

**FIRST AID**

**IF ON SKIN OR CLOTHING:** • Take off contaminated clothing. • Rinse skin immediately with plenty of water for 15-20 minutes. • Call a poison control center or doctor for treatment advice.

**IF SWALLOWED:** • Immediately call a poison control center or doctor. • Do not induce vomiting unless told to do so by a poison control center or a doctor. • Do not give any liquid to the person. • Do not give anything by mouth to an unconscious person.

**NOTE TO PHYSICIAN:** Contains petroleum distillate – vomiting may cause aspiration pneumonia.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For information regarding medical emergencies or pesticide incidents, call 1-888-740-8712.

**PRECAUTIONARY STATEMENTS**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**CAUTION:** Harmful if absorbed through skin. Avoid contact with skin, eyes, or clothing. Wear long sleeved shirt and long pants, shoes and socks, and gloves. Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco. Remove and wash contaminated clothing before reuse.

**ENVIRONMENTAL HAZARDS:** This pesticide is extremely toxic to aquatic organisms, including fish and invertebrates. Do not apply directly to water. Do not contaminate water when disposing of equipment wash waters or rinsate. See directions for Use for additional precautions and requirements.

To protect the environment, do not allow pesticide to enter or runoff into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area.

This pesticide is highly toxic to bees exposed to direct treatment on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds while bees are actively visiting the treatment area.

**PHYSICAL OR CHEMICAL HAZARDS:** Flammable. Contents under pressure. Keep away from heat, sparks and open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting.

**DIRECTIONS FOR USE**

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

**PRECAUTIONS AND RESTRICTIONS:** Do not use in commercial food processing, preparation, storage or serving areas. Do not apply when food is present. Remove or cover exposed food. Cover all food preparation surfaces and utensils or thoroughly wash before reuse. • Remove pets and birds and cover fish aquariums before spraying. • Do not enter or allow others to enter treated area until sprays have dried. • Do not apply this product in a way that will contact adults, children or pets, whether directly or through drift. • Do not water the treated area to the point of run-off. • Do not make applications during rain. • All outdoor applications must be limited to spot or crack-and-crevice and wasp and hornet nest treatments only. • All outdoor applications to impervious surfaces such as sidewalks, driveways, patios, porches and structural surfaces (such as windows, doors, and eaves) are limited to spot and crack-and-crevice applications, only.

**For Control of Nests of Wasps, Yellow Jackets, and Hornets:** The best time to spray is in the early morning or early evening, when air temperature is cooler and most insects are in the nest and little activity is observed around the nest opening. Spray only if it is not windy. Stand a safe distance from the nest, not directly underneath it. Hold container upright at arms length, pointing the actuator at nest and spraying the opening of the nest first. Then spray the rest of the nest until it is saturated. Treated insects will fall out of the nest and die. Any insects returning to the treated nest will also be killed. Wait 48 hours before removing the nest. Foliage of desirable plants contacted during spraying should be hosed off with water.

**For Control of Ants and Spiders:** (Outdoors only) For Ants and Spiders found in areas such as electric service boxes, water meter boxes, telephone boxes, along house foundation, foundation vents, sills and ledges, etc., spray in short bursts to contact pests. Ant trails, runways, and hills should also be sprayed as necessary. Do not spray foliage of desirable plants. If spray does contact foliage, hose off with water.

**STORAGE AND DISPOSAL:**

Do not contaminate water, food, or feed by storage and disposal.

**Pesticide Storage** Store in a cool dry area. Always store pesticides in the original container. Store away from food and pet food. **Pesticide Disposal and Container Handling** Do Not Puncture or Incinerate! Nonrefillable container. Do not reuse or refill this container. If empty: Place in trash or offer for recycling if available. If partly filled: Call your local solid waste agency for disposal instructions.

Federal regulations prohibit CFC propellents in aerosols.  
EPA Reg. No. 1021-1613-79533 EPA Est. No. 3657-WI-2

MANUFACTURED FOR:  
Wisconsin Pharnacal Company LLC  
1 Pharnacal Way, Jackson, WI 53037  
AVAILABLE AT WALGREENS  
100% SATISFACTION GUARANTEED

**AEROSOL**

**WASP + HORNET**

- Kills wasps, yellow jackets and hornets on contact
- Jet spray reaches nests 20 ft above ground

**ACTIVE INGREDIENTS:**

Tetramethrin.....	0.200%
Esfenvalerate.....	0.031%
*OTHER INGREDIENTS:.....	99.769%

**TOTAL:**..... 100.000%

\*Contains petroleum distillates

**KEEP OUT OF REACH OF CHILDREN**
