PRODUCT INFORMATION

This product is a systemic insecticide which controls grubs and other turf destroying insects all season long. Due to the residual activity, applications can be made before or during the time when target pests lay their eggs, which enables the opportunity for high levels of control. **Incorporating:** Incorporation of this product can be achieved by cultivation, irrigation, rainfall, or mechanical placement.

Woody Perennials: Onset of protecting is slower than the herbaceous species. A delay of 2 or more weeks should be expected. Longer delays may be expected with larger plants. Application should therefore be made in advance of expected insect activity.

Use this product as a broadcast application to the soil on ornamental gardens and turf early spring through summer on residential areas. Determine the size of the job by measuring the area to be treated. Use the spreader setting chart to determine the appropriate setting for your spreader. Treat as directed from application rate chart. Water in thoroughly after application. Make application prior to anticipated pest infestation to maximize control.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

READ THE ENTIRE LABEL BEFORE USE

RESTRICTIONS FOR ALL USES:

Not for use in commercial greenhouses, nurseries, on sod farms, or on grass grown for seed. **DO NOT** apply when treatment area is water logged or saturated. The treatment area must be in such a condition that rainfall or irrigation will penetrate vertically into the soil profile. **DO NOT** apply this product, by any application method, to linden, basswood or other *Tilia* species in the State of Oregon.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION - Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum or using tobacco.

PERSONAL PROTECTIVE EQUIPMENT (PPE)

Applicators and other handlers must wear:

- Long-sleeved shirt and long pants.
- Chemical-resistant gloves made of waterproof material such as barrier laminate, butyl rubber, nitrile rubber, neoprene rubber, natural rubber, polyethylene, polyvinylchloride (PVC) or viton.
- Shoes plus socks.
- Protective eyewear.

Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.

ENGINEERING CONTROLS

When handlers use closed systems, enclosed cabs, or aircraft in a manner that meets the requirements listed in the Worker Protection Standard (WSP) for agricultural pesticides [40 CFR 170.240(d)(4-6)], the handler PPE requirements may be reduced or modified as specified in the WPS.

USER SAFETY RECOMMENDATIONS

Users Should:

- Wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet.
- Remove clothing immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.
- Remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

ENVIRONMENTAL HAZARDS

This product is highly toxic to aquatic invertebrates. **DO NOT** apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. **DO NOT** contaminate water when disposing of equipment washwaters.

This chemical demonstrates the properties and characteristics associated with chemicals detected in groundwater. The use of this chemical in areas where soils are permeable, particularly where the water table is shallow, may result in groundwater contamination.
