# GRASS-B-GON® GARDEN GRASS KILLER

OPEN
*Resealable Label For Directions & Precautions*

Grass-B-Gon® Garden Grass Killer is a selective systemic grass killer that can be used to kill existing weedy grasses in and around ground covers, plant beds, landscapes, individual shrubs and trees.

## PRODUCT FACTS

| | |
|---|---|
| **KILLS GRASSES** | Controls most grasses including Annual bluegrass, bentgrass, Bermudagrass, crabgrass, goosegrass, Kentucky bluegrass, quackgrass, perennial ryegrass, tall fescue and other grasses. See inside booklet for other grasses controlled. **NOTE:** This product does NOT control broadleaf weeds or sedges. Select an appropriate Ortho Weed-B-Gon® product. |
| **WHERE TO USE** | Use in and around ground covers, plant beds, landscapes, shrubs and trees.* |

* Won't harm ornamental plants when used as directed.

## DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

| | |
|---|---|
| **WEEDY GRASSES CONTROLLED** | Controls most annual and hard-to-kill perennial grasses including the examples list below in one (or two) applications. Younger, actively growing seedling weeds are more easily killed than older, mature, well-established grassy weeds.<br>Annual bluegrass (Poa annua), bahiagrass, barnyardgrass, bentgrass, Bermudagrass, centipedegrass, crabgrass, dallisgrass, downy brome, foxtails, goosegrass, johnsongrass, Kentucky bluegrass, nimblewill, orchardgrass, quackgrass, panicum, perennial ryegrass, sandbur, St. Augustinegrass and tall fescue.<br>Note: This product does not control broadleaf weeds or sedges (nutgrass). Select an appropriate Weed-B-Gon® product. |
| **WHEN TO APPLY** | Anytime weeds are actively growing. Warm, sunny weather will accelerate systemic movement from leaves and stems down to the roots to give complete kill. Do not mow or cut off tops of weeds before spraying. Treatment is rain fast one hour after application. Growth of treated grasses stops soon after application. They turn yellow and die within one to four weeks depending on the grass species and weather conditions. Cool weather slows activity. |
| **HOW TO USE** | Hold sprayer close to weed (1 to 2 ft) with spray nozzle aimed at weed and away from face and spray to wet foliage. Make two applications 7 days apart for tough to control weedy grasses such as established Bermudagrass, dallisgrass, quackgrass, St. Augustine-grass, etc. Repeat if necessary. Spray when air is calm to avoid drift to non-labeled plants. **Unless the ornamental plant is listed in the table under those plants which you can spray over the top, always direct the spray to the weeds to avoid possible injury to the foliage.** |

| | |
|---|---|
| **GROUND COVERS, FLOWERS, ORNAMENTALS, SHRUBS AND SHADE TREES** | To kill undesirable weedy grasses growing around the trunk or up through the foliage of the following plants, spray directly on the weeds, avoiding the desirable plant foliage as much as possible. The following plants are generally tolerant (will not be injured) although temporary discoloration may occur occasionally on some of the listed plants if contacted by spray. |
| **GROUND COVERS & FLOWERS** | Ajuga, Algerian ivy, Baltic ivy, cinquefoil (potentilla), coleus, dichondra, English ivy, gazania, geranium, hypericum, iris, kinnikinnic, lilyturf, marigold, pachysandra, periwinkle (vinca minor), petunia, rose and zinnia. |
| **LOW GROWING SHRUBS & ORNAMENTALS** | Azalea, barberry, boxwood, cotoneaster, crape myrtle, euonymus, forsythia, gardenia, juniper*, photinia, pittosporum, privet (ligustrum), pyracantha, rhododendron, spirea, star jasmine, viburnum and yew (taxus).<br>*Juniper: Spray grasses around and beneath junipers. Do not allow spray to contact foliage (needles), as browning may occur in some varieties. |
| **TALL SHRUBS & SHADE TREES** | Arbovitae, ash, beech, birch, cherry (flowering), crab apple, crape myrtle, dogwood, douglas fir, elm, eucalyptus, fir, hemlock, holly, horsechestnut, magnolia, maple, mountain ash, oak, peach (flowering), pear (flowering), pine, plum (flowering), quince (flowering), redbud, spruce, sweet gum, tulip tree and willow. |
| **NON-BEARING TREE CROPS & VINES (Plants that will not bear edible fruit for one year.)** | Direct spray around the base but away from foliage of desirable plants to contact weedy grasses. Should accidental contact be made to foliage, immediately wash off with water.<br>Almonds, apples, apricots, avocados, berries, cherries, dates, figs, filberts, grapes, grapefruit, lemons, limes, macadamia, mangos, nectarines, olives, oranges, peaches, pears, pecans, pistachios, plums, pomegranates, prunes, tangelos, tangerines and walnuts. |

## STORAGE & DISPOSAL

**STORAGE:** Keep from freezing. Keep pesticide in original container. Do not put concentrate or dilute into food or drink containers. Avoid contamination of feed and foodstuffs. Store in a cool, dry place, preferably in a locked storage area.
**DISPOSAL: If empty:** Do not reuse this container. Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency or 1-800-CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain.

## PRECAUTIONARY STATEMENTS

**HAZARDS TO HUMANS & DOMESTIC ANIMALS**
**CAUTION:** Causes eye irritation. Avoid contact with eyes or clothing. Wear long-sleeved shirt, long pants, and PVC gloves when spraying. Wash thoroughly with soap and water after handling.
**Note to Physicians:** Emergency Information call 1-800-225-2883.

## FIRST AID

**IF IN EYES:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

**ENVIRONMENTAL HAZARDS:** Do not apply directly to water. Groundwater Advisory: Do not apply around wells or where the water table (groundwater) is close to the surface or where the soils are very permeable, such as sandy loam.

**NOTICE:** Buyer assumes all risks of use, storage or handling of this product not in accordance with directions.

**The ORTHO Guarantee:** If for any reason you are not satisfied with this product, mail us proof of purchase to obtain a full refund of your purchase price.
