

FIFRA Section 24(c) Special Local Need (SLN) Label

FOR DISTRIBUTION AND USE ONLY WITHIN THE STATE OF OREGON

42-S Thiram Fungicide

For Use On Coriander Seed (Export Only) and On Seed Intended for Planting to Produce Coriander Grown for Seed

EPA Reg. No. 264-929

EPA SLN No. OR-100002

THIS LABEL IS VALID UNTIL DECEMBER 31, 2026, OR UNTIL OTHERWISE AMENDED, WITHDRAWN, CANCELED, OR SUSPENDED.

ACTIVE INGREDIENT:

Thiram (Tetramethylthiuram disulfide)..... 42.00%

OTHER INGREDIENTS: 58.00%

Contains 4 lbs. thiram per gallon. **TOTAL:** 100.00%

KEEP OUT OF REACH OF CHILDREN CAUTION

DIRECTIONS FOR USE

- It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
- This SLN label and the label affixed to the main container of 42-S Thiram Fungicide must be in the possession of the user at the time of pesticide application.
- Follow all applicable directions, restrictions, Worker Protection Standard requirements, and precautions on this SLN label and the label affixed to the main container of 42-S Thiram Fungicide.

For the treatment of coriander seed to be exported out of the USA and for use on seed intended for planting to produce coriander grown for seed in the State of Oregon

DISEASE	RATE OF 42-S THIRAM FUNGICIDE
To aid in the control of seed decay, damping-off and seedling blight	2.5 – 5.0 fl oz/100 lbs. seed

APPLICATION RESTRICTIONS

- Maximum application rate: 5.0 fl oz of 42-S Thiram Fungicide per 100 lbs. seed.
- Apply using standard mechanical, slurry, or mist-type treatment equipment. Use a sufficient volume of water to ensure uniform and complete coverage of treated material when applied with ground application equipment.
- **DO NOT** use treated seed for human or animal consumption.
- **DO NOT** use this treated seed to grow coriander or cilantro for human or animal consumption in the United States.

APPLICATION PRECAUTIONS

- When using formulations that do not contain dye, to comply with 40 CFR 153.155, all seed treated with an economic poison must be colored to distinguish and prevent subsequent inadvertent use as a food for man or feed for animals.
- For export only and for use on seed planted to produce coriander grown for seed in the State of Oregon.
- Treat and conduct germination tests on a small portion of the seed before committing the total seed lot to the chemical treatment.

SEED LABELING:

Seeds that are treated with this product and are then packaged or bagged for future use must contain the following labeling on the outside of the seed package or bag:

“Do not use this treated seed to grow coriander or cilantro for human or animal consumption in the United States. This seed is for export only or for planting to produce coriander grown for seed in the State of Oregon.

Endangered Species

This bag contains seed treated with thiram. This product may have effects on federally listed threatened or endangered species or their critical habitat in some counties. It is a violation of federal law to kill, harm or harass listed animal species without authorization. To limit the potential for such impacts when using this product, consult and follow the instructions provided in the EPA Endangered Species Bulletin for the County or Parish in which you are applying the seed. To determine whether your County or Parish has a Bulletin consult <http://www.epa.gov/espp> before each season's use of this product.

This bag contains seeds treated with thiram. When opening this bag or loading/pouring the treated seeds, wear long-sleeved shirt, long pants, shoes, socks and chemical resistant gloves.

Treated Seeds - Do Not Use for Food, Feed, or Oil Purposes.

After the seeds have been planted, do not enter or allow worker entry into treated during the restricted-entry interval (REI) of 24 hours. Exception: Once the seeds are planted in soil or other planting media, the Worker Protection Standard allows workers to enter the treated area without restriction if there will be no worker contact with the seeds.

Treated seeds are hazardous to fish, birds and mammals. Do not plant treated seeds by broadcasting to the soil surface. Ensure that all planted seeds are thoroughly covered with soil, especially in turn areas. If seeds are not thoroughly incorporated by the planter during planting, additional incorporation may be required to thoroughly cover exposed seeds. Do not apply to water, to areas where surface water is present, or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment washwater or rinsate or by disposal of wastes.

Use with an EPA-approved dye that imparts an unnatural color to the seed.

Store treated seed away from food and feedstuffs.

Do not allow children, pets or livestock to have access to treated seeds.

Treated seeds exposed on soil surface may be hazardous to wildlife. Cover or collect treated seeds spilled during loading and planting.

Dispose of all excess treated seed by burying seed away from bodies of water.

Dispose of seed packaging or containers in accordance with local requirements.”

IMPORTANT - READ BEFORE USE

Bayer CropScience makes no claims as to the effect of this product on disease control or seed germination. All such risks shall be assumed by the Buyer.
