

CRC® Bee Blast® Wasp & Hornet Killer with Residual

Kills Wasps, Hornets, Yellow Jackets, & Bees

- Electrically non-conducting; dielectric breakdown voltage of 47,300 volts
- Kills with residual action as wasps & hornets return to nest

FIRST AID

If swallowed: Immediately call a poison center or doctor. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give any liquid to the person. Do not give anything by mouth to an unconscious person.

If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

HOT LINE NUMBER: Have the product container or label with you when calling a poison control center or doctor, or going for treatment. In case of Medical emergencies or health and safety inquiries or in case of fire, leaking or damaged containers, information may be obtained by calling 1-877-315-9819.

NOTE TO PHYSICIAN: Contains petroleum distillate – vomiting may cause aspiration pneumonia.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS & DOMESTIC ANIMALS – CAUTION: Causes moderate eye irritation. Avoid contact with eyes or clothing. Harmful if swallowed. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals.

USER SAFETY RECOMMENDATIONS: Users should wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet. Users should remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing. Users should remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible wash thoroughly and change into clean clothing.

ENVIRONMENTAL HAZARDS: This pesticide is extremely toxic to aquatic organisms, including fish and invertebrates. Do not apply directly to water. Do not apply when weather conditions favor drift from treated areas. Drift and runoff from treated areas may be hazardous to aquatic organisms in neighboring areas. Do not contaminate water when disposing of equipment wash waters. See directions for use for additional precautions and requirements. This pesticide is highly toxic to bees exposed to direct treatment on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds while bees are actively visiting the treatment area.

PHYSICAL AND CHEMICAL HAZARDS: Contents under pressure. Keep away from heat, sparks and open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting.

DIRECTIONS FOR USE

Read entire label before using this product. It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

This product is intended for outdoor use only. Do not allow adults, children, or pets to enter the area until sprays have dried. Remove pets, birds, and cover fish aquariums before spraying. Do not apply this product in a way that will contact adults, children or pets, either directly or through drift. Do not make application during rain. Do not water the treated area to the point of runoff. Avoid spraying vegetation directly. Do not apply when food is present. Remove or cover exposed food and drinking water before application. All outdoor applications must be limited to spot or crack and crevice treatments only, except for the following permitted uses: Treatment to soil around structures; Applications to building foundations, up to a maximum height of 3 feet.

Other than applications to building foundations, all outdoor applications to impervious surfaces such as sidewalks, driveways, patios, porches and structure surfaces (such as windows, doors and eaves) are limited to spot and crack-and-crevice applications only.

For best results, spray in early morning or late evening when insect activity is minimal. Stand a safe distance from nest and not directly underneath. May cause staining (darkening) of asphalt surfaces and shingles. Hold can upright and point spray opening toward nest with wind at your back. Spray until nest is thoroughly saturated to kill the entire nest population. Residual action will kill wasps and hornets returning to the nest. Wait at least 24 hours before removing the nest.

To kill wasps, hornets, yellow jackets and bees under eaves, screens, window frames, doors, patios, cracks, holes or crevices wherever insects are noticed, spray for about 1 - 2 seconds or until surfaces are moist.

STORAGE & DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

Pesticide Storage: Do not store near heat or open flame. Store in cool dry area away from children.

Pesticide Disposal and Container Handling: Do Not Puncture or Incinerate!

If empty: Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency for disposal instructions.

Wasp & Hornet Killer with Residual

**Up to 20 Foot Jet Blast
Kills on Contact
Prevents Nesting**

ACTIVE INGREDIENTS:

Tetramethrin	0.10%
Permethrin*	0.25%
Piperonyl Butoxide**	0.50%

OTHER INGREDIENTS 99.15%

TOTAL INGREDIENTS 100.00%

- Contains petroleum distillates

* *Cis/trans* ratio: min. 35% (+/-) *cis* and max. 65% (+/-) *trans*.

** (butylcarbityl)(6-propylpiperonyl) ether and related compounds.

EPA Reg. NO. 55809-4 EPA Est. No. 58996-MO-1

Part No. 14009 Net. Wt. 14 oz (396 g)
Item# 1004766

KEEP OUT OF REACH OF CHILDREN

CAUTION:
