EFFECTIVE AGAINST

This product is a highly effective solution for preventing burrowing, nesting and entry damage caused by **small garden animals including armadillo, beaver, gophers, groundhogs, rabbits, raccoons, skunks and woodchucks** when used according to the following directions: **1:** Shake container well before using. **2:** Flip up top on container to open, and, while gripping handle, shake side to side to release product. **3:** Apply product liberally to areas, tunnels, entries and around plants that need protection. When using near edible crops, apply a perimeter application. **4:** Repeat application as needed, usually every 30 days.

NOTE: Due to possible allergic reaction to one or more of the ingredients used to make this product, do not apply to plants that are grown for human or animal consumption. When applying, ensure that the product does not contact food plants. It may, however, be used on dormant fruit and nut trees. This product works by smell, taste and feel.
