

The label features a yellow and red gradient background. At the top, the brand name 'Enforcer.' is in black. Below it, 'Flea Spray' is written in a large, bold, white font with a black outline. Underneath, 'for Yards Concentrate VI' is in a smaller black font. On the left, there is an illustration of a flea and a tick on a lawn. On the right, a yellow banner says 'KILLS PESTS* FOR UP TO 8 WEEKS'. Below this, three bullet points list benefits: 'Kills fleas, deer ticks, mosquitoes and other listed insects', 'Covers up to 8,000 sq. ft.', and 'Ready to spray'. A small note says '*Outside the home'. At the bottom left, an 'ACTIVE INGREDIENT' table lists 'Lambda-cyhalothrin' at 0.5% and 'Other Ingredients' at 99.5%, totaling 100.0%. At the bottom right, it says 'For outdoor use around the home only.', 'KEEP OUT OF REACH OF CHILDREN', 'CAUTION See attached booklet for additional precautionary statements.', 'NET CONTENTS: 16 fl oz (473 ml)', and 'LBLEFSY163FB 9-12'.

Enforcer.

Environmental Hazards

This product is extremely toxic to fish. Drift and runoff from treated areas may be hazardous to aquatic organisms in neighboring areas.

This product is highly toxic to bees exposed to direct treatment or residues on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds if bees are visiting the treatment area.

To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. Rinsing application equipment over the treated area will help avoid run off to water bodies or drainage systems.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Do not allow children or pets into the treated area until dry.

Do not water the treated area to the point of run-off.

Do not make applications during rain.

In New York State, this product may not be applied to lawns within 100 ft. of a coastal marsh, or stream that drains directly into a coastal marsh.

READ THE ENTIRE LABEL BEFORE USE.

GENERAL INFORMATION

Enforcer Flea Spray for Yards Concentrate VI kills grubs, ants, fleas, chinch bugs, mosquitoes, sod webworms, aphids, beetles, whiteflies, mites, deer ticks, Japanese beetles, European crane flies, fire ants and other listed insects.

READY SPRAY NOZZLE DIRECTIONS

APPLICATION INSTRUCTIONS

Determine the area to be treated. For lawns, measure the area to be sprayed. For trees, shrubs and flowers, apply as a thorough cover spray. Treat when insects begin to appear and repeat treatment to maintain control only as directed. Apply as directed, keeping in mind that complete coverage is crucial.

Ready Spray Nozzle Instructions

1. Shake container well before use.
2. Connect the Ready to Spray nozzle to a hose, making sure that the dial on the nozzle is in the "OFF"

position with the safety tab in the valve notch.

3. Turn on water. Begin treatment on the furthest area and work back toward the faucet so that you do not come in contact with treated areas.
4. To START spraying, direct nozzle toward treatment area and bend the safety tab back and hold while turning the dial counter clockwise until it stops. Water will automatically mix with the product.
5. Spray desired area until wet to control insect pests. Evenly spray the area by walking at a steady pace and sweep evenly, slightly overlapping treated areas.
6. To STOP spraying, turn the dial counter clockwise **quickly** until it stops and the safety tab engages into the notch on the valve. Turn the water off. To ease pressure before removing nozzle from the hose, bend the safety tab back and dial "ON" until water stops spraying.
7. Make sure the dial is in the "OFF" position with safety tab in the valve notch to store unused product. Keep in a cool area away from heat, sunlight or open flame.

NOTE: This product is non-staining to most home siding depending on age and cleanliness. Prior to applying this product to areas that may contact home siding (vinyl siding in particular), test in a hidden area and recheck in a few hours. If any staining is observed, do not use this product.

PESTS OUTSIDE THE HOME

Enforcer Flea Spray for Yards Concentrate VI is for use on ornamental plants next to building foundations, to surfaces of porches, buildings, screens, overhangs, window frames, garages, patios and other areas where these pests are active.

BARRIER APPLICATION INSTRUCTIONS: Treat when insects begin to appear and repeat treatment to maintain control as directed. Apply a continuous band of insecticide around the foundation of the building, windows, vents, overhangs, doors and other areas to significantly decrease possible access by crawling pests. For optimum results, remove any leaf litter and debris around the foundation. Cut back any branches or vegetation that come into contact with the foundation. Rake back deep mulch and remove any other material that may serve as harborage sites for pests.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

Pesticide Storage: Store in cool, dry area away from children and domestic animals.

Container Disposal: If empty: Non-refillable container. Do not reuse or refill this container. Offer for recycling, if available. Do not rinse unless required for recycling. If recycling is not available: then dispose of container in a sanitary landfill or, if allowed by State and local authorities, by burning. If burned, stay out of smoke.

If partly filled: Call your local solid waste agency for disposal instructions. Unless otherwise instructed, place in trash. Never pour unused product down the drain or on the ground.
