CHEMICAL EMERGENCY NUMBER: 1-800-535-5053
EPA Registration #55541-2-85752 EPA Est No. 055541-MT-001
NET CONTENTS: 8.1 ounces (230g)

PRECAUTIONARY STATEMENTS Hazards to Humans and Domestic Animals

DANGER:

May cause irreversible eye damage if sprayed in the eye at close range. Contact through touching or rubbing eyes may result in substantial but temporary eye injury. Strongly irritating to nose and skin. Do not get in eyes, on skin, or on clothing. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash clothing before reuse.

FIRST AID:

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses after the first 5 minutes, then continue rinsing eye. Call poison control center or doctor for treatment advice. Have product container with you when calling or going for treatment. For emergency medical treatment information call 1-800-535-5053.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call poison control center or doctor immediately for treatment advice.

PHYSICAL OR CHEMICAL HAZARDS: Extremely flammable. Contents under pressure. Keep away from fire, sparks and heated surfaces. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting.

STORAGE & DISPOSAL

STORAGE: STORE IN A COOL DRY PLACE INACCESSIBLE TO CHILDREN AND PETS. Do not store in places where the temperature is above 120°F nor below 32°F. Do not store in hot vehicle or in direct sunlight.

DISPOSAL: DO NOT PUNCTURE OR INCINERATE! Non-Refillable Container. Do not reuse or refill this container.

If empty: Press valve to release all pressure then place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency for disposal instructions.

Disclaimer: To the extent allowable by law, Advanced Products, LLC or its manufacturer shall not be liable for damage, injury, loss, direct or consequential including death arising out of the use of, or inability to use this product.

DIRECTIONS FOR USE:

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

USE RESTRICTIONS: This product may be used only to deter bears which are attacking or appear likely to attack humans. Do not spray this product on objects, tents, or humans; such use has no deterrent effect on bears. Do not seek out encounters with bears or intentionally provoke them. Keep safety clip in place except when practicing with or using the product. Do not eat or allow to be eaten any food or feed materials which may have become contaminated with this product.

This product has a range of up to 30 feet (9 meters). The canister empties in approximately 7.2 seconds.

APPLICATION DIRECTIONS: Special procedures must be followed to arm the container, apply the product and restore the safety clip to disarm the container. Before taking this product into bear country, read the directions below and familiarize yourself with these procedures. If you test-fire this container, make sure the wind is at your back and depress actuator tab for no more than half a second. Do not test-fire in area inhabited by bears. If test-fired, clean nozzle and can with soap and water to remove residue from can. If you have not used this product before, you should obtain a training can and practice with it until you can perform these activities quickly and accurately.

To Arm and Apply

Designed for one-hand operation. Place forefinger through hole in handle with thumb on safety clip curl. With thumb, pull safety clip straight back and off (fig 1).

Depress actuator tab for burst of spray (fig 2). Aim at face and eyes of bear. Depress actuator tab for 1-2 seconds in order to create a barrier of spray between you and the bear. Stop to evaluate the impact of wind and other factors and adjust your aim if needed before spraying again.

To Disarm

Replace safety clip by pushing firmly with thumb until audible "snap" is heard (fig 3). Check to see if safety is completely in place. No gap should be visible between actuator handle and safety clip.
