KEEP OUT OF REACH OF CHILDREN

Hi-Yield® Snake Repellent

Hi-Yield® Snake Repellent effectively repels snakes from areas where they are not wanted. Apply around homes, garages, barns, swimming pools, garden sheds, woodpiles and other areas where snakes may be a problem. May be used in areas where children and pets play. **Hi-Yield® Snake Repellent** is biodegradable and will not harm lawns, flowerbeds or other desirable plants when used as directed.

HOW IT WORKS

The unique blend of ingredients in this product trigger escape/avoidance behavior in snakes. Snakes actually taste the air around them (via a receptor organ known as the Jacobson's organ). This product provides a powerful scent/taste repellent that snakes find unpleasant and which triggers a natural reaction to escape and avoid. **Hi-Yield® Snake Repellent** does not harm snakes, it drives them away, naturally.

HOW TO USE

PERIMETER/BARRIER TREATMENT

Lightly sprinkle a band 6 - 8 inches wide, next to and around the area you wish to protect. It is not necessary to completely cover the ground with product. One pound will treat a band 8 inches wide by 50 feet in length. If after 2 weeks no snakes have been observed, a broadcast/maintenance application may be made at the rate of 1 lb. per 100 sq. ft. **Do not water in after application. Reapply product after heavy rains or every two weeks to obtain best results.**

SNAKE PREVENTION TIPS

- Keep grass cut low and vegetation trimmed away from home and other buildings/structures
- Cut down heavy brush or trim back hedges
- Keep compost piles away from home and other buildings on your property
- Eliminate debris such as leaf piles/rock piles

- Carefully inspect foundations and fill any cracks/crevices that would allow a rodent or snake to enter.
- Seal small gaps under doors, decks, fences, etc.

User Precautions – Reminder

Some snakes are poisonous, NEVER attempt to pick up a snake unless you are properly trained, experienced and know which species you are dealing with. Handling wild snakes is best left to experts. Contact your local wildlife management office for further information.

FIRST AID

Product can cause moderate eye irritation. For certain individuals, skin irritation may occur. In case of eye contact, flush with plenty of water. In case of skin irritation, wash area thoroughly with soap and water. Seek medical attention if irritation persists.

STORAGE AND DISPOSAL

Store and transport in an upright position. Store only in original container, in a dry place inaccessible to children and pets. Do not reuse empty container. Discard empty container with trash.

Other Precautions: Do not apply directly to water.

This product is exempt from registration with the Federal EPA under section 25(b) of FIFRA, and as such, is not registered with the Environmental Protection Agency. Voluntary Purchasing Groups, Inc. represents that this product and its ingredients qualify for exemption from registration under FIFRA.
