SNAKE STOPPER™

Snake Repellent Ready to Spray

The unique blend of ingredients in this product trigger escape/avoidance behavior in snakes. Snakes actually taste the air around them (via a receptor organ known as the Jacobson's organ), this product provides a powerful scent/taste repellent that snakes find unpleasant and which triggers a natural reaction to escape and avoid. Bonide® Snake Stopper™ Snake Repellent RTS does not harm snakes, it drives them away, naturally.

Buyers Guarantee Limited to Label Claims.

Quart

Bonide® SNAKE STOPPER™ Snake Repellent RTS effectively repels snakes from around your home. Apply around homes, garages, barns, swimming pools, gardens, garden sheds, woodpiles, and other areas where snakes may be a problem. May be used in areas where children and pets play, when used as directed. **SHAKE WELL** before each use.

This product is exempt from registration with the Federal EPA under section 25(b) of FIFRA, and as such, is not registered with the Environmental Protection Agency. Bonide represents that the ingredients qualify for exemption from registration under FIFRA.

HOW IT WORKS

The unique blend of ingredients in this product trigger escape/avoidance behavior in snakes. Snakes actually taste the air around them (via a receptor organ known as the Jacobson's organ), this product provides a powerful scent/taste repellent that snakes find unpleasant and which triggers a natural reaction to escape and avoid. Bonide® SNAKE STOPPER™ Snake Repellent RTS does not harm snakes, it drives them away, naturally.

DIRECTIONS FOR USE

- Wear Eye Protection
- Wear Gloves

HOW TO USE

Perimeter/Barrier Treatment

Use with caution on green vegetation during periods of high heat, direct sun or when temperatures exceed 90°F. Using the convenient hose-end applicator on this package, spray a band 2 - 3 feet wide, next to and around the area you wish to protect. Do not water in after application. Reapply product after heavy rains or as needed.

INSTRUCTIONS FOR HOSE END ATTACHMENT CONTAINERS

1. **Shake container thoroughly**, then attach to garden hose.
2. Turn on water supply at the source. Water pressure will build in hose since the sprayer is already in the "OFF" position.
3. To apply product, bend safety tab and turn the control valve clockwise to the "ON" position.
4. For best results, hold sprayer and bottle level, and direct spray in a sweeping side-to-side movement. Spray the contents of bottle evenly over the lawn surface. Do not overlap areas already sprayed.
5. When spraying is complete, turn the control valve back (counterclockwise). Turn the water off. Disconnect hose from applicator and store product in original container.

ENDANGERED SPECIES CONSIDERATIONS

Before using this product, consult with State or local wildlife authorities to ensure that use does not present a hazard to any threatened or endangered species. Where necessary, obtaining all required permits and licenses is the responsibility of the applicator.

User Precautions - Reminder

Some snakes are poisonous, **NEVER** attempt to pick up a snake unless you are properly trained, experienced and know which species you are dealing with. Handling wild snakes is best left to experts. Contact your local wildlife management office for further information.

Precautionary Statements

Wear Eye Protection and Gloves. Product can cause moderate eye irritation. For certain individuals, skin irritation may occur.

First Aid

In case of eye contact, flush with plenty of water. In case of skin irritation, wash area thoroughly with soap and water. Seek medical attention if irritation persists.

Storage and Disposal

Store and transport in an upright position. Store only in original container, in a dry place inaccessible to children and pets. Do not reuse empty container. Discard empty container in trash.

Other Precautions: Do not apply directly to water.

NOTICE: Buyer assumes all responsibility for safety and use not in accordance with label directions.
