**Now it's easy
for you to have
a better lawn**

Early Spring February – April

Crabgrass Preventer plus Fertilizer – prevents crabgrass, foxtail, spurge, oxalis, chickweed and other annual weeds while providing deep, thick greening for up to 2 months. In the Pacific Northwest, STEP™ 1 is Turf Builder® with Moss Control, For St. Augustinegrass, STEP™ 1 is Super Bonus® S.

Late Spring April – June

Weed Control plus Fertilizer – controls dandelion, clover, chickweed and other broadleaf weeds while greening your lawn for up to 2 more months. For St. Augustinegrass, STEP™ 2 is Super Turf Builder®.

Summer June – August

Insect Control with Fertilizer – controls chinch bugs, sod webworms (lawn moths) and other lawn insects plus greens your lawn through the summer. For grub control, apply Scott's® GrubEx® Season-Long Grub Control anytime from April to mid-August.

Fall

August – November
Lawn Fertilizer – specially formulated for the fall – the best time to develop a stronger root system for a more vigorous, thicker lawn. Helps your lawn green up even quicker next spring.

Start anytime

You can begin the Annual Program anytime of the year. Just check the month and select the appropriate Step listed. Apply the remaining Steps at two-month intervals.

Simple and easy

No more guesswork, You simply apply the right product – one Step at a time.

Guaranteed results

Each Step is designed to the specific season to help build a lawn you and your family can enjoy. The 4-Step program provides the nutrients your lawn needs to look its weed-free best and withstand the stresses of heat, drought and family activity.

Additional Late Fall Feeding – Super WinterGuard® with Plus 2®

Weed Control

September – November

4 to 6 weeks after Early Fall Lawn Fertilizer feeding.
Apply as last feeding in fall to help prepare your lawn for winter and kill fall weeds.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Application

- Apply to dry foliage. It is not necessary to water in after application. However, for best results the lawn should receive 1/4 to 1/2 inch of water from rainfall or watering within 2-3 days after application.
- Apply this product in early spring before the 4th mowing or before temperatures are regularly in the 80's (See Map). Rain, snow or freezing weather after application will not affect the performance of this product.
- Do not seed or sod for four growing months following application. This product can prevent seeds from germinating.
- On newly seeded or sodded areas, wait until grass has been mowed at least 4 times.
- Do not use on dichondra, bentgrass or St. Augustinegrass lawns.
- Do not apply to shrubs, flower or garden seed beds or plants.
- Do not apply more than twice a year. Allow at least 4-6 weeks between applications of any other product in this Program.
- Do not apply material to cement, stone, clothing, or shoes. If contact occurs brush off particles to prevent staining. If necessary, rinse off with water.
- This product applies 1.5 lbs of pendimethalin per acre.

Raking

You may rake your lawn lightly to remove grass clippings or debris. But avoid breaking the soil surface in your lawn for 4 months after application. Heavy raking will disturb the crabgrass barrier and reduce the effectiveness of this product.

Do not enter or allow others to enter the treated area until dust has settled. Do not apply this product in a way that will contact any person or pet, either directly or through drift. Keep people and pets out of the area during application.

Spreading Tips

Apply header strips. Then apply product in longest direction of lawn. For best results, use a Scott's spreader.

Spreader Settings		DIRECTIONS
Scott's AccuGreen® Drop Spreaders	5 1/2	Mow lawn first; apply 2 header strips; apply longest direction of lawn, overlapping wheel marks.
Scott's PrecisionGreen® Drop Spreader	5 1/2	Mow lawn first; apply 2 header strips; apply longest direction of lawn, overlapping wheel marks.
Scott's SpeedyGreen® & EdgeGuard® Rotary Spreaders	3 1/2	Make each pass about 5 feet from previous pass to overlap spread width.
Scott's EasyGreen® Rotary Spreader	26 1/2	Make each pass about 30 inches from previous pass to overlap spread width.

This package should cover 5,000 sq. ft. (for example, 50 ft. x 100 ft.). Close spreader when filling, stopping, or turning.

Additional Spreader Settings:

EZ Drop, Republic (#530)	4 1/2
EZ Broadcast, Republic (#540)	3
Scott's Broadcast Tractor Spreader	3

(Non-Scott's spreader settings are approximate. You may need to adjust for proper coverage.)

KEEP OUT OF REACH OF CHILDREN

CAUTION

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals: CAUTION. Harmful if absorbed through the skin. Causes moderate eye irritation. Avoid contact with eyes, skin or clothing.

User Safety Recommendations

User should wash hands before eating, drinking, chewing gum, using tobacco or using the toilet. User should remove clothing immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.

FIRST AID

If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes.

If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after first 5 minutes, then continue rinsing eye.

Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling poison control center or doctor, or going for treatment.

Environmental Hazards: This pesticide is toxic to fish. Do not apply directly to water. Runoff from treated areas may be hazardous to aquatic organisms in neighboring areas. Do not contaminate water when disposing of equipment washwaters. In case of spills, either collect for use or dispose of properly.

STORAGE: Store in a clean, dry place. Reseal opened bag by folding top down and securing.

DISPOSAL: If Empty: Do not reuse this container. Place in trash or offer for recycling if available.

If Partly Filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

Crabgrass Preventer Plus Fertilizer 32-0-8 F 643

Guaranteed Analysis

Total nitrogen (N)	32%
2.3% ammoniacal nitrogen	
16.3% urea nitrogen	
12.3% other water soluble nitrogen*	
1.1% water insoluble nitrogen	
Soluble potash (K ₂ O)	8%
Sulfur (S)	5%
5.0% combined sulfur (S)	

Derived from: methyleneureas, urea, ammonium sulfate, potassium sulfate.

*Contains 9.0% slowly available methylenediurea and dimethylenetriurea nitrogen.
