

Stop Animal Damage!™

CONCENTRATE

The contents of this bottle will cover approximately 10,000 square feet

EFFECTIVE AGAINST

DIRECTIONS

Deer

Elk

Moose

This product is a highly effective solution for preventing foraging and entry damage caused by **deer, elk and moose** when used according to the following directions. **1:** Shake container well before using. **2:** Mix one part concentrate with nine parts water (13 ounces will make one gallon of product) into an empty garden sprayer, making sure that it has been thoroughly cleaned out from any prior use. **3:** Apply a fine mist to the plants that need protection, making sure all parts are covered, being careful not to overspray. When using near edible crops, apply a perimeter application. **4:** Allow 20 minutes for the product to dry before watering of any kind. **5:** Repeat application as needed, usually every 30 days.

NOTE: Due to possible allergic reaction to one or more of the ingredients used to make this product, do not apply to plants that are grown for human or animal consumption. When spraying, ensure that the product does not contact food plants. It may, however, be used on dormant fruit and nut trees. This product works by smell and taste.

Storage and Disposal

Store at room temperature. When finished with contents, rinse this container and recycle.

Precautionary Statements

To reduce contact with skin, always wear gloves when handling. In case of eye contact or prolonged exposure to skin, flush thoroughly with water to reduce irritation. If swallowed, drink a glass of water.

Buyers guarantee limited to label claims.

If, for any reason, you are not 100% satisfied, Messinas will refund the suggested retail price or replace this product within thirty days of the date of purchase. Messinas will not be liable for any damage, direct or indirect. Refund or replacement of product is our only obligation.
