KEEP OUT OF REACH OF CHILDREN CAUTION

FIRST AID

- | | |
|--------------------|---|
| If in eyes: | <ul style="list-style-type: none">• Hold eye open and rinse slowly and gently with water for 15-20 minutes.• Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.• Call a poison control center or doctor for treatment advice. |
|--------------------|---|

HOT LINE NUMBER

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 1-800-424-9300 for emergency medical treatment information.

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS CAUTION

Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling.

People and pets may enter treated areas after spray has dried.

ENVIRONMENTAL HAZARDS

To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help ensure that wind or rain does not blow or wash pesticide off the treatment area.

See inside booklet for additional precautionary statements and complete directions for use.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Do not allow spray to drift from the application site and contact people, structures people occupy at any time and the associated property, parks and recreation areas, nontarget crops, aquatic and wetland areas, woodlands, pastures, rangelands, or animals. Apply only when wind speed is not more than 10 mph. For sprays, apply largest size droplets possible.

CONTROLS ALL WEEDS AND GRASSES INCLUDING: Barnyardgrass, Bermudagrass, Thistle, Chickweed, Common Ragweed, Dandelion, Fescues, Johnsongrass, Clover, Yellow Nutgrass and other grasses, weeds, sedges and brush.

HOW TO APPLY

Trigger sprayer

- Adjust nozzle to a coarse spray.
- Spray the weeds or grasses you want to kill until thoroughly wet.
- When spot treating weeds in a flowerbed or vegetable garden, shield desirable plants from drift with a sheet of cardboard or plastic. If desirable plant is accidentally sprayed, rinse off immediately with water.

Sprayer hose and cap assembly

- After shaking product well, remove cap from container and replace with sprayer hose and cap assembly. Tighten securely.
- Turn sprayer nozzle one-half turn counterclockwise. Hold sprayer below the level of container and prime by pumping trigger 10–15 times until product is dispensed. Adjust nozzle to fine spray or jet stream as needed.
- Spray the weeds or grasses you want to kill until thoroughly wet.
- When spot treating weeds in a flowerbed or vegetable garden, shield desirable plants from drift with a sheet of cardboard or plastic. If desirable plant is accidentally sprayed, rinse off immediately with water.
- After each use, thoroughly flush sprayer and hose with water. Return hose and cap assembly to container. Tighten securely. Turn nozzle to “off” position and store above level of liquid in container to prevent leakage.

NOTE: If sprayer does not function properly, remove nozzle cover and check nozzle hole and holes in rubber component for obstructions. Check to make sure nozzle is not in "off" position. Replace nozzle cover, return sprayer assembly to container and proceed.

IMPORTANT: Do not spray plants or grasses you like – they may die too. Not recommended for spot weed control in lawns because GlyStar® Ready-to-Use Grass and Weed Killer kills lawn grasses.

ADDITIONAL TIPS

For lawn replacement, use GlyStar® Ready-to-Use Grass and Weed Killer to kill lawn and weeds before planting new lawn.

- Skip one mowing before spraying.
- If soil is dry, water before application and 2 to 3 days after applications.
- If green patches remain after 7 days, reapply.
- Wait 7 days after last application to rake, till or plant with seed or sod.

WHEN TO APPLY

- Apply when weeds are actively growing.
- For best results, apply during warm, sunny weather (above 60°F).
- Spray when air is calm to prevent drift to desirable plants.
- Rain or watering 2 hours after application will not wash away effectiveness.
- Apply when weeds are small and before seeds form.

WHEN TO REPLANT

- All ornamental flowers, trees and shrubs may be planted 1 day after application.
- The following berries may be planted 1 day after application: Blackberry, Blueberry, Boysenberry, Cranberry, Currant, Dewberry, Elderberry, Gooseberry, Huckleberry, Loganberry, Olallieberry and Raspberry (Black and Red).
- The following fruits, vegetables and herbs may be planted 1 day after application: Artichoke (Jerusalem), Beans (all), Beet Greens, Broccoli, Brussels Sprouts, Cabbage (all), Carrot, Cauliflower, Celery, Chard (Swiss), Chicory, Collards, Endive, Horseradish, Kale, Kohlrabi, Leek, Lentils,

Lettuce, Mustard Greens, Okra, Onion, Rape Greens, Parsley, Parsnips, Potato, Radish, Rhubarb, Rutabaga, Spinach, Sweet Potato, Turnip and Yams.

- The following fruits, vegetables and herbs may be planted 3 days after application: Corn, Cucumber, Eggplant, Garlic, Gourds, Melons (all), Peas (all), Peppers (all), Pumpkin, Squash (summer and winter), Tomatillo, Tomato (by seed), and Watercress.
- Lawn grasses may be planted 7 days after application.
- Tomatoes from transplant and unlisted fruits, vegetables and herbs may be planted 30 days after application.

WHEN TO HARVEST

If used to control weeds around fruits or nuts, wait the following number of days before harvesting:

- Citrus (Citron, Grapefruit, Kumquat, Lemon, Lime, Mandarin, Orange, Pummelo, Tangelo, Tangerine), Guava, Papaya – 1 day.
- Nuts (Almond, Beechnut, Brazil Nut, Butternut, Cashew, Chestnut, Filbert, Hazelnut, Hickory Nut, Macadamia, Pecan, Pistachio, Walnut) – 3 days.
- Apple, Avocado, Banana (Plantains), Berries (except Cranberries), Dates, Figs, Grapes, Loquat, Passion Fruit, Pear, Persimmon, Pomegranate and Quince – 14 days.
- Apricot, Cherries, Nectarine, Olives, Peach, Plum and Prunes – 17 days.
- Cranberries – 30 days.

HOW IT WORKS

GlyStar® Ready-to-Use Grass and Weed Killer enters plants through foliage and moves systematically to the roots, killing weeds by stopping the production of a substance found only in plants. Any product not absorbed by plants breaks down into natural materials, without moving in or on the soil to untreated plants. Weeds yellow and wilt within hours with complete kill in 1 to 2 weeks. Established weeds may require a repeat application.

REFILL:

To this empty container add 2.5 fl. oz. of GlyStar® Grass and Weed Killer Concentrate then fill with water very slowly to avoid foaming.

1 fl. oz. = 2 Tablespoons

STORAGE AND DISPOSAL

STORAGE:

For Trigger Sprayer: Rotate nozzle to “off” position. Store product in original container in a safe place. Keep from freezing.

For sprayer hose and cap assembly: Thoroughly flush sprayer and hose with water. Return hose and cap assembly to container. Tighten securely. Turn nozzle to “off” position and store above level of liquid in container to prevent leakage. Store product in original container in a safe place. Keep from freezing.

CONTAINER DISPOSAL:

Refillable container. Refill this container with glyphosate only according to the directions provided above. Do not reuse this container for any other purposes. Cleaning the container before final disposal is the responsibility of the person disposing of the container. Offer for recycling, if available.

Nonrefillable container. Do not reuse or refill this container. Offer for recycling, if available.

NOTICE

Buyer assumes all responsibility for safety and use not in accordance with directions.
