

SNS
203TM Patent Pending

Concentrated Natural Pesticide
Soil Drench/Spray
Kills/Repels
Fungus Gnats, Root Aphids, Thrips,
Shore Flies & White Flies

Directions For Use

Test drench/spray for Phytotoxicity on a small area of the soil or plant before use. Do not apply in direct sunlight or under grow lamps, let plants cool off before applying SNS-203. Do not spray on buds or flowers. Shake Well Before Use.

Soil Drench: Mix 2oz (56mL)-4oz (112mL) of SNS-203 per one (1) gallon of water to make ready-to-use (RTU) drench solution. Thoroughly drench affected and surrounding area with RTU. Reapply drench if necessary.

Foliar Spray: Mix 2oz (56mL)-6oz (168mL) of SNS-203 per one (1) gallon of water to make ready-to-use (RTU) spray solution. Spray foliage till wet.

Repeat application 5 to 7 day intervals or as needed. Thorough uniform coverage of plant soil or plant surfaces is essential for good pest control. Thoroughly wash all food areas and food materials contacted with soap and water.

SNS 203 Is Exempt From US EPA Registration Under The Federal Insecticide, Fungicide and Rodenticide Act (FIFRA)

Active Ingredients
Clove Oil 1.5%
Rosemary Oil 0.53%
Other Ingredients 97.97%
Water
Polyglyceryl Oleate
Lauric Acid

Made in USA

rev2.1

Safe Around Children And Pets
When Used As Directed

Caution

Keep out of the reach of children

First Aid

Not intended for human consumption. As with any insecticide, avoid contact with eyes and skin. If in eyes, flush eyes with water for a minimum of 15-20 minutes. If on skin, wash skin with soap and water. If irritation persists contact a physician. Have the product container or label with you when calling a poison control center, doctor or going in for treatment. Poison control center hotline 1-800-222-1222 if over exposure occurs.

Storage and Disposal

Store in a cool, dry area away from heat or open flame. Do not reuse container. Dispose in trash or offer for recycling if available.
