escape at the bottom of the stack. This can be accomplished by laying several layers of newspaper down prior to stacking the supers. For long periods of storage, as over winter, the cracks between supers should be covered with strips of tape. No more than 5 full-depth supers or 10 half-depth supers should be used in a stack.

Taller stacks may not allow for the complete diffusion of the heavy gas, especially during periods of low temperature. In each stack of supers, 3 oz. of crystals (6 tablespoons) should be placed on the top bars, preferably, separated from the frames by a piece of paper or cardboard. The cover should then be put tightly in place. At intervals of 2 or 3 weeks the covers of the stacks should be raised and the top supers examined; if the crystals are no longer present, more should be added. Para-Dichlorobenzene kills adults and immature stages, but not eggs. The continuous presence of crystals within the stack not only repels moths, but also kills any young larvae that hatch after the combs are placed in storage.

Stored combs that have been treated must be thoroughly aired first, otherwise bees will be killed.
