Poultry Protector™

All Natural Concentrate

Helps protect your coop & birds from mites, fleas and ticks!

Poultry Protector™

All Natural Concentrate

Non-Toxic

Safe alternative to harsh chemical treatments

33.9 fl. oz. (1Liter)

Made with CareFree Enzymes™

Poultry Protector™ is an all-natural solution to the common problem of mites, lice, fleas and ticks within the backyard flock. The natural enzymes in Poultry Protector™ clean away these pesky bugs safely, without the use of harsh chemical found in so many other insect treatment products. Ridding the coop of these pests helps reduce stress and makes your birds more comfortable so they can do what they do best: lay beautiful eggs, grow, and flourish.

IPSCareFree Enzymes and Manna Pro represent that this product qualifies for exemption from registration under the 25(b) FIFRA.

ACTIVE INGREDIENTS: Potassium Sorbate .1% by weight

INERT INGREDIENTS: Water, Yeast, Citric Acid 99.9%

TOTAL: 100%

STORAGE: Store Poultry Protector in its original container in an area inaccessible to children and pets. Do not reuse empty container. Place in trash or offer for recycling if available. Keep from freezing.

CAUTION: KEEP OUT OF REACH OF CHILDREN. The contents of this bottle are highly concentrated. In case of eye contact, rinse with water. Should any irritation occur, seek medical attention. Do not ingest. Use only as directed. Buyer assumes all responsibility when not used as indicated.

APPLICATION RATE:

This product requires dilution prior to use. Mix with warm, fresh water (75 F - 90 F) according to the chart below.

	Product	Water
Severe Infestation:	20 to 25 fl. oz.	1 gal
Average Infestation:	8 to 12 fl. oz.	1 gal
Light Infestation:	4 to 8 fl. oz.	1 gal

DIRECTIONS FOR USE:

To get started:

- Use Micron Spray (fine mist) for application.
- Remove bedding material.
- Spray entire habitat (top, sides, and surrounding grounds) with a fine mist.
- Replace bedding with new material before introducing birds.
- Repeat this process periodically to maintain appropriate cleanliness.

Birds: Poultry Protector can be sprayed directly onto your birds as often as desired. Keep spray away from the eyes to avoid irritation. To avoid potential chilling and associated stress, Poultry Protector is not recommended for birds under 10 days of age, extremely old or debilitated birds. **For best results,** ensure that Poultry Protector thoroughly coats the birds' skin by manually displacing the feathers or inverting birds completely during application. Spray chest, behind the head, under wings and around vent. **For severe infestations or directions for dipping birds,** please visit www.mannapro.com or call 1-800-690-9908.

Premises: For best results, spray living area and surrounding grounds with a fine mist every other day during the first week and once weekly thereafter. This product can be used for all poultry and fowl.
