ACTIVE INGREDIENT:

Trichloro-s-triazinetrione 93.9%

OTHER INGREDIENTS:..... 6.1%

TOTAL INGREDIENTS:..... 100.0%

(Each stick weighs approximately 1/2 lb.)

NET WEIGHT: 4 Lbs. (1.8 Kg)

BioGuard® Sanitizer Silk Smart Sticks with SilkGuard® is a multifunctional chlorinating sanitizer that kills bacteria and controls algae, prevents metal staining and corrosion, reduces scale formation and softens water. Its unique additive actually coats metal surfaces, protecting them against corrosion. Additionally, this additive protects pool surfaces from metal stains and acts like a magnet to bind hard water components, making your pool water soft and smooth. This sanitizer will last longer compared to chlorine products such as liquid bleach or calcium hypochlorite, as it contains SUNSHIELD™, which protects chlorine from sunlight, so you use less. It's the perfect solution for clear, silky smooth, inviting pool water. The SmartGuard® in BioGuard Sanitizer Silk Smart Sticks regulates the dissolving rate of this product so you do not have to add them as frequently. Use BioGuard Sanitizer Silk Smart Sticks for convenience, protection of your pool and equipment, better feeling water, and sparkling water.

For best results follow the BioGuard! Once-A-Week Three Step System; Weekly Add: **1.** BioGuard Sanitizer Silk Smart Sticks with SilkGuard to sanitize your pool. **2.** Shock your pool with Smart Shock®. **3.** Prevent algae with Back Up® or Algae All 60®.

DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in any manner inconsistent with its labeling. Read entire label and use strictly in accordance with precautionary statements and directions.

INITIAL START-UP: Consult your BioGuard dealer for initial water balance and start-up procedures. Ensure that pool equipment is operating properly. Backwash filter and use Strip Kwik® as necessary. Add Stabilizer 100 to establish a minimum level of 40-50 ppm. Superchlorinate pool water with Smart Shock to obtain a chlorine level of at least 1-4 ppm. Add initial dosage of Back-Up® or Algae All 60 algicide per label directions to prevent algae. When using other products as outlined in directions for this product, always follow directions on those products. With the pump operating, add one BioGuard Sanitizer Silk Smart Sticks to the pool skimmer basket for each 5,000 gallons of water or a portion thereof. (** See below) Divide number of sticks evenly for pools with multiple skimmers. Pool circulation must continue for a minimum of 10 – 12 hours to form the protective skin that reduces the erosion of the BioGuard Sanitizer Silk Smart Sticks.

ROUTINE MAINTENANCE: Test pool water periodically. Maintain pH of 7.2-7.6 and chlorine level of 1.5-4.0 ppm. At least twice a season, have your BioGuard dealer analyze for total water balance.

About once a week, with pump operating, add one BioGuard Sanitizer Silk Smart Sticks to the pool skimmer basket for each 5,000 gallons of water. Pool circulation must continue for a minimum of 10 – 12 hours to form the protective skin that reduces the erosion of the BioGuard Sanitizer Silk Smart Sticks. Shock pool with Smart Shock per label directions and add maintenance dosage of Back-Up or Algae All 60 algicide per label directions to prevent algae. Operate pool recirculation system a minimum of 10 hours per day. Adjusting the hours of pool recirculation or the number of sticks added to the skimmer helps to regulate the sanitizer level. After four applications, you will experience the full benefits of softened water and equipment protection from SilkGuard.

**The number of sticks and frequency of addition will vary with the number of swimmers, water temperature, rain showers and pump operating time. You should begin with the one stick per 5,000 gallon rate for heavy bather loads or elevated water temperature.

Reentry into treated swimming pools is prohibited above levels of 4 ppm chlorine due to risk of body injury.

STORAGE AND DISPOSAL: Keep this product dry in original tightly closed container when not in use. Store in a cool, dry, well-ventilated area away from heat or open flame. **CONTAINER DISPOSAL:** Non-refillable container. Do not reuse or refill this container. Offer for recycling if available. Triple rinse container (or equivalent) promptly after emptying.

PRECAUTIONARY STATEMENTS: HAZARDS TO HUMANS AND DOMESTIC ANIMALS: DANGER: Corrosive. Causes irreversible eye damage and skin burns. May be fatal if swallowed or inhaled. Do not get in eyes, on skin or on clothing. Do not breathe dust or fumes. Irritating to nose and throat. Wear protective eyewear (safety glasses). Wear protective clothing and rubber gloves. Wash thoroughly with soap and water after handling and before eating, drinking or using tobacco. Remove contaminated clothing and wash clothing before reuse.

PHYSICAL OR CHEMICAL HAZARDS: STRONG OXIDIZING AGENT. Do not mix with other chemicals. Mix only with water. Never add water to product. Always add product to large quantities of water. Use clean dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter or other chemicals will start a chemical reaction and generate heat, hazardous gas, possible fire and explosion. In case of contamination or decomposition, do not reseal container. If possible, isolate container in open air or well ventilated area. Flood area with large volumes of water.

FIRST AID: IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. **IF ON SKIN OR CLOTHING:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. **IF INHALED:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call poison control center or doctor for treatment advice. **IF SWALLOWED:** Call poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person. **Have the product container or label with you when calling a poison control center or doctor, or going for treatment. IN CASE OF MEDICAL EMERGENCY, CALL 1-877-800-5553. Note to Physician:** Probable mucosal damage may contraindicate the use of gastric lavage.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish and aquatic organisms.

NOTE: Buyer assumes all responsibility for safety and use not in accordance with directions.
