

**Shake well before using****DIRECTIONS FOR USE**

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

This product provides effective control of pests in and on buildings, structures and their immediate surroundings. Permitted areas of use: apartment buildings, homes, and private residences.

**USE RESTRICTIONS:** Do not allow adults, children, or pets to enter the treated area until sprays have dried. Do not apply this product in a way that will contact adults, children, or pets, either directly or through drift. Remove pets, birds, and cover fish aquariums before spraying. Do not apply as a broadcast or spot-treatment to indoor surfaces at residential sites or sites including nurseries, day care centers, schools, hospitals, and nursing homes. Do not apply directly to sewers or drains, or to any area like a gutter where drainage to sewers, storm drains, water bodies, or aquatic habitat can occur, except as directed by this label. Do not use in food/feed areas of food/feed handling establishments, restaurants or other areas where food is exposed or facility is in operation. Serving areas are areas where prepared foods are served such as dining rooms but excluding areas where foods may be prepared or held. In residential areas, cover all food handling surfaces and cover or remove all food and cooking utensils or wash thoroughly after treatment. Do not apply where food is present. Terro® Stink Bug Killer may be used as a crack and crevice treatment or as a spot application in commercial food/feed areas. All areas where insects hide or through which insects may enter should be treated. Do not apply directly to sewers or drains, or to any area like a gutter where drainage to sewers, storm drains, water bodies, or aquatic habitat can occur, except as directed by this label. Remove pets and cover fish aquaria before spraying. Prevent re-entry of dogs and cats into treated area until spray deposits are dry.

**INDOOR USE:**

**CRACK & CREVICE INJECTION:** Hold container upright and tilt extension tube to a 90° angle with can and inject into cracks and crevices where insects may be hiding, living and breeding. Place injection tip 1/2 inch into cracks, crevices, holes and other small openings where insects may be a problem. Release a one-second spray per spot. In serious infestations, if possible, place spots approximately 12 inches apart. In light infestations or for preventative treatment, place spots approximately three feet apart. In long running cracks, move the injector tip along the crack while spraying. Move at the rate of one linear foot per second in heavy infestations and three feet per second in light infestation. See the additional directions below for effective control of specified insects.

**STINK BUGS, ASIAN LADY BEETLES, BOXELDER BUGS, CARPENTER ANTS, CRICKETS, EARWIGS, MILLIPEDES and SOLENOID BEETLES:** Apply thoroughly to all areas where insects hide and hide, especially in cracks and crevices, and hidden surfaces around sinks and storage areas, behind baseboards, around doors and windows, behind and under refrigerators, cabinets, sinks and stoves, the underside of shelves, drawers, bookcases and in similar areas.

**OUTDOOR USE:**

**PESTS ON OUTSIDE SURFACES OF BUILDINGS:** For control of building infestation due to **Stink Bugs, Ants (except fire ants, pharaoh ants, carpenter ants, and harvest ants), Asian Lady Beetles, Clover Mites, Crickets, Earwigs, Millipedes and Sowbugs (pillbugs)** Spray foundation of building where insects are active and may find entrance up to a height of 2 to 3 feet. Apply as a residual spray to outside surfaces of buildings where insects tend to congregate. Spray areas include screens, window frames, eaves, porches, patios, garages and refuse dumps.

**APPLICATION RESTRICTIONS FOR OUTDOOR USE:**

Do not water the treated area to the point of run-off. Do not make applications during rain. Do not wet plants to the point of runoff or drip. All outdoor applications must be limited to spot or crack-and-crevice treatments only, except for the following permitted uses: (1) Treatment to soil or vegetation around structures; (2) Applications to building foundations, up to a maximum height of 3 feet. Other than applications to building foundations, all outdoor applications to impervious surfaces such as sidewalks, driveways, patios, porches and structural surfaces (such as windows, doors, and eaves) are limited to spot and crack-and-crevice applications only. Not for use in outdoor residential misting systems.

**STORAGE AND DISPOSAL**

Do not contaminate water, food or feed by storage and disposal. **PESTICIDE STORAGE:** Do not store near heat or open flame. Store in cool dry area away from children. **PESTICIDE DISPOSAL AND CONTAINER HANDLING:** Do not puncture or incinerate. If empty, offer for recycling if available or place in trash. If partly filled, call your local solid waste agency for disposal instructions.

Manufactured for:

**Senoret Chemical Co., Inc.**

69 North Locust Street

Lititz, PA 17543 USA

EPA Reg. No. 149-15

EPA Est. No. 33595-MO-2, 33595-MO-3,

33595-MO-4, 11623-GA-2,

Est. No. subscript is first letter of batch code on bottom of container.

Model No.: T3500

LAB-P3500-3

REV-072117

**STORAGE AND DISPOSAL**

Do not contaminate water, food or feed by storage and disposal. **PESTICIDE STORAGE:** Do not store near heat or open flame. Store in cool dry area away from children. **PESTICIDE DISPOSAL AND CONTAINER HANDLING:** Do not puncture or incinerate. If empty, offer for recycling if available or place in trash. If partly filled, call your local solid waste agency for disposal instructions.

**PRECAUTIONARY STATEMENTS****HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**CAUTION:** Harmful if absorbed through skin. Avoid contact with skin, eyes or clothing. Harmful if swallowed. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove contaminated clothing and wash clothing before reuse.

**FIRST AID: IF ON SKIN OR CLOTHING:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15–20 minutes. Call a poison control center or doctor for treatment advice. **IF SWALLOWED:** Immediately call a poison control center or doctor. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything to drink to the person. Do not give anything by mouth to an unconscious person. **HOT LINE NUMBER:** Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For additional information on this pesticide product (including health concerns, medical emergencies, or pesticide concerns, call your poison control center at 1-800-222-1222.

**ENVIRONMENTAL HAZARDS:** This pesticide is extremely toxic to aquatic organisms, including fish and aquatic invertebrates. Do not apply directly to or near water, or to areas where surface water is present, or to inter-tidal areas below the mean high water mark. Drift and run-off may be hazardous to aquatic organisms in water adjacent to treated areas. This product may contaminate water through runoff. This product has a potential for runoff for several weeks after application. Poorly draining soils and soils with shallow water tables are more prone to produce runoff that contains this product. Do not contaminate water when cleaning equipment or disposing of equipment washwater or rinsate. This pesticide is highly toxic to bees exposed to direct treatment on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds while bees are foraging the treatment area.

**PHYSICAL AND CHEMICAL HAZARDS:** Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting. Do not use this product in or on electrical equipment due to the possibility of shock hazard. Do not use on surfaces that can be harmed or stained by water.

**ALMACENAMIENTO Y ELIMINACIÓN**

No contamine el agua, los alimentos o el forraje al almacenarlo o eliminarlo. **ALMACENAMIENTO DEL PESTICIDA:** No almacene el producto cerca de fuentes de calor o fuego. Almacene en un área fresca y seca, lejos del alcance de los niños. **ELIMINACIÓN DEL PESTICIDA Y MANIPULACIÓN DEL ENVASE:** No perforo ni incinere el envase. Si está vacío: Si está disponible, ofrézcalo para reciclaje o colóquelo en la basura. Si está parcialmente lleno: Llame a su agencia local de desechos sólidos para obtener instrucciones sobre cómo eliminar el producto.

**DECLARACIONES DE PRECAUCIÓN****RIESGOS PARA SERES HUMANOS Y ANIMALES DOMÉSTICOS**

**PRECAUCIÓN:** Dañino si se absorbe a través de la piel. Evite el contacto con la piel, los ojos o la ropa. Dañino si lo ingiere. Lávese meticulosamente con agua y jabón después de manipular el producto y antes de comer, beber, usar goma de mascar, tabaco o el inodoro. Retire la ropa contaminada y lávela antes de volverla a usar.

**PRIMEROS AUXILIOS: SI ENTRA EN CONTACTO CON LA PIEL O LA ROPA:**

quítese la ropa contaminada. Lave la piel de inmediato con abundante agua durante 15 o 20 minutos. Llame a un centro para el control del envenenamiento o a un médico para que le recomiende un tratamiento. **SI LO TRAGA:** Llame de inmediato a un centro para el control del envenenamiento o a un médico. No induzca el vómito a menos que así se lo haya ordenado un centro para el control del envenenamiento o un médico. No administre ningún líquido a la persona. No administre nada por la boca a una persona inconsciente. **LÍNEA DE AYUDA:** Tenga consigo el envase o la etiqueta del producto cuando llame a un centro de control de envenenamiento o a un médico o vaya a recibir tratamiento. Para más información sobre este producto pesticida (incluyendo problemas de salud, emergencias médicas o problemas con el pesticida, llame a un centro para el control del envenenamiento al 1-800-222-1222.

**RIESGOS PARA EL AMBIENTE:** Este producto es extremadamente tóxico para los organismos acuáticos, incluyendo los peces y los invertebrados acuáticos. No aplique directamente en el agua ni cerca de esta, ni en áreas donde exista agua superficial ni en áreas entre mareas alta y baja por debajo de la pleamar media. El producto arrastrado por la corriente o procedente de la escorrentía puede ser peligroso para los organismos acuáticos en aguas adyacentes a las áreas tratadas. Este producto puede contaminar el agua mediante la escorrentía. Este producto tiene el potencial de producir escorrentía durante varias semanas después de la aplicación. Los suelos con drenaje deficiente y los suelos con capas freáticas poco profundas son más propensos a producir escorrentía que contenga este producto. No contamine el agua cuando limpie los equipos ni desche el agua del lavado o del enjuague del equipo. Este pesticida es extremadamente tóxico para las abejas expuestas al tratamiento directo en cultivos en floración o polazas. No aplique este producto ni permita que se transfiera a las cosechas en floración ni a la maleza mientras las abejas se encuentran en el área de tratamiento.

**RIESGOS FÍSICOS Y QUÍMICOS:** Contenido bajo presión. No utilice ni almacene el producto cerca de fuentes de calor o fuego. No perforo ni incinere el envase. La exposición a temperaturas superiores a 130° F (54.4°C) puede causar una explosión. No utilice este producto dentro de o sobre equipos eléctricos, debido al riesgo de descarga eléctrica. No utilice en superficies que se puedan dañar o manchar con el agua.
