STORAGE AND DISPOSAL

Storage: Store in cool dry area away from heat or open flame.

Disposal: If empty: Nonrefillable container. Do not reuse or refill this container. Offer for recycling, if available. **If partly filled:** Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

CAUTION. Harmful if absorbed through skin. Avoid contact with skin, eyes or clothing. Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco. Remove and wash contaminated clothing before reuse.

FIRST AID

If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a Poison Control Center or doctor for treatment advice.

Have the product container or label with you when calling a Poison Control Center or doctor or going for treatment.

Environmental Hazards

This product is toxic to fish and other aquatic organisms. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area.

Kills on contact

Kills roaches,
ants*, spiders**,
fleas
and other listed insects

Up to 7 months
control***

Use indoors
and outdoors

*Except fire, harvester and pharaoh ants

**Except black widow and brown recluse spiders

***For crickets on non-porous surfaces indoors

STOP READ ENTIRE LABEL BEFORE USE.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. For use around the home only. Do not use on pets.

People and pets should not be allowed in treated areas until spray has dried.

- Do not water the treated area to the point of runoff.
- Do not make applications during rain.
- All outdoor applications must be limited to spot or crack-and-crevice treatments only, except for the following permitted uses:
 1. Treatment to soil or vegetation around structures
 2. Applications to lawns, turf and other vegetation
- All outdoor applications to impervious surfaces such as sidewalks, driveways, patios, porches and structural surfaces (such as windows, doors and eaves) are limited to spot and crack-and-crevice applications only.
- Application is prohibited directly into sewers or drains, or to any area like a gutter where drainage to sewers, storm drains, water bodies or aquatic habitat can occur. Do not allow the product to enter any drain during or after application.

SHAKE WELL BEFORE USING

SPRAYER INSTRUCTIONS

How to prime and care for your sprayer:

1. After shaking product well, remove cap from container and replace with sprayer hose and cap assembly. Tighten securely.
2. Turn sprayer nozzle one half-turn counterclockwise. Hold sprayer below the level of container and prime by pumping trigger 10-15 times until product is dispensed. Adjust nozzle to fine spray or jet stream as needed.
3. To store, turn nozzle to "OFF" position and store with sprayer above level of liquid in container to prevent leakage.
4. Avoid contamination of food, feedstuffs and domestic water supplies. All food-processing surfaces and utensils should be covered during treatment or thoroughly washed before use. Remove pets and birds and cover fish aquariums before spraying.

INDOORS

Spray areas where cockroaches, Palmetto bugs, ants*, clover mites, crickets, cigarette beetles, confused flour beetles, red flour beetles, rice weevils, sawtoothed grain beetles, dermestid beetles, firebrats, water bugs, silverfish, earwigs, box elder bugs, centipedes, millipedes, pillbugs, sowbugs and spiders** are found or normally occur, including dark corners of rooms and closets; cracks and crevices in walls; along and behind baseboards; beneath and behind sinks, stoves, refrigerators and cabinets; and around plumbing and other utility installations. Reapply after three weeks if necessary. Pillbugs, sowbugs and spiders** must be sprayed directly to be killed.

For ants*, apply to ant trails, around doors and windows and wherever else ants may find entrance.

To kill carpet beetles, thoroughly spray along baseboards and edges of carpeting; under carpeting, rugs and furniture; in closets and on shelving; and wherever else insects are seen or suspected.

To kill fleas, thoroughly spray pet beds, resting quarters, nearby cracks and crevices, along and behind baseboards, window and door frames and localized areas of floor and floor covering where fleas may be present. Pet bedding should be replaced with clean, fresh bedding after treating the area. Do not treat pets with this product. To control the source of flea infestations, pets should be treated with a product registered for application to animals.

Note: Test inconspicuous sample of fabric or rug for staining before use. Check carpet manufacturer's warranty and care and maintenance information before using product on your specific brand of carpeting.

OUTDOORS

Ants*, crickets, fleas and earwigs: For treatment of infestation of these insects in areas where there are weeds or bushy, non-crop areas, spray infested areas thoroughly. When treating for fleas, give special attention to areas frequented by pets. For ants*, thoroughly wet hills and runways.

*Except fire, harvester and pharaoh ants

**Except black widow and brown recluse spiders
