DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
SHAKE WELL BEFORE USING

This product should not be applied to clothing while it is being worn. Under no circumstances should bare skin or clothing on the body be treated. Do not allow contact with treated surfaces until spray has dried. Do not allow spray to contact food, or water supplies.

GENERAL INSTRUCTIONS FOR CLOTHING TREATMENT

For protection against ticks (including those which may carry Lyme disease), chiggers and mosquitoes, apply product as directed below. For further protection, use in conjunction with an insect repellent registered for direct application to skin and utilize the following primary preventive measures. Avoid areas where the pests are found, wear appropriate protective clothing (light-colored, long sleeved shirt and long pants tucked into socks) and inspect body daily for ticks. Pant cuffs should be worn inside the socks or footwear to ensure full protection against ticks and chiggers.

INITIAL TREATMENT INSTRUCTIONS ON NETS, TENTS, SLEEPING BAGS AND BACKPACKS

Do not treat inside of sleeping bag. Spray exterior surfaces of tent only. Select a well-ventilated outdoor area protected from wind and lay out article to be treated. Hold can upright about 6 to 8 inches from surface of the article and spray with a slow sweeping motion to lightly moisten the surface of the fabric. Continue spraying over the entire article, until the outer surface of the article is moist enough to cause a light color change or darkening. Turn the article over and treat the other side as described above. Hang the treated article and allow to dry for at least 2 hours (4 hours under humid conditions) before using.

INITIAL TREATMENT INSTRUCTIONS

1. Select a well-ventilated outdoor area protected from wind and lay out the clothing to be treated (as complete outfit: shirt, trousers and socks). 2. Hold can upright about 6 to 8 inches from surface of the clothing and spray with a slow sweeping motion to lightly moisten the surface of the fabric. 3. Continue spraying over entire outfit, until a total treatment time of 60 seconds has elapsed and the outer surface of the fabric is moist enough to cause a slight color change or darkening. Pay special attention to socks, trouser cuffs and shirt cuffs. 4. Turn the clothing over and treat the other side as described in Steps 2 & 3. 5. Hang the treated clothing and allow to dry for at least 2 hours (4 hours under humid conditions) before wearing. 6. One can will treat one complete outfit.

RE-TREATMENT INSTRUCTIONS

This product contains an active ingredient, which actually binds to the fabric being treated, providing residual protection which lasts a minimum of two weeks, and holds up through several machine washings. DO NOT RE-TREAT CLOTHING MORE THAN ONCE EVERY TWO WEEKS. LAUNDER CLOTHING AT LEAST ONCE BEFORE RE-TREATING. For re-treatment, follow instructions for initial treatment.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage and disposal. **Pesticide Storage:** Store in a cool, dry area. Always store pesticides in the original container. Store away from food or pet food. **Pesticide Disposal and Container Handling:** Nonrefillable container. Do not reuse or refill this container. Do Not Puncture or Incinerate! If empty: Place in trash or other for recycling if available. If partly filled: Call your local solid waste agency for disposal instructions.
