

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

CAUTION: Causes moderate eye irritation. Avoid contact with eyes or clothing. Use adequate ventilation and avoid breathing dust. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse. When using this product during prolonged exposure, wear a minimum of a NIOSH-approved particulate filtering facepiece respirator with any N, R or P filter; or a NIOSH-approved elastomeric particulate respirator with any N, R or P filter; or a NIOSH-approved powered air-purifying respirator with an HE filter.

ENVIRONMENTAL HAZARDS STATEMENT

For terrestrial uses: Do not apply to water, or to areas where surface water is present or to intertidal areas below the mean water mark. Do not contaminate water when disposing of equipment washwater or rinsate.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

PRODUCT INFORMATION

This product is a ready-to-use insecticide which provides effective control against crawling and flying insect pests and plant parasitic mites. Surfaces treated with this product will control flying insect pests if they land on the treated surface. This product is a mechanical insect killer. When applied as a wettable powder using standard application equipment, it adheres to the outer surface of the target substrate, contact with an insect pest or mite results in the static transfer of a few particles of this product which absorb the protective lipid layer necessary for their survival. As a result, the insect will desiccate. Insect pests and mites will not become immune to this product mode of action. Insect pests that come in contact or ingest this powder will die within 48 hours.

APPLICATION

This product is intended for application using commercially available hand dusters, power dusters or other suitable means for application to areas where insect pests are found. This product can be applied as a wettable powder (WP). WP treatments are intended both for indoor and outdoor applications and can be applied in a targeted manner.

Wettable Powder Mixing Instructions:

1. Fill spray tank with water and add recommended rate of this product to match spray tank application acreage and mix to ensure dispersion.
2. Add optional non-ionic surfactant according to label rate.

Notes:

- The recommended maximum addition rate of this product to water is 1.65 lbs per gallon.
- Non-ionic surfactants are used to improve spreading on hydrophobic surfaces.
- It is advised to mix this solution directly prior to spraying and apply the entire batch within 8 hours.
- When in suspension, this product will settle if left undisturbed for more than 1 hour, therefore, mix prior to restarting the application.
- When proper coverage is obtained, a visible white residue will be apparent on the treated surface.

Wall Treatment:

Apply as a wettable powder to vertical surfaces paying particular attention to cracks and crevices. The amount of product to be applied will vary with the site but should be in the range of 2-5 oz/100 square feet when applied as a single, even coat to the target area.

FOOD AREAS OF FOOD/FEED HANDLING ESTABLISHMENTS

Food/feed handling establishments are places other than private residences in which food/feed is held, processed, prepared or served. Apply this product where these listed insect pests may be entering the structure, traveling, breeding or harboring. Remove or cover all food or feed items in the treatment area before applying product. Treat open spaces below floors, above ceilings, within walls, under stairs, underneath and behind equipment or appliances, around pipes and sinks, in utility closets and around garbage and waste cans. In food handling areas, or areas where food or feed products are prepared or stored, apply as a crack & crevice or spot treatment. As a crack & crevice treatment, apply sparingly into cracks and crevices using equipment designed to place powder into specific locations. Limit spot treatments to walls or floors where pests are suspected of hiding. No individual spot treatments should exceed 2 square feet. For best results, apply to dry areas. Repeat treatment on dry surfaces if this product has been removed to maintain control of problem insect pests. Apply as a dry powder OR wettable powder in a targeted manner. The amount of product to be applied will vary with the site but should usually be in the range of 2-5 oz/100 square feet.

RESIDENTIAL USES (INDOOR AND OUTDOOR APPLICATIONS)

In living areas, make applications in such a manner as to avoid deposits on exposed surfaces or introducing the material into the air. Application as wettable powder will facilitate a targeted application. Treat a small area of the surface to be treated and look for staining or other adverse reactions before making regular application.

WETTABLE POWDER MIXING INSTRUCTIONS PER 1 GALLON CONTAINER

1. Fill container with water and add 1lb this product. Close and shake the container for 15 seconds to disperse the this product.
2. Carefully decant into handsprayer, pressurize and apply a single, even coat to the target area.

To apply this product directly into cracks and crevices, use a bulbous duster or other suit- able equipment. Apply lightly and uniformly to infested areas. The amount of product to be applied will vary with the site but should usually be in the range of 2-5 oz/100 square feet applied as either a dust or wettable powder.

Indoor Use: Lightly coat a thin layer of this product in areas where target pests are found and may hide such as cracks and crevices, behind and beneath refrigerators, cabinets, stoves, garbage cans and in and around sewer pipes and drains, window frames and in attics and basements. Dust insect pests directly if possible. Repeat treatment if the product is inadvertently removed. The amount of product to be applied will vary with the site but should usually be in the range of 2-5 oz/100 square feet.

Fleas: Thoroughly treat floor and bedding in and around pets' sleeping quarters. Treat surrounding cracks and crevices, baseboards, carpeting and wherever fleas are suspected.

Carpet Beetles: Dust along baseboards, carpet edges, under carpeting, furniture, in closets and shelving where these insect pests are seen or suspected.

Bedbugs: Dismantle bed frame and remove bedding. Do not apply product to bedding. Apply this product to the bed frame, mattress and box spring. Application to mattresses and box springs is intended for treatment of seams, edges and tufts only. Do not treat the entire surface of the mattress or box spring. After four hours, vacuum the dust from the mattress. Also apply the product to cracks and crevices in the sleeping area such as baseboards, behind pictures/wall hangings, along and underneath carpet edges and other articles/furniture in the bedroom or sleeping area.

RESTRICTIONS: Do not apply to stuffed animals or toys.

Outdoor Use: Lightly coat a thin layer of this product in areas where these insect pests are found such as patios, outdoor sills, window and door frames. Apply around foundations, along ant trails and around sewer pipes and drains. The treatment can be repeated in the event of rain or if the white residue is not visible. The amount of product to be applied will vary with the site but should usually be in the range of 2-5 oz/100 square feet.

To the extent consistent with applicable law, Manufacturer makes no warranty, expressed or implied, regarding the performance of this product that extend beyond the statements made on this label.

Kills the following:

- Beetles, Moths,
- Weevils, Flies, Gnats,
- Maggots, Worms,
- Slugs, Caterpillars,
- Aphids, Borers,
- Leafhoppers, Leaf
- Miners, Loopers and
- other insects as listed:
- Ants (excluding Fire,
- Harvester, Carpenter and
- Pharaoh ants),
- Crickets, Earwigs,
- Silverfish, Boxelder
- Bugs, Stink Bugs

BED BUG KILLER

DIATOMACEOUS EARTH
(85% Silicon Dioxide)

**EFFECTIVE AND LONG LASTING
WHEN KEPT DRY**

ACTIVE INGREDIENT:

Diatomaceous earth, chemical composition consisting of:

Silicon Dioxide 85.0%

OTHER INGREDIENTS 15.0%

Total: 100.0%

**KEEP OUT OF REACH OF CHILDREN
CAUTION**

See Back Panel for First Aid and Additional Precautionary Statements

Net Wt.: 9 oz (255 g)

FIRST AID:

If in Eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For medical emergencies, call the poison control center at 1-800-222-1222. For general information on this product, contact the National Pesticides Information Center (NPIC) at 1-800-858-7378, Monday through Friday, 8 AM to 12 PM PST, or at <http://npic.orst.edu>.
