APPLICATION DIRECTIONS:

While wearing gloves, place one block of bait in the bait station. See

seen. If additional units are to be used, place bait stations at 8 to 12
foot intervals. While wearing gloves, replace bait in bait station when
bait is consumed or contaminated. Maintain an uninterrupted supply of
fresh bait for at least 15 days or until signs of mouse activity cease in
infested areas.

Follow-up: Wearing gloves, collect and properly dispose of any
