DUSTMITEX

Dust Mite & Flea Control

Kills Dust Mites & Fleas

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Use of this product for the control of bed bugs is prohibited. Applications to carpets are prohibited.

May be applied to most water washable, upholstered furniture, bedding, mattresses, and curtains. Do not use on "dry-clean only" rugs or fabrics. Test in an inconspicuous area to evaluate color fastness prior to overall application. Avoid use on waxed or polished wood, as water marks may develop. DUSTMITEX is designed to kill dust mites and fleas in the environment. Do not treat pets directly with this product.

Pre-Cleaning Instructions: First clean by vacuum, laundering, or steam cleaning before applying DUSTMITEX. When treating couches and chairs, remove cushions, and vacuum all seams and crevices. Clean both top and undersides of mattresses and box springs.

When Treating Drapes, Upholstered Furniture, Mattresses & Box Springs, Pet Bedding: Spray evenly to dampen and penetrate surfaces. Do not saturate. Spray all surfaces including undersides of cushions and wells of furniture. Allow to air dry before replacing cushions, mattresses and box springs. Spray all pet sleeping areas, including pet bedding. Avoid contact with treated surfaces until dry. Use of a fan may circulate air for quicker drying times.

EPA Reg. No. 67419-4 EPA Est. No. 88276-GA-4
See batch code for actual establishment number.

TREATMENT AREA: When applied according to label directions the solution in this 32 oz. spray bottle will treat 100 sq. ft. (10 ft. x 10 ft.).

TREATMENT INTERVAL: DUSTMITEX is effective at reducing dust mite and flea population densities 4-6 weeks after initial treatment. Flea populations are reduced by the control of flea larvae during this time. Do not apply more than once every 8 weeks. Treatment lasts up to six months.

STORAGE & DISPOSAL:

Do not contaminate water, food or feed by storage or disposal. Do not store where children or animals may gain access. Store in original closed container at temperature above 40°F. Rinse empty container with water, empty down drain, and offer for recycling. If recycling is not available rinse and discard empty container in trash.

For information on this product (including health concerns, medical emergencies, or pesticide incidents) call the National Pesticide Information Center at 1-800-858-7378. Have container or label available for treatment advice.
